---

NEW YORK TYPOGRAPHICAL UNION NUMBER SIX

TO THE LEGISLATURE OF THE  
STATE OF NEW YORK

---

The Governors of the Society of the New York  
Hospital respectfully present their Annual Re-  
port of the state of the Institutions under their  
charge for the year 1908, as required by law.

ANNUAL REPORT  
OF THE  
GOVERNORS OF THE SOCIETY OF THE NEW  
YORK HOSPITAL FOR THE YEAR 1908.

---

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III, the Governors of the Society of the New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the Department for the Treatment of Mental Diseases, known as Bloomingdale and the Convalescent Cottages at White Plains, Westchester County.

During the year the Society has lost by death three of its oldest Governors, James William Beekman who had served for twenty-four years, Edward King who had served for twenty years, and George Griswold Haven who had served for sixteen years.

A. Brayton Ball, M.D., died October 26, 1908. He was an interne on the medical side of the House Staff during 1863-64, and was appointed Attending Physician in 1888, and served seventeen years. Upon his resignation as Attending Physician in 1905, he was appointed Consulting Physician and continued in office to the date of his death.

The resignation of Mr. Ludlam, Superintendent of the Hospital, after having served the Institution for nearly thirty-two years, is a source of regret to all connected with the Hospital. His faithful and wise ad-

ministration of his trust, his rare good judgment, his impartial and yet kindly decision in matters often involving the most delicate questions, and his conscientious discharge of the duties of the office, is deeply appreciated by the Governors and the members of the Medical Board. He has been a wise friend and adviser of the young men connected with the House Staff, the nurses, and, in fact, all the employees of the Hospital. Probably few, if any, equal him in knowledge of hospital management. He is still to retain an Emeritus connection with the Hospital so that his successor will have the help of his advice and suggestions. The Governors have placed on their minutes their sense of the obligation of the Hospital to Mr. Ludlam.

The Governors gratefully acknowledge the following legacies which they have received during the year, viz.: a legacy of \$25,000 from George C. Taylor; a legacy of \$5,000 from Katherine R. Welman to endow a free bed in memory of her father, Charles E. Strong, for many years a Governor of this Hospital; and a legacy of a residuary interest in the estate of Betsy Head from which we have received \$13,150.97.

Such legacies are of the utmost consequence for the continued growth of the institution, and it has always been the effort of the Society to encourage them. In 1791 the earliest printed report now extant contained the following:

“N. B.—It may not be improper to inform such Persons whose Inclinations may lead them to contribute to the Support of this Charitable Institution, by Will, that the Form for that purpose must be,—

“*Item*, I give and bequeath to the Society of the Hospital in the City of New York, in America, the sum of —————.”

The legal name of the Society has since been changed, but its needs remain. The appended report of the Treasurer shows that the available income is now only just sufficient to meet the constantly increasing expense of administering this ancient and far-reaching charity. If the

Society is to do its full duty and improve to the utmost its many opportunities for public service, additional means are essential; and it must still rely, as at the time of its foundation, upon those "public-spirited persons, influenced by principles of benevolence" who may now be generously disposed to help it.

GEORGE L. RIVES,  
*President.*

HENRY W. CRANE,  
*Secretary.*

NEW YORK, *February 2, 1909.*

## In Memoriam.

---

GEORGE GRISWOLD HAVEN

Died March 18, 1908.

The Board of Governors of the New York Hospital with sorrow and regret inscribe upon their minutes their last tribute of respect to the memory of

GEORGE GRISWOLD HAVEN,

for sixteen years a Governor of the Hospital.

During Mr. Haven's long service his devotion to the interests of the Hospital was alike energetic and continuous. For many years he served a double term on its Visiting Committee, and later on its Executive Committee; and his familiarity with the work of the Hospital, his genial personal relations with the distinguished members of its Medical Board, and his interest in the financial condition of the Institution so well shown in his services on the Committee on Finance of which he was long a member forcibly illustrate his devotion to the cause of suffering humanity and the welfare of this institution, to which he so unselfishly gave the best of his time, experience, and counsel.

The Board of Governors direct this imperfect tribute to his memory to be inscribed upon their records, and a copy of the same to be furnished to his bereaved family, to which the Board tender their deepest sympathy.

*Extract from the minutes of the Board of Governors, April 7, 1908.*

## In Memoriam.

---

JAMES WILLIAM BEEKMAN.

Died August 7, 1908.

JAMES WILLIAM BEEKMAN, who died on the 7th of August, 1908, was, at the time of his death, one of the senior members of this Board, having been elected a Governor in 1884. He was descended from one of the earliest Dutch settlers of New York, and his family from the very foundation of the Hospital had always manifested their interest in its welfare. He was the seventh of his name as a member of the Society and the fourth of his name as a Governor.

During the twenty-four years of his useful service on this Board, his devotion to the charitable work of the Society, his constant courtesy and his genial wisdom endeared him to all his colleagues. The Board of Governors direct the foregoing minute to be entered in their records and a copy sent to Mr. Beekman's family.

*Extract from the minutes of the Board of Governors, September 1, 1908.*

## In Memoriam.

---

EDWARD KING.

Died November 18, 1908.

The Board of Governors of the New York Hospital record with sorrow the death of their distinguished friend and colleague, EDWARD KING, which occurred on the 18th of November, 1908.

During the last twenty years Mr. King was a Governor of the New York Hospital and gave much time and attention to all departments of its work. He served on almost all the important committees, and to him the hospital is indebted for the framing of the By-law which secures to it an invested capital resulting from the sale of its real estate in connection with the removal of Bloomingdale Asylum to White Plains. He was also author of the present By-law relating to the Executive Committee, its formation, powers, and duties. Both of these matters were made the subject of special and earnest study by him, and have been most valuable in their results to this Institution.

Mr. King, by his long financial training, was always a wise and judicious adviser, and his faithful and considerate devotion to duty will cause him to be greatly missed at the meetings of the Board.

The Governors share with the general community in the loss of a justly honored citizen, whose character was without reproach.

RESOLVED, That a copy of these minutes be forwarded to the family of Mr. King.

*Extract from the minutes of the Board of Governors, December 1, 1908.*

## TREASURER'S REPORT.

In Medical Wards, Male.....	48	45	
Female.....	24	26	
		72	71
In Surgical Wards, Male.....	46	42	
Female.....	38	33	
		84	75
In Private Rooms, Male.....	9	7	
Female.....	5	13	
		14	20
Total.....		170	166
PATIENTS ADMITTED DURING YEAR:			
To Medical Wards, Male.....	859	848	
Female.....	551	617	
		1,410	1,465
To Surgical Wards, Male.....	1,040	1,185	
Female.....	887	773	
		1,927	1,958
To Private Rooms, Male.....	162	143	
Female.....	165	147	
		327	290
Total.....		3,664	3,713
TOTAL PATIENTS TREATED IN HOSPITAL WARDS AND PRIVATE ROOMS DURING YEAR:			
Male.....	2,164	2,270	
Female.....	1,670	1,609	
		3,834	3,879
PATIENTS DISCHARGED DURING YEAR:			
Cured.....	1,868	1,792	
Improved.....	1,370	1,196	
Unimproved.....	116	156	
Transferred to other institutions.....	67	69	
Died.....	415	496	
Total.....		3,836	3,709
PATIENTS IN HOSPITAL END OF YEAR:			
In Medical Wards, Male.....	35	48	
Female.....	25	24	
		60	72
In Surgical Wards, Male.....	54	46	
Female.....	38	38	
		92	84
In Private Rooms, Male.....	6	9	
Female.....	10	5	
		16	14
Total.....		168	170

TOTAL PATIENT DAYS TREATMENT:		1908.	1907.
Free Ward .....		55,803	41,761
Endowed Bed .....		329	348
Pay Ward .....		14,028	20,272
Private Room.....		6,843	7,064
Total.....		77,003	69,445
PERCENTAGE:			
Free Ward Days.....		.724	.63
Endowed Bed Days.....		.004	.01
Pay Ward Days.....		.182	.29
Private Room Days.....		.09	.09
AVERAGE PATIENTS PER DAY:			
Free Ward.....		141	120
Endowed Bed.....		1	2
Pay Ward.....		35	49
Private Room.....		17	16
Total.....		194	187
Average time per patient in Hospital Wards.....		18	17
Daily average cost per private room patient.....		\$6.39+	\$6.86
Daily average cost per ward patient.....		2.74+	2.83

This cost for both ward and private patients was arrived at by a schedule of percentages which was largely conjectural, but which was adopted after conference by the Hospital officials.

#### Emergency Ward.

Patients under treatment first of year, Male.....	4	1
Female....	2	1
	6	2
Patients admitted during year, Male.....	4,699	5,046
Female.....	1,199	1,015
	5,898	6,061
Total patients treated during year, Male.....	4,703	5,046
Female.....	1,201	1,015
	5,904	6,061

#### Dispensary.

Excess of cost over receipts.....	186,844.33	184,794.25	2,050.08	.....

## ASSOCIATE ATTENDING PHYSICIANS AND SURGEONS.

The radical departure from long-established custom in the creation of the new grade of Associate Attending Physicians and Surgeons, which occurred during the year, has wrought a change which has already proved most satisfactory. The Associates attend to certain details of work in the wards and Operating Theatre. Also, while on duty in the Hospital, they serve as Principals in charge of the service in the Out-Patient Department, and as Clinical Registrars, the latter office having been abolished as a separate grade, and merged into the former.

## AGGREGATE SERVICE.

The total number of individuals receiving relief at the hands of the Hospital (including the House of Relief) was 64,172. They were distributed as follows:

	1908.	1907.
At the Hospital.....	25,909	24,913
At the House of Relief.....	38,263	35,671
Total.....	64,172	60,584

Seventy-two per cent. of those who were admitted to the Hospital wards received gratuitous treatment (not including 5,904 treated in Accident and Reception Wards, all of whom were treated without charge). At the House of Relief 96.7% were treated gratuitously.

## COST OF MAINTENANCE.

The total cost of maintenance of the several departments of the Hospital for the year was slightly in advance of that of the preceding year (\$923.15). This was due to the larger expenditure for the items of Heat and Light, Contingent (alterations and replacements) and Pay Roll. It is gratifying to note the practical decrease in the expenditure for general supplies. This is conspicuously true of food supplies. The consumption of milk and cream was less in quarts, but a change in dealers, involving a considerable advance in price, increased the expenditure for these two items by \$3,530.50. This includes 7,260 quarts of milk, costing \$1,007.47, distributed to tubercular out-patients. In spite of this, however, the decrease in cost of all food supplies was \$7,707.73. The total reduction (exclusive of the items above mentioned, which were in excess) was \$18,784.79.

Other economies in the line of medical and surgical supplies are in practice, or soon to be put in practice, which, it is believed, will produce very satisfactory results.

### *CHANGE OF HOSPITAL RATES.*

The change of the per diem rate from \$1.00 to \$1.50 for ward patients, which was made near the close of last year, has now been in operation for a full year. The rate had remained unchanged for many years, although the cost of maintenance had greatly increased. The number of patients who paid under the new rate was less than those paying the old rate of the preceding year by 348, while the receipts under the new rate were slightly increased (\$770.50).

### *NEW OPERATING THEATRE.*

The new Operating Theatre continues to meet the expectations of those who planned it, and to minister to the comfort and convenience of the surgeons who operate there. It is one of the busiest departments of the Hospital, but its very efficient organization readily takes care of the large volume of work and disposes of it without confusion or friction.

### *TRAINING SCHOOL FOR NURSES.*

The radical changes in the course and curriculum of the Training School for Nurses, which were begun last year, have been continued, and the transition is about complete. The school now stands with a curriculum which has been carefully developed, and which is well calculated to furnish the pupils with a practical education and training for the care of the sick. The change of the course from three years to two, exclusive of the probationary period, has met with approval, and has proved sufficient for the work contemplated. It is evidently appreciated by candidates who continue to apply in ever-increasing numbers. The details of the work of the School will be found in the report of the Superintendent.

### *CHILDREN'S SERVICE.*

The beds in the children's ward have been kept well filled throughout the year. There have been occasional cases of contagious diseases necessitating the quarantining or closing the ward for brief periods. There has been no epidemic, but the need of a detention ward for children has again been demonstrated.

### *CONVALESCENT COTTAGES.*

The Convalescent Cottages at White Plains have proved a most valuable aid to Hospital work. Many children were sent there throughout the summer, and their prompt improvement under the invigorating fresh air and sunshine has been most encouraging and gratifying. The

work in these Cottages will appear in detail in the report of the Medical Superintendent of Bloomingdale, but may be summarized as follows:

1908					1907			
	Number	From N. Y. H.	From other Hosps.	Hospital Days.	Number	From N. Y. H.	From other Hosps.	Hospital Days.
Men.....	70	70		1,083	86	86		1,159
Women..	105	103	2	1,651	66	66		1,174
Children.	93	72	21	2,935	49	37	12	2,103
Total....	268	245	23	5,669	201	189	12	4,436

Owing to conditions prevailing temporarily at the Hospital or the Cottages, it was sometimes impossible to send our children there. As in other years, the doors of Holiday Farm at Rhinecliff, N. Y., were hospitably opened to us, and several of our children spent the period of convalescence there. Also, the infants, and those too young for the Cottages, were kindly received at the Babies' Convalescent Home at Sea Cliff, L. I. We were thus again placed under an obligation to these two institutions, which we most gratefully acknowledge.

The additions to the Cottages at White Plains and their new equipment, will greatly facilitate the work, as it is now possible to keep them open throughout the year.

### *PRIVATE PATIENTS' SERVICE.*

The number of individual patients occupying private rooms was 327, as against 290 of the preceding year. They remained 6,843 days. This does not include 23 guests, or friends of patients, who occupied rooms, and remained 329 days.

The patronage of the private rooms was as follows:

	Per cent.
Fourth floor, ranging from \$25 to \$60 per week.....	64
Sixth floor, ranging from \$30 to \$50 per week.....	72
Seventh floor, ranging from \$30 to \$60 per week.....	75
Eighth floor, ranging from \$30 to \$60 per week.....	69

The fifth floor of the building, which had been occupied by the pupils of the Training School for Nurses, was vacated when they were transferred to the building recently purchased at 14 West 16th Street. The ten rooms thus made available for private patients were furnished and

made ready, but the demands of the service have not yet made it necessary to use them.

The two rooms assigned to the House Staff and Training School, whose members may fall ill and require treatment, were occupied as follows:

By House Staff.....	31 days
By Graduate Nurses.....	521 days
By Pupil Nurses.....	117 days

### *X-RAY DEPARTMENT.*

The X-Ray Department, under the able management of Dr. A. H. Busby, Actinographer, has grown in the value and importance of the work performed. The frequent demands upon the department from the wards of the Hospital demonstrate its usefulness as an aid to diagnosis and treatment. The following table shows the separate radiographs taken. As a large proportion, however, demanded more than one view, it is estimated that the total number was about 2,000.

Fractures.....	402
Dislocations.....	30
Tuberculosis of respiratory and osseus systems.....	56
Osteomyelitis.....	19
Periostitis.....	21
Osteo-sarcoma.....	4
Syphilis of bones.....	14
Arthritis.....	17
Rheumatism.....	33
Foreign bodies.....	51
Osteomata.....	2
Tumors.....	8
Deformities.....	9
Respiratory system.....	17
Cardio-vascular system.....	24
Stricture of cesophagus.....	2
Genito-urinary system.....	25
Negative cases.....	185
Total.....	919

### *HYDRIATIC DEPARTMENT.*

This department, whose installation began near the end of last year, was equipped and opened for service in March. The business has grown steadily, and is entirely free. Men and women are treated on alternate

afternoons, each three times weekly, and each class is in charge of an expert operator. Patients are sent from the Private Rooms, the Hospital Wards, and the Out-Patient Department.

The number treated since the opening is as follows:

	Male.	Female.	Total.	From Wards.	From Out-Pt. Dept.	Total Treat- ments.	Average Treat- ments Daily.
May.....	19	15	34	11	23	135	4+
June.....	29	24	53	17	36	271	9+
July.....	24	21	45	14	31	184	5+
August.....	20	19	39	11	28	179	5+
September.....	30	26	56	16	40	306	10+
October.....	25	29	54	14	40	218	8+
November.....	19	26	45	13	32	204	6+
December.....	26	29	55	10	45	298	9+
Totals.....	192	189	381	106	275	1,795	8+

### AMBULANCE SERVICE.

The number of ambulance calls at the Hospital was less than those of last year by 112, and at the House of Relief by 1,050. The average daily calls at the Hospital was 8, and at the House of Relief 12. The details of the service are as follows:

	Hospital.		House of Relief.	
	1908.	1907.	1908.	1907.
Total calls.....	3,191	3,303	4,420	5,470
Brought to Hospital.....	1,975	1,931	2,493	3,192
Treated and left at place of call.....	367	479	1,927	2,278
Taken from scene of call to other hos- pitals, precincts or home.....	756	754	.....	.....
Dead on arrival.....	119	119	147	182
Nothing found at place of call.....	51	86	.....	.....

It should be remembered that this work is performed by the House Staff in addition to their arduous duties within the Hospital. It is severe and exhausting. It is distinctly humanitarian, and is performed wholly in the interest of the public. If a better understanding of it prevailed on the part of the public, perhaps there would be less disposi-

tion to indulge in severe and unjust criticism, and to form harsh and ill-founded judgment.

The replacing of the old, worn-out electric ambulance by a new one greatly facilitated the business of the year.

### OUT-PATIENT DEPARTMENT.

The Out-Patient Department has continued its beneficent work in behalf of those whose condition does not demand treatment in the In-Patient Department. There was an excess of patients over the preceding year, but a less number of visits, as shown by the subjoined table. The work of the year was as follows:

	1908.	1907.	Increase.	Decrease.
New patients.....	14,906	13,535	1,371	.....
Total visits.....	60,539	61,056	.....	517
Total prescriptions issued.....	43,374	43,454	.....	80
Total receipts.....	\$6,853.80	\$7,916.50	.....	\$1,062.70

The distribution of milk and eggs to needy tubercular patients has been as follows:

	1908. 12 Months.	1907. 5 Months.
Eggs, dozen.....	1,834½	710 <sup>3</sup> / <sub>4</sub>
Milk, quarts.....	7,260	3,087
Total issues.....	5,388	1,889
Cost.....	\$1,007.47	\$368.74

### HOUSE OF RELIEF.

The service at the House of Relief has continued active, although the volume of business was less than that of the preceding year. The following itemized statement will show how this decrease was distributed. The new building was completed and opened in the early summer. This greatly relieves the congestion of the old building and furnishes commodious and ample accommodations for the stable, quarters for drivers and for the laundry. Also the parts of the old building, thus released, have made it possible by alterations and readjustments to secure proper and desirable accommodations for detention and isolating wards, X-ray rooms, laboratory, record room, and quarters for the matron and head nurses. All this greatly relieves the pressure, and makes it possible to conduct the business of the house with increased

comfort and satisfaction. It is gratifying to note that these changes, which materially enlarged the plant, have been met thus far without any increase in current expenses or in pay roll.

	1908.	1907.
Patients treated in the House of Relief during the year (including all departments except Out-Patient Department)	5,009	5,982
Patients treated in Out-Patient Department	28,834	29,689
Total treated	33,843	35,671
Total days of hospital care	13,351	16,312
Total days of pay patients	627	.....
Total days of non-paying patients	12,724	.....
Percentage of free patients	96.7	96.7
Average daily census	36+	44+
Average days per patient	4+	4+
Receipts from patients, Wards	\$1,310.70	.....
Receipts from patients, Out-Patients	\$3,694.45	.....
Miscellaneous (board special nurses, telephone tolls, articles sold, etc.)	\$168.72	.....
Total ambulance calls	4,420	5,470
Average calls per day	12+	14+
Total transfers	1,595	1,562
Brought to hospital by ambulance	2,493	3,192
Treated and left at place of call	1,927	2,278
Dead on arrival	147	182

### GIFTS.

No attempt has been made to tabulate the many gifts received during the year for the patients from the friends of the Hospital. They have been numerous, consisting of reading matter, clothing, fruit, flowers, toys, etc. These have all been duly acknowledged, but we are glad to give expression to our grateful appreciation in this more public manner.

In this connection we mention with appreciation the services of the kind friends who, on Sunday afternoons, continued their custom of many years in giving a service of song in the Hospital Wards.

In presenting my last annual report I may, without impropriety, I trust, give expression to the sentiment of deep regret with which I close my Hospital career of nearly thirty-two years, and of keen appreciation of the action of your honorable Board in appointing me Superintendent Emeritus. It is my earnest hope that this new office will keep me still in touch with Hospital affairs, and furnish abundant opportunities for further service.

Respectfully submitted,

GEO. P. LUDLAM,

*Superintendent.*

# REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1908.

*To the Board of Governors:*

GENTLEMEN:—The work of the Hospital for the year 1908, as compared with that of the preceding year, is indicated in the following table:

	1908.	1907.
Patients treated in Hospital.....	9,738	9,940
Out-patients.....	14,906	13,535
Out-patient visits.....	60,539	61,056
Operations.....	1,709	1,263
Ambulance calls.....	3,191	3,303
Ambulance transfers.....	67	164

Of the total 9,738 cases, 4,456 were of the Out-Patient class; patients treated in the Accident Ward during the hours when the Out-Patient Department is not open, and 1,448 were patients who did not pass beyond the Reception Ward. Excluding these, the number of patients treated in the general wards was 3,834 and in private rooms was 327.

The number of patients with medical diseases was 2,105, of which 253 died. The larger groups were as follows:

Typhoid fever.....	86
Rheumatic fever.....	92
Malarial fever.....	31
Lobar pneumonia.....	111
Bronchitis, acute and chronic.....	84
Pleurisy.....	66
Tonsilitis, acute.....	40
Gastritis, acute.....	80
Gastro-enteritis, acute.....	69
Cirrhosis of liver.....	27
Organic disease of heart.....	123
Nephritis, acute and chronic.....	116
Meningitis.....	27
Cerebral hemorrhage.....	32
Alcoholic poisoning.....	145
Epilepsy.....	89
Hysteria.....	82

Five thousand three hundred and fifty-seven patients with surgical injuries and 2,111 with surgical diseases were admitted. Of these, 4,116 are classed as contusions, wounds and sprains, and 158 as burns, most of which were doubtless treated in the Emergency Ward. Other larger groups are:

Fractures of the skull.....	60
Gunshot wounds.....	45
Major dislocations.....	54
Major fractures.....	455
Appendicitis.....	214
Hernia.....	152
Cancer.....	89
Other malignant tumors.....	12
Non-malignant tumors.....	150
Liver and gall bladder.....	28
Kidney.....	25
Salpingitis.....	141
Ectopic gestation.....	14
Bladder and prostate.....	29
Uterus.....	140
Empyema of chest.....	37
Rectum and anus.....	91

The most important event in the medical history of the year has been the establishment of a class of Associate Physicians and Surgeons; and the experience of the past nine months seems to have demonstrated the wisdom of this departure from the traditional policy of the Hospital. Not only has the work of the Associate Physicians and Surgeons been of great value in supplementing that of the Attending Staff in the study and care of the ward patients, but their presence in the Out-Patient Department, as the heads of the several classes, has made it possible to bring this Department into much closer touch with the hospital proper and to coördinate the work of the wards and the Out-Patient Department to a degree which has hitherto been quite impossible and which is greatly to their mutual advantage.

### *OUT-PATIENT DEPARTMENT.*

The work of this department is indicated by the following report from the Associate Physicians and Surgeons:

The Out-Patient Department has continued its active work during the year, and a definite effort has been made to keep abreast with the steady increase in efficiency of the modern dispensary.

The following table shows the work of the year as compared with the four preceding years:

	1904.	1905.	1906.	1907.	1908.	Increase in 5 Years.
New patients.....	8,610	10,952	13,066	13,535	14,906	73%
Total number visits.	42,299	51,110	57,467	61,056	60,539	43%
Total number pre- scriptions.....	28,233	35,882	41,382	43,454	43,374	53%

The work has been divided between the Surgical and Medical Divisions as follows:

**SURGICAL** (including Orthopædic, Gynæcological and Genito-Urinary Classes):

New patients.....	8,895
Total number visits.....	41,928
Total number prescriptions.....	12,212

**MEDICAL** (including Children's Class and Tuberculosis Class):

New patients.....	6,011
Total number visits.....	18,611
Total number prescriptions.....	31,162

The item of "Total number prescriptions" is misleading, because in a great number of cases, for the convenience of the Apothecary Department, the individual drugs which ordinarily would form one prescription, are ordered separately and each counts as a prescription. Effort has been made to help the patients by teaching them the importance of diet, fresh air, exercise, abstention from alcohol, etc., rather than by encouraging a dependence upon medicine.

An encouraging start toward the establishment of a Social Welfare Service was made in April, 1907, with the appointment of a Visiting Nurse in the Tuberculosis Department. Her work, as in the past, has been most efficient. The results of this work have been more marked since the increase in the number of hospitals and dispensaries comprising the Association of Tuberculosis Clinics, and the corresponding diminution in the size of the district assigned to this Hospital.

During the past year the nurse visited 355 patients. Her total number of visits was 1,856. To such patients as could afford to pay something, the Hospital has supplied milk and eggs at cost price. The

large majority received these free. There were dispensed during the year 7,260 quarts of milk and 1,854½ dozen eggs.

Average number of cases of tuberculosis regularly in attendance .	109
Total number of visits, Tuberculosis Department.....	2,744
Number of incipient cases placed in sanatoria.....	18
Number of advanced cases placed in hospitals.....	39

The children of all our registered cases of tuberculosis have been examined with the following results:

Number examined.....	69
Positive results:	
Pulmonary tuberculosis.....	6
Pulmonary tuberculosis with tuberculous adenitis....	23
Tuberculous adenitis.....	7
	— 36 = 52%
Negative results.....	33 = 48%
	—
	69

Proper disposition is being made of the infected children, and those not infected are being examined at regular intervals.

The number of hospitals and dispensaries composing the Association of Tuberculosis Clinics has increased from 10 to 18 during the past year, and time has proved the practicability and desirability of such an organized control of those cases which must be treated in their homes. The New York Hospital's tuberculosis district is now bounded on the north by West Twenty-third Street, on the east by Broadway and the Bowery, on the south by Fourth Street and Fourteenth Street, and on the west, south of Fourteenth Street, by Sixth Avenue, and north of Fourteenth Street by the Hudson River. Only such cases of tuberculosis as live within this district are regularly treated. All others applying receive temporary relief and are referred to the dispensary in the district in which they live or work.

By the generosity of a friend of the Hospital, a visiting nurse was put at our disposal from May 1st to November 1st, 1908, for the special work of investigation and relief in cases of infant feeding. Fifty cases were under her constant supervision, medical advice being supplied by one of the Deputy Physicians. For the purpose of determining the value of such supervision by a nurse, the progress of fifty other similar but unsupervised cases was followed. The work was carried on successfully and was most instructive. The results were much in favor of the supervised cases. Among these cases which were under the supervision of the nurse there was a mortality of only 3% with an average gain in

weight of 3 pounds 9 ounces for the six months, as compared with a mortality of 10% in the unsupervised cases, with an average gain in weight of only 2 pounds.

In addition to this a most excellent work was done in supplying a large number of children and mothers (other than those directly under observation) with country outings:

Christian Herald.....	48 children
Tribune Fresh-air Fund.....	4 "
Riverhead House.....	5 "
St. Andrew's Convalescent Home.....	1 child
New York Hospital Convalescent Cottage.....	9 children
Day's Outing (Floating Hospital, Edgewater Creche)	77 mothers and children.

This dispensary has been brought into much closer touch with both organized and individual charities during the past year, and this has greatly aided in the work of assisting the patients, many of whom need help other than that given by medicine.

The Hydrotherapeutic Department has been a most useful aid in the treatment of a great and an increasing variety of conditions.

Number of patients treated from Out-Patient Department (May-December, inclusive).....	275
Total number of treatments.....	1,238

Respectfully submitted,

JAMES C. GREENWAY,

*For Associate Physicians and Surgeons.*

During the year the subject of the Hospital dietary has received careful consideration, and as a result a new system of diets has been instituted by which, it is believed, the needs of the different classes of patients will be met much more satisfactorily, and at the same time more economically. Much consideration also has been given to the subject of the consumption of medical and surgical supplies, and a committee of the Medical Board, in conjunction with the Superintendent, is now engaged in formulating measures by which, it is expected, a very considerable saving in these items will be effected.

#### *PATHOLOGICAL DEPARTMENT.*

The activities of this department, together with some of its needs, are set forth in the following report of the Pathologist:

The work of the Department may be summarized as follows:

NUMBER OF POST-MORTEM EXAMINATIONS.

	1908.	1907.
New York Hospital.....	97	
House of Relief.....	92	
	189	241
Number of Bacteriological examinations.....	1,096	626
“ “ Histological examinations.....	680	481
*Number of Hæmoglobin estimations.....	1,550	1,600
* “ “ Red cell counts.....	250	200
* “ “ White cell counts.....	4,000	4,000
* “ “ Differential counts.....	1,800	1,500
* “ “ Malarial examinations.....	150	110
“ “ Widal examinations.....	715	700
“ “ Stomach analyses.....	160	125
“ “ Sputum examinations.....	1,200	1,200
“ “ Urine analyses.....	11,000	11,000
“ “ Fæces examinations.....	1,200	1,200
“ “ Chest fluid examinations.....	150	75
“ “ Abdominal fluid examinations.....	30	20
“ “ Cerebro-spinal fluid examinations.....	100	.....
“ “ Milk analyses.....	40	35
“ “ Nitrogen partition determinations.....	30	20

\* (Many of these examinations were carried out in the wards by members of the House Staff.)

The expenditures for the year 1908 have been several hundred dollars below the amount yearly allotted to the Department, but are, nevertheless, about \$200 in excess of those of last year. This is not due to any increase in the current expenses, but is to be explained by the purchase of glassware, instruments and other necessary equipment.

Concerning the needs of this Department, the following recommendations may be made. With the increased demand made upon the Department, the space set aside for this work has become wholly inadequate. This is particularly true of the department of clinical pathology. The limitation of space at the disposal of this department is no longer merely an inconvenience, but the overcrowding has reached a point where it seriously interferes with the actual performance of work.

Moreover, urgent need for further development of this Department along the lines of physiological chemistry has long been recognized, yet owing to the limited space at our disposal, such development is impossible.

Respectfully submitted,

WILLIAM ELSER,  
*Pathologist.*

The X-Ray Department has continued to be of great assistance to both the medical and surgical work of the Hospital, but its usefulness is much restricted by the lack of adequate room and of improved apparatus.

The opening, early in the year, of the Hydrotherapeutic Room has furnished us with a complete and modern plant for the application of hydrotherapy, which has already demonstrated its usefulness to all departments of the Hospital.

With deep regret we record the death, during the year, of Dr. A. Brayton Ball who during his long career as Attending Physician, and later as Consulting Physician, served the Hospital most generously, faithfully, and efficiently.

LEWIS A. STIMSON,  
*President.*

LEWIS A. CONNER,  
*Secretary.*

## REPORT OF THE SUPERINTENDENT OF THE TRAINING SCHOOL.

---

*To the Board of Governors of the New York Hospital:*

GENTLEMEN:—I herewith submit the report of the thirty-second year of the Training School.

The Staff of the Training School on duty at the close of the year is as follows:

*Officers of Instruction:*

Superintendent.....	1
Assistant Superintendent.....	1
Night Supervisor.....	1
Clerical Assistant.....	1
In charge of Private Patients' Building.....	1
In charge of Out-Patient Department.....	1
Visiting Nurse (Out-Patient Department).....	1
Head Ward Nurses.....	9
Operating Room Nurses.....	3

*Pupils:*

Seniors.....	29
Intermediates.....	21
Juniors.....	34

---

The Training School consists of 84 pupils. Sixty-eight are assigned to duty in the general Hospital and Private Patients' Building, 10 to the House of Relief, and 6 to the Lying-in Hospital. Fifty-four have entered on probation during the year, 34 of whom have been enrolled as members of the School. There have been 7 resignations during the year.

The number of days illness has been 407. The room generously allotted by the Board of Governors for nurses during illness has been occupied 117 days by the pupils of the Training School, and 521 days by the graduate nurses, and those who were unfortunately compelled to avail themselves of this privilege have expressed their deep appreciation and gratitude.

The Graduating Class of 1908 had the unusual privilege of being addressed by Dr. S. Weir Mitchell, and this address proved so interesting and was received with so much enthusiasm that it was deemed desirable to have it printed and widely distributed.

It is very gratifying to the members of the Training School to hear that two of its graduates, Miss Frances Nelson (1901) and Miss Minnie H. Lawrence (1903), who were spending the winter in Rome, were chosen by the American Ambassador to take charge of the relief ship sent from Naples to Messina to assist in caring for the sufferers from the terrible disaster that swept over that part of the country. We are justly proud of these nurses and believe that the trust placed in them will be justified.

It is encouraging to realize that our Hospital has joined hands with other institutions in their endeavor to wipe out the dreaded disease of tuberculosis. Mrs. Jameson, our Visiting Nurse in that department, has been most successful in this work and has averaged 150 visits a month to patients in their homes, where she has endeavored to teach the patients and members of their families the value of hygienic principles, and where such methods were not possible succeeded in persuading the patients to go to hospitals or sanatoria in order to obtain the necessary care. Eighteen thousand and forty-one dozens of eggs and 7,390 quarts of milk have been dispensed to patients who were unable otherwise to secure them.

The Out-Patient Department feels the need of additional Visiting Nurses and volunteer helpers to carry on a similar work among other classes of patients. Through the generosity of an unknown donor, the Children's Clinic was supplied with a Visiting Nurse for the summer months, and the results proved its need.

The demands for our graduates to fill positions as Hospital Superintendents or Superintendents of Training Schools suggests the idea for consideration as to the possibility of establishing a post-graduate course devoted to special training for this work. Our Hospital, being a large general one, furnishes in its various departments ample opportunity for such training without additional expense. The training could consist of a specified time in the following departments: General Office, Purchasing Department, Receiving and Storeroom, Record Room, Drug Department, Housekeeping Department (including Laundry, Kitchen and Pantry), Training-School methods, and management of wards and nurses' home. This course could be made of such a practical nature that it would appeal to those intending to devote their time to institutional work.

It was with deep regret that our School heard of Mr. Ludlam's resignation from active service as Superintendent of the Hospital. He has always proved a loyal and true friend to the nurses, and we are confident he will continue his sympathy and interest even while enjoying his well-deserved rest.

Respectfully submitted,

ADELINE HENDERSON,  
*Superintendent of Training School.*

## REPORT OF THE ATTENDING PHYSICIAN AND SURGEON AT HOUSE OF RELIEF.

---

*To the Board of Governors:*

*Gentlemen:*—The work of the House of Relief in the year 1908, and its relation to that of 1907, are shown in the following table:

	1908.	1907.
Patients treated in the wards.....	3,082	3,704
Patients treated by ambulance surgeons.....	1,927	2,278
Patients treated in Out-Patient Department.....	28,834	29,689
Visits made in Out-Patient Department.....	66,397	73,570
Ambulance calls.....	4,420	5,470
Transfers.....	1,595	1,562
Hospital days.....	13,351	16,312
Average stay in Hospital.....	<u>4.3</u>	<u>4.4</u>

The diminution in the ward and ambulance service is undoubtedly due to the introduction of another ambulance and hospital service into our district; that in the visits made in the Out-Patient Department is probably due mainly to the charge made for every visit except the first. Because of the industrial conditions of the past year this charge has probably been more felt than usual.

Three hundred and sixty-eight patients with surgical diseases were admitted. Of these 17 died, 5 by existing sepsis, 2 by cancer, 4 by empyema of the cheek, 1 by strangulated hernia, 1 by tetanus.

Nine hundred and seventy-four patients were admitted with surgical injuries. Of these 58 died. The principal causes of death were: fracture of the skull, 25; gunshot and stab wounds, 9; burns, 4; multiple injuries, 4.

There were 304 operations upon ward patients, with 21 deaths, of which 6 followed operation within the abdomen for disease or injury, 3, drainage of the chest for empyema, and 5, compound fracture.

Seventeen hundred and sixteen medical patients were admitted, with 181 deaths. The larger groups are:

Acute alcoholism.....	106
Bronchitis.....	56
Cerebral hemorrhage.....	22
Meningitis.....	15
Delirium tremens.....	74
Endocarditis.....	43
Other diseases of heart.....	42
Epilepsy.....	106
Gastritis.....	46
Insanity.....	24
Malarial fever.....	39
Nephritis.....	98
Pleurisy.....	31
Pneumonia.....	133
Gas poisoning.....	22
Rheumatism, articular.....	90
Tuberculosis, pulmonary.....	130
Typhoid fever.....	45

The new building was occupied in April. Some of the space in the main building thus made available has been used in supplying two much-needed isolation rooms, a sterilizing room for bedding, an X-ray room, and a butler's pantry for the lower ward.

It has also given us on the third floor a small room for use of patients in connection with the main ward, and a room for the graduate night nurse, and on the fourth floor rooms for the matron and the graduate head nurse.

The clinical laboratory work has been greatly facilitated by its establishment in a room specifically set apart for it on the first floor. This is a change which has long been desired, but has been hitherto impossible because of the lack of space.

Respectfully submitted,

LEWIS A. STIMSON,  
LEWIS A. CONNER,

February 5, 1909.

# REPORT OF THE MEDICAL SUPERINTENDENT OF THE SOCIETY OF THE NEW YORK HOSPI- TAL, BLOOMINGDALE, WHITE PLAINS, NEW YORK.

*To the Board of Governors:*

GENTLEMEN:—In compliance with a By-law of your Honorable Board, the following report of the operation of the Psychopathic Department of the Hospital for the year 1908 is respectfully submitted:

## STATISTICS FOR THE YEAR 1908.

	Men.	Women.	Total.
There were under treatment January 1, 1908.....	157	187	344
“ “ admitted in the year.....	57	67	124
“ “ treated “ “ “ .....	214	254	468
The discharged were: Recovered.....	18	15	33
Improved.....	12	18	30
Unimproved.....	9	15	24
By death.....	18	9	27
Total.....	57	57	114
There were under treatment December 31, 1908.....	157	197	354
The average number under treatment was.....	159	188	347
The lowest number was: Men, in January.....	152	.....	.....
“ “ “ “ Women, in January.....	.....	177	.....
“ “ total number was, in January.....	.....	.....	331
“ highest number was: Men, in April and Sept. ....	164	.....	.....
“ “ “ “ Women, in May.....	.....	193	.....
“ “ total number was, in December.....	.....	.....	355

There were 124 cases, 57 men and 67 women, admitted during the year. There were 6 fewer patients than cases, 3 men and 3 women having been discharged and readmitted during the year. Twenty-one patients, 6 men and 15 women, had been discharged from the institution prior to January 1, 1908, 2 men twice and 4 men once. One woman had been discharged three times, 3 women twice, and 11 women had each been discharged once.

Of those readmitted for the first time, 2 men and 7 women had been discharged as recovered, and 2 men and 4 women as improved.

One man had been discharged once as recovered, and once as improved; 1 man twice as improved, and 2 men once as improved.

Two women had been discharged twice as recovered, three times as improved, and 3 women once as improved. Ninety-nine of the admissions, 46 men and 53 women, were first attacks, of which 37 men and 29 women were admitted first to Bloomingtondale. Deducting from the whole number of admissions 19 cases that had been admitted in previous years, and 66 admissions in first attack, leaves 39 cases that have either been treated at home or at some other institution previous to admission here.

Forty patients were admitted three months or less after the first symptoms of mental disease were noticed by their friends; 7 between 3 and 6 months, 22 between 6 and 12 months, and 55 more than a year.

### *DISCHARGES.*

The total number of discharges during the year 1908 was 114; 57 men and 57 women. The number of recoveries was 33; 18 men and 15 women. They were 29 per cent. of all discharges, including deaths, 31 per cent. of the men who were discharged or died, and 28 per cent. of the women who were discharged or died.

Twenty-five patients, 15 men and 10 women, recovered from the first attack, 2 men and 2 women from the second, 1 man and 1 woman from the third, 1 woman from the sixth, and 1 woman from the twelfth attack.

In the 33 cases that recovered the average duration of the disease from invasion to recovery was 11 months and 8 days; of the men 7 months and 23 days, and of the women 15 months and 13 days. The average duration of treatment was 5 months and 27 days; of the men 4 months and 21 days, and of the women 7 months and 11 days. The disease was reported to have existed before admission an average of 6 months and 1 day; in the men 3 months and 2 days, and in the women 8 months and 2 days. The longest period of treatment in those recovered was 10 months and 6 days in the case of 1 man, and 3 years, 8 months and 20 days in the case of 1 woman; the shortest was 17 days in 1 man, and 13 days in a woman.

Three alcohol habitués, all men, were discharged as recovered.

Two cases of morphine habit, both women, were discharged as recovered.

Thirty cases, 12 men and 18 women, were discharged as improved. In the cases of 1 man and 7 women, it seemed probable, at the time of their discharge as improved, that they would have recovered if continued under treatment.

Of the 24 patients, 9 men and 15 women, who were discharged un-

improved, it seemed probable that 3 women would also have recovered if continued under treatment.

### *GENERAL REMARKS.*

There were 3 fewer admissions this year than last.

The average number of patients in the institution was 347, 7 more than the average of the preceding year.

The number of weeks' board and treatment furnished for patients was 18,072 $\frac{1}{2}$ . The average expenditure per patient was \$12.55 per week, which includes the total cost of maintaining the property at White Plains and the patients upon it, and is for all salaries and wages, repairs, supplies and maintenance of every kind, except that our high-paying patients repay us for the exclusive services of their attendants, and we deduct this sum from the total expense. In making up the average cost for the patients per week, there was a decrease of 17 cents per capita from the cost of the preceding year.

Forty-eight women were beneficiaries of the John C. Green Memorial Fund during the year 1908. The amount of income received from that Fund and expended for these women in 1908 was \$8,145.04. The total charitable expenditures during the year 1908 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$52,609.78. Two hundred and thirty-seven individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$44,364.74 was expended for this purpose from the earnings of Bloomingtondale during the year 1908, from which earnings charitable assistance to patients was given to the extent mentioned above. Nearly 10 per cent. of the patients treated contributed nothing whatever to their support; 51.3 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 48.7 per cent. paid a rate which secured a surplus for the institution. The total support and partial assistance rendered to patients unable to pay their entire cost to the hospital was equivalent to maintaining 85 free beds.

The following changes took place in the Medical Staff: Dr. Louis L. Henninger was appointed Clinical Assistant on January 1, 1908, to succeed Dr. Harold T. Royce. He resigned September 15, 1908. Dr. George A. Riker was re-appointed Clinical Assistant on June 1, 1908, and resigned October 15, 1908. Dr. Allen V. Laing was appointed Clinical Assistant on December 6, 1908, and continues in service.

The graduates of the Training School for Attendants, including the two who graduated this year, amount to a total of 90 since the school was first started in 1894, of whom remain in the employ of the institution 4 men and 20 women.

There has been no relaxation in the medical activity of the Hospital during the year 1908. The care of the patients by means of mental and

physical treatment, by diversion and exercise, has been conducted as before. Much stress is being laid on the accurate observation of the patients, and recording their cases, and as many consents to autopsy as possible have been obtained.

As heretofore, on May 23d the Annual Inspection by the Board of Governors took place. There were present the President and Vice-President, and Messrs. Hoppin, Cammann, W. P. Brown and Edmund D. Randolph, and Henry W. Crane, Secretary. An inspection was made of the farm and grounds, and the buildings, including the wards, and domestic department. At three o'clock Mr. George L. Rives, the President of the Board, presented the certificates and medals to the graduates of the Training School for Attendants, two in number. Preceding these graduation exercises there was a concert by voluntary talent before an audience from White Plains and New York. A considerable number of the friends of the institution and the attendants were present on the occasion, which passed off in a very satisfactory manner.

As usual, during the summer of 1908 picnic parties went to the cottage rented at Oakland Beach for their benefit, whenever the weather was pleasant enough to make such trips agreeable, the parties averaging 8 to 10 people. They left about 9 o'clock in the morning, arriving at the beach about 10 o'clock, and returning so as to reach the Hospital at 5 o'clock in the afternoon. If the day was unpropitious the parties were omitted. The men patients usually went on Tuesdays, Thursdays and Saturdays, and the women on Mondays, Wednesdays and Fridays.

Owing to the purchase of the shore front at Oakland Beach for a public park by the town of Rye, it is a question what we can do toward giving suitable patients our usual salt-water outings. We hope to find a way, as such excursions have been both enjoyable and beneficial in the past.

The outdoor diversions during the summer are a part of the moral treatment of the patients, and are not allowed to lapse. Baseball and tennis were played as usual, and a number of patients took part in these games. Many men and women patients were spectators, and the games were eagerly looked forward to.

The usual Sunday services and weekly entertainments took place.

An increase in the number of voluntary cases will be observed in the statistics. A gratifying feature of this is that a number of former patients come back voluntarily when they begin to feel confused, or unstrung, to a welcome refuge. This promotes good feeling throughout all classes of patients, and is encouraged by the officers, as implanting in the minds of all the hospital idea, as opposed to that of a simple place of detention, which carries with it a degree of odium.

### *MEN'S CONVALESCENT COTTAGE.*

A convalescent cottage for men patients from the New York Hospital has been maintained during the summer months, distinct from the Campbell Cottages, where the patients eat and lodge and pass their time when not moving about the grounds. During the summer of 1908, 56 men were cared for by this Institution, being supplied from the Bloomingdale storeroom, and receiving medical attention from the Bloomingdale physicians.

### *NEW HAY AND COW BARN.*

A new hay and cow barn, according to the most modern plans and thoroughly sanitary, were completed and occupied on October 1st, and are apparently very suitable.

### *WOMEN'S HYDROTHERAPEUTIC BATHS.*

A hydrotherapeutic bathroom, fully up to the standard of the time, was inaugurated soon after coming to White Plains in 1894, and was probably among the first, if not the very first, of such installations in a hospital for the insane. The subject was exploited by Dr. Simon Baruch, and public baths were being installed at various places before this time. For 13 years at least this bathroom was in almost daily use for both sexes of the patients of the Hospital, and showing considerable wear, was entirely rebuilt, remodelled and rearranged during the past fall, and is now up to the requirements of the present time, we believe, being not only useful but cheerful and ornamental. The therapeutic bathroom inaugurated during the year 1906 is being used by the men patients exclusively now, and is serving its purpose in an advantageous manner.

### *OCCUPATION DEPARTMENT.*

During the year a small department for fancy manual occupation has been established for the women patients, and a considerable number of them have taken part in making baskets of various kinds, bureau scarfs, table covers, rugs, etc., such as can be woven on hand looms.

This is still in the nature of an experiment, but it is no doubt a small step toward the desirable condition of being able to afford manual occupation to persons whose minds are not in a condition to meet even the ordinary problems of life, but who are diverted by a new interest and by something which they can do themselves with their own hands.

This department has been under the charge of Mrs. Amsden, who has had experience in art culture and instruction in Massachusetts, and

comes well equipped for this kind of work, which she has undertaken with enthusiasm.

### *STABLES.*

Early in the evening of December 21st fire was discovered in the lofts of our carriage stable. The lofts were burned out completely with their contents, but everything below was saved, owing to the vigorous efforts of our own fire department, and the assistance of that of the village of White Plains. An estimate of the loss was quickly made and a settlement with the insurance companies effected, and already within a few weeks the rebuilding has proceeded to a considerable extent. In the meantime the horses and vehicles are protected, and their use has gone on with the usual routine.

The burning of the stable permitted the rebuilding of it on a more modern plan, and we hope that in a few months we shall have at our disposition a stable which is up to date in every respect.

All the officers and employees of the hospital have been on duty, except for the time when they were entitled to relaxation. They have maintained a high standard of conduct and interest, and I wish to express at this time my gratitude to them for their faithful and efficient assistance in conducting the hospital.

### *LABORATORY WORK.*

The general trend of the research work, of which the Report of 1907 spoke, and which has been continued during the past year, has logically led us to consider another side of the same problem, namely, the study of the personality before the outbreak of the psychosis. The question which here presents itself is this: Do the different types of mental disorder develop in different types of personality? To a certain extent this question is not new, and yet it has not received the attention which it deserves, and little aimful work has been done upon it. As a part of the general problem of the causation of insanity, it is, of course, very important to ascertain why the profound reactions of mental disorders can be produced in certain individuals by mental causes which in others do not produce such an effect; in other words, to ascertain where the weak spots in the personality are; or, to put it in still another way, what we desire to know is what are dangerous traits in a mental make-up, or dangerous habits of mind, which foreshadow a mental breakdown. If ever we are to develop a sound mental hygiene based upon a scientific foundation, and applicable to those who most need it, there would seem to be no better field upon which to gather data than this study of personality in individuals who have broken down. This, of course, is not the place to speak of the methods which we have adopted in this work;

suffice it to say that the question has so far been studied partly in the patients who entered the Hospital during the year, partly in the clinical material collected during the last three years, and, finally, also in the large material collected by Dr. Hoch at the McLean Hospital. The results thus far obtained have been most interesting, but, of course, can only be regarded in the nature of a preliminary survey, since this is a study which will require years of painstaking and laborious work. In this connection, the special advantage which a private hospital offers, owing to the fact that the patients and their relatives and friends belong more particularly to the educated classes, are plain and make it directly a duty for hospitals of this sort to supply these facts which cannot be gathered as well in State hospitals.

A review of this work which was carried on by Dr. Hoch and Dr. Amsden, was embodied in a paper read by Dr. Hoch before the New York Psychiatric Society in December, 1908, entitled "A Study of Mental Make-up in the Functional Psychoses."

In the pathological laboratory the brains of two cases with focal lesions have been sectioned, studies of which are now being made. Considerable more material is now in progress of preparation. Aside from this and the daily routine examinations of the blood, excretions and secretions, furnished by the Hospital Ward, especial attention has been paid to the examination of the cerebro-spinal fluid of cases of long standing organic disease of the central nervous system.

During the summer also numerous analyses of the Bloomingdale water were made.

Annexed is a report of the Campbell Cottages.

Respectfully submitted,

SAMUEL B. LYON,  
*Medical Superintendent.*

## CAMPBELL CONVALESCENT COTTAGES, 1908.

---

*To the Board of Governors of the New York Hospital:*

The summer service was begun on April 20th, and continued through the season, under the charge of Miss Frances Cobban. Women and children were received in the Cottages, and the work was similar to that of the preceding year, showing several cases of remarkable improvement and recovery.

Meantime the construction of the additions progressed, and the new Home was ready for occupancy before winter.

It comprises a central Administration Building, with offices and reception room, dining rooms, kitchen and rooms for the Staff; one wing (the original cottage remodelled) for the women, and another wing with wards, baths and bright play rooms for the children.

The entire group, now officially called The Campbell Convalescent Cottages, consists of substantial frame structures stuccoed. The complete new equipment is that of an all-the-year home for convalescent women and children.

The enlargement has eclipsed the original cottage, but it cannot dull the memory of the more modest "Orchard," where we learned what could be done and how to do it. The Cottages were formally opened on November 28th, and the event was marked by a reception, which brought many of the attending doctors of the New York Hospital to view the plant.

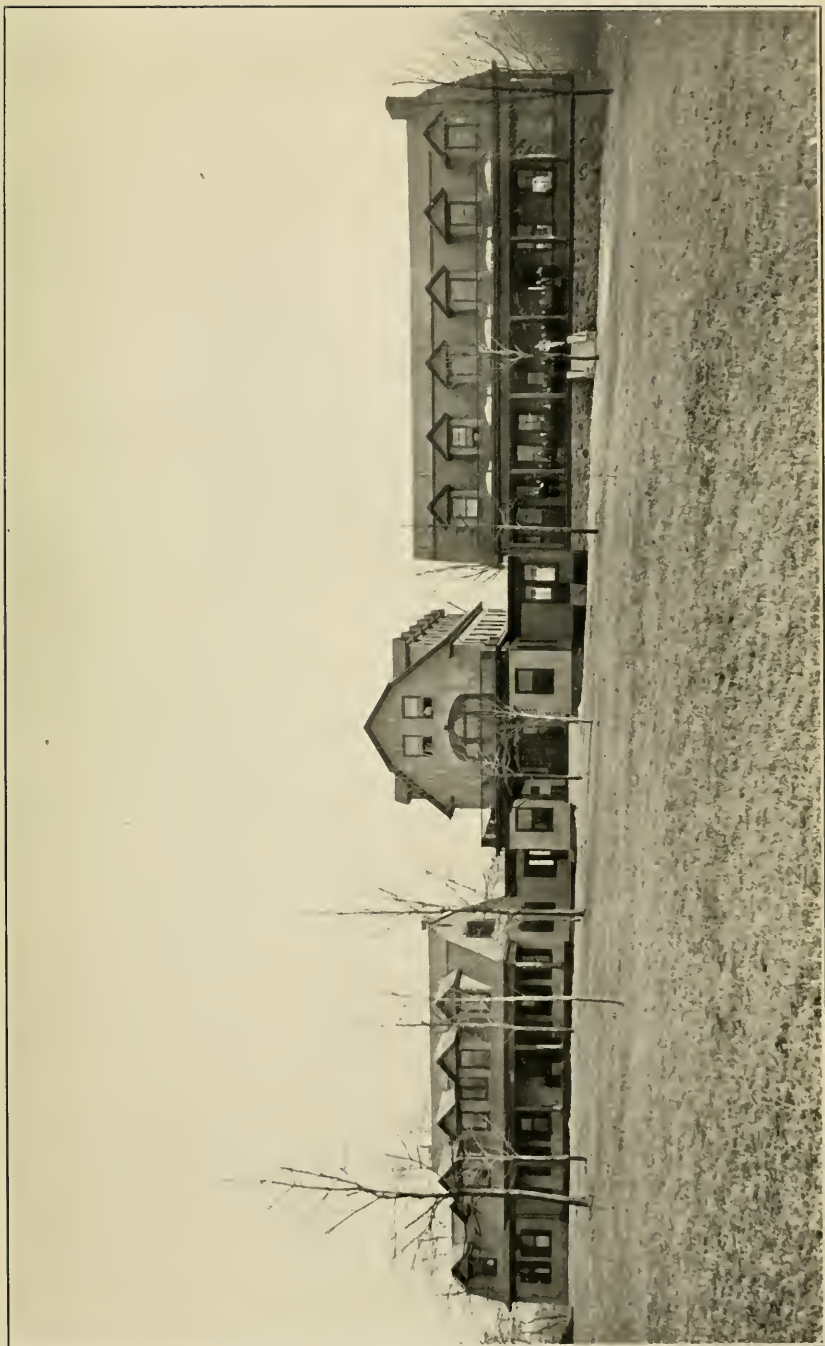

It is gratifying that the Governors have not awaited this, or any special occasion, to offer their encouragement and guidance, but have constantly shown their warm interest both in the plans and erection of the buildings and the routine work of the place.

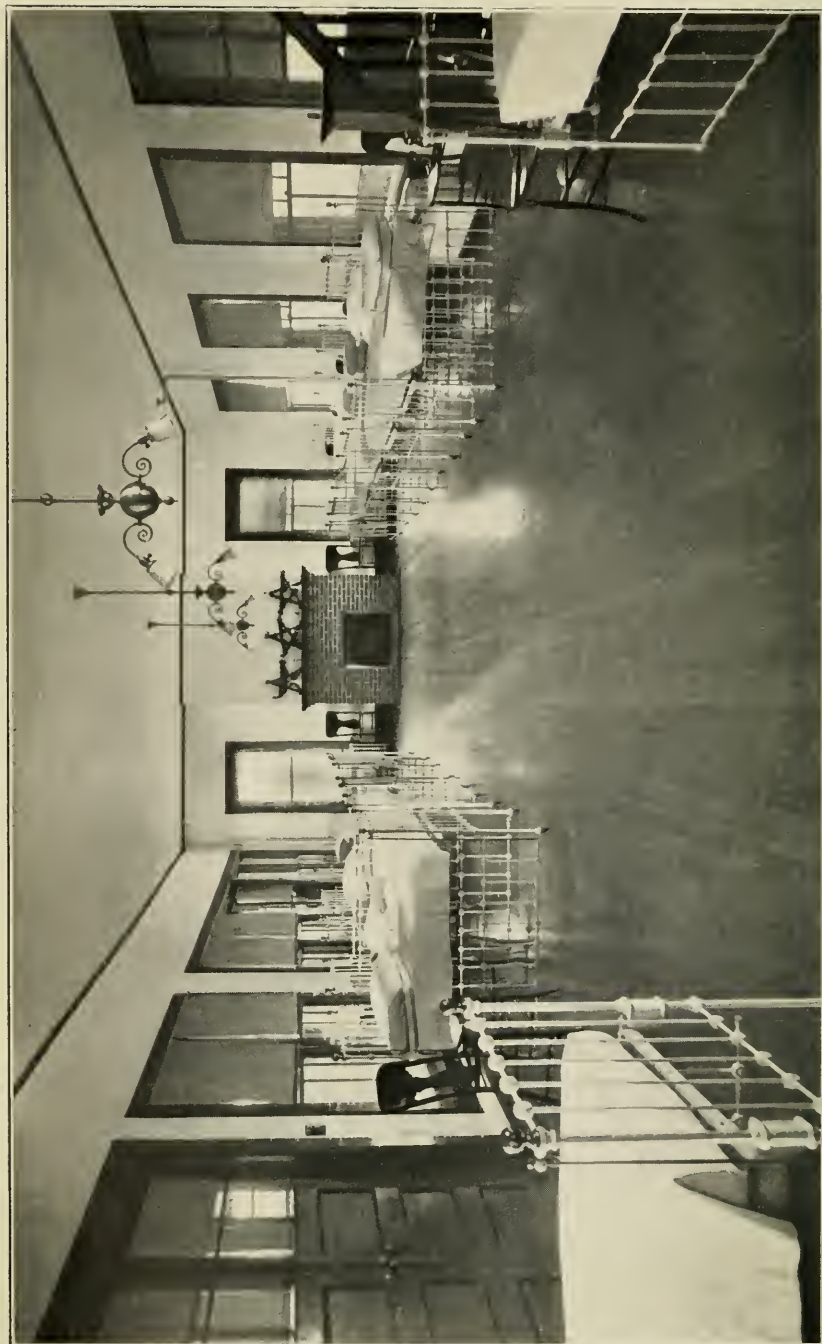

The women patients have been very comfortable and contented in their own cottage, and many have petitioned to have their allotted term extended.

The children are sent here for no definite period. Occasionally their leaving is hastened by special circumstances at their own homes, but we

WARD

have usually been able to keep each one long enough to permit a recovery, or effect a marked improvement. An illustrative case is that of a poor woman suffering from severe bronchitis and asthma, who was admitted with three of her children, all of them ill with similar troubles, while two more children of the same family were in the Seton Hospital with pulmonary tuberculosis.

Another pathetic case is that of a thirteen-year-old girl, who had been housekeeper and home-maker for a family of seven in a tenement basement, and presently acquired in the Cottages a remarkable increase in weight and ability to smile.

Those who would know the home should see it, rather than frame an opinion from reports. The progress of a weak child under watchful eyes from its first awe-inspiring bath, through a diet never dreamed of, and perfect rest, or romping play in-doors or out (always in pure air whatever the season) and nights of restorative sleep in the most comfortable of beds, to an unwelcome discharge as cured or improved, sometimes suggests magic.

The delights of Christmas were made real to us by kindness of the benefactress who gave the Home, and we all felt the expansion of our privileges much as did the child who exclaimed: "Oh, las' year I only got a hunk o' bread in me stockin'."

# GOVERNORS

## OF

### THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the fifth of January, 1909, with the date of their respective elections and the length of time they continued in office:

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
A.				
Charles Ward Apthorp.....	1770	1784	14 years	
William Axtell.....	1770	1784	14 years	
John Alsop.....	1784	1788	4 years	
Gilbert Aspinwall.....	1799	1809	} 15 years	Died in office, 1819.
Gilbert Aspinwall.....	1811	1812		
Gilbert Aspinwall.....	1815			
John Atkinson.....	1800	1809	9 years	
John Aspinwall.....	1814	1817	3 years	
John Adams.....	1818	1854	36 years	
Stephen Allen.....	1823	1830	} 24 years	Died in office, 1852.
Stephen Allen.....	1835			
Augustine Averill.....	1848	1857	9 years	
John Jacob Astor.....	1860	1864	4 years	
George W. Abbe.....	1877		2 years	Died in office, 1879.
William W. Astor.....	1879	1882	3 years	
James W. Alexander.....	1904	1905	1 year	
B.				
Gerardus William Beekman.....	1770	1777	7 years	
George Bowne.....	1770	1784	} 26 years	
George Bowne.....	1785	1797		
William Bayard.....	1777	1784	} 9 years	
William Bayard.....	1800	1802		
Robert Bowne.....	1784		34 years	Died in office, 1818.
Aaron Burr.....	1784	1792	8 years	
James Beekman.....	1785	1787	2 years	
Theophylact Bache.....	1785	1797	12 years	
Thomas Buchanan.....	1785	1800	15 years	
Francis Basset.....	1785	1787	2 years	
William Backhouse.....	1787	1792	5 years	
Nicholas Bayard.....	1794	1798	4 years	
John Barrow.....	1795	1807	12 years	
Samuel Bowne.....	1796	1797	1 year	
Walter Bowne.....	1800	1805	5 years	
Dr. Samuel Bard.....	1801	1802	1 year	
Rev. Abraham Beach.....	1801	1806	5 years	
Thomas Buckley.....	1802	1842	40 years	
John Bogert.....	1804	1817	13 years	
John L. Bowne.....	1810	1815	5 years	
Abraham Barker.....	1813	1816	3 years	
Robert H. Bowne.....	1815	1827	12 years	
William Bayard, Jr.....	1818	1823	5 years	
John L. Buckley.....	1842	1855	13 years	

# LIST OF GOVERNORS—*Continued.*

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
James W. Beekman.....	1850	1854	} 23 years	Died in office, 1877.
James W. Beekman.....	1858			
Nathaniel P. Bailey.....	1858			Died in office, 1891.
James M. Brown.....	1861		29 years	Died in office, 1890.
Theodore B. Bronson.....	1864	1868	4 years	
James H. Banker.....	1869	1876	8 years	
James William Beekman.....	1884		24 years	Died in office, 1908.
Cornelius N. Bliss.....	1885	1899	14 years	
Cornelius N. Bliss.....	1901	1908	7 years	
George S. Bowdoin.....	1887	1903	16 years	
Waldron Post Brown.....	1887		22 years	Continues in office.
Thomas H. Barber.....	1898	1903	5 years	
George F. Baker.....	1899		10 years	Continues in office.
Charles S. Brown.....	1904		5 years	Continues in office.
Henry G. Barbey.....	1909			Continues in office.
Cornelius N. Bliss, Jr.....	1909			Continues in office.
C.				
David Clarkson.....	1770	1777	7 years	
Matthew Clarkson.....	1792	1822	30 years	
John Campbell.....	1794	1797	3 years	
John B. Coles.....	1796	1798	2 years	
Isaac Collins.....	1800	1808	8 years	
John T. Champlin.....	1801	1811	10 years	
John G. Coster.....	1801	1803	2 years	
Samuel Corp.....	1801	1802	1 year	
Richard Cunningham.....	1812	1814	2 years	
Cadwallader D. Colden.....	1812	1827	15 years	
Nathan Comstock.....	1818	1823	5 years

TO THE LEGISLATURE OF THE  
STATE OF NEW YORK

---

The Governors of the Society of the New York  
Hospital respectfully present their Annual Re-  
port of the state of the Institutions under their  
charge for the year 1909, as required by law.

# ANNUAL REPORT

## OF THE

### GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1909.

---

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III, the Governors of the Society of the New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the Department for the Treatment of Mental Diseases, known as Bloomingdale and the Convalescent Cottages at White Plains, Westchester County.

The number of individuals who received care and treatment in all departments during the past year reached the surprising total of 63,709, divided as follows:

NEW YORK HOSPITAL, FIFTEENTH-SIXTEENTH STREETS.		
In Wards.....	11,032	
Private Rooms.....	440	
Out-Patient Department.....	16,720	
Treated by Ambulance Surgeons and not brought to the Hospital	1,809	
	<hr/>	30,001
HOUSE OF RELIEF, HUDSON STREET:		
In Wards.....	3,015	
Out-Patient Department.....	23,191	
Treated by Ambulance Surgeons and not brought to the House of Relief.....	1,462	
	<hr/>	32,668
BLOOMINGDALE HOSPITAL, WHITE PLAINS:		
Psychopathic Department.....		476
CONVALESCENT COTTAGES, WHITE PLAINS:		
Men.....	89	
Women.....	153	
Children.....	317	
	<hr/>	564
		<hr/>
		63,709

In addition, it may be noted that the two city branches, at Fifteenth Street and Hudson Street, together received no less than 8,839 ambulance calls.

These large figures suggest in some measure the great scope and variety of the work of this Society, and the vast amount of relief it affords in cases of sickness and accident. The annexed reports serve to show more fully the results accomplished as well as the nature of certain features of the work, which are not capable of presentation by mere statistics.

From an examination of these reports it will be apparent that this great work is now carried on under serious difficulties, that many avenues of usefulness are closed for lack of means, and that the Society is spending the whole of its present income in current expenses and in essential renewals and replacements. Moreover, the demands upon the funds of the Society continually increase. To take a single instance, what is called Social Service—watching over those who have been discharged from the wards, or guiding and advising those who are treated in the Out-Patient Departments, particularly in cases of tuberculosis—is a most promising field of endeavor which may, in time, require the expenditure of much more money than at present, if it is to be thoroughly cultivated.

The Society of the New York Hospital already possesses large means which, it is believed, are being used to excellent advantage. Its high record of achievement during much more than a century, is a guarantee of sound methods and fine traditions. And a relatively moderate addition to its income would enable it to increase very greatly the beneficent results of its many-sided work.

Already the Society is annually caring for more than sixty-three thousand persons suffering from accident or disease. That number might be almost doubled and the causes of medical education and research might be greatly advanced by the gift to this Society of a sum of money really trifling in comparison with what would be needed to attain anything like the same results through a new institution.

The City of New York is growing and the standards both of medical

science and charitable endeavor are higher every day. The New York Hospital cannot stand still.

The Governors of the Hospital, therefore, earnestly invite attention to the great public benefits resulting from the several institutions under their charge, and to the importance of enlarging the means of usefulness of those establishments in order to meet the rapidly increasing demands of this cosmopolitan city.

We regret the loss of the distinguished services of Dr. George L. Peabody and Dr. Lewis A. Stimson. Dr. Peabody was for twenty-six years Attending Physician to the Hospital, and Dr. Stimson served as Attending Surgeon to the Hospital and House of Relief for twenty-two years. We would also record our sense of the loss to the Hospital and the community in the death of Dr. William T. Bull, formerly Attending Surgeon to the Hospital and the House of Relief, and at the time of his death a Consulting Surgeon to the Hospital. The Board adopted resolutions expressing their appreciation of the service these gentlemen had rendered the Hospital.

On May 1st, Dr. Thomas Howell assumed the duties of Superintendent of the Hospital in West 15th and 16th streets, succeeding Mr. George P. Ludlam. Dr. Howell, before accepting this position, was Superintendent of the Worcester City Hospital, Worcester, Mass.

In October, Mr. Herman A. Knoll resigned as Assistant Superintendent of the House of Relief and was succeeded by Miss Susan V. Gifford, formerly Matron of the same institution.

The Governors gratefully acknowledge the following gifts: From Mrs. Elizabeth M. Bliss, \$5,000, for endowing a bed in the Hospital; from Mrs. Fanny A. Haven, \$5,000, for endowing a bed in the Hospital in memory of her husband, George Griswold Haven; also a legacy of \$5,000 from the estate of Joel S. Mason, for endowing a bed in the Hospital in memory of his parents, Joel Whitney Mason and Mary Elizabeth Mason.

HENRY W. CRANE,

*Secretary.*

GEORGE L. RIVES,

*President.*

NEW YORK, *February 1, 1910.*

# REPORT OF THE SUPERINTENDENT, JANUARY, 1910

TO THE BOARD OF GOVERNORS:

January, 1910.

Gentlemen:—I beg to submit the following report:

## COMPARATIVE STATEMENT OF OPERATING EXPENSES FOR THE YEARS 1908 AND 1909.

### ADMINISTRATION EXPENSES.

	1909.	1908.
Salaries, officers and clerks.....	\$25,010.82	\$22,961.33
Office expenses.....	644.50	464.54
Stationery, printing and postage.....	2,169.99	2,034.59
Telephone and telegraph.....	2,028.37	2,067.35
Miscellaneous.....	92.85	333.45
Total Administration Expenses.....	\$29,946.53	\$27,861.26

### PROFESSIONAL CARE OF PATIENTS.

#### SALARIES AND WAGES:

Physicians.....	\$3,034.00	\$3,010.00
Superintendent of nurses, assistants and instructors.....	3,681.00	3,834.00
Nurses.....	20,107.27	16,962.89
Special nurses.....	1,255.36	734.50
Orderlies.....	10,228.37	9,362.68
Ward employees.....	1,680.00	1,680.00
Private patient building employees.....	1,266.00	1,266.00
Seamstresses.....	702.70	658.80
	\$41,954.70	\$37,508.87

#### EQUIPMENT FOR NURSES:

Uniforms.....		611.91
Books.....	21.40	75.12
Instruments.....	21.40	687.03

#### MEDICAL AND SURGICAL SUPPLIES:

Apparatus and instruments....	1,404.88	1,160.27
Medical and surgical supplies....	13,646.55	16,043.19
Alcohol, liquors, wines, etc.....	1,109.67	1,098.44
	16,161.10	18,301.90

#### DISPENSARY:

Salaries and labor.....	4,988.72	4,321.96
Supplies.....	4,834.35	5,146.97
	9,823.07	9,468.93

#### EMERGENCY WARD.....

	1,374.87	1,566.86
--	----------	----------

\$69,335.14  
Less cash received from nurses for uniforms... 209.70

Total Professional Care of Patients..... \$69,125.44      \$67,533.59

## DEPARTMENT EXPENSES.

Miscellaneous.....	3,441.28	996.00
Total General House and Property Expenses.....	\$42,866.06	\$46,941.13
Total Operating Expenses.....	\$262,523.61	\$261,906.87

## COMPARATIVE STATEMENT OF STATISTICS, 1909.

Hospital Wards and Private Rooms.			
PATIENTS IN HOSPITAL FIRST OF YEAR:			
In Medical Wards, Male.....	1909. 35		1908. 48
Female.....	25		24
	60		72
In Surgical Wards, Male.....	54		46
Female.....	38		38
	92		84
In Private Rooms, Male.....	6		9
Female.....	10		5
	16		14
Total.....	168		170
PATIENTS ADMITTED DURING YEAR:			
To Medical Wards, Male.....	713		859
Female.....	426		551
	1,139		1,410
To Surgical Wards, Male.....	972		1,040
Female.....	895		887
	1,867		1,927
To Private Rooms, Male.....	191		162
Female.....	217		165
	408		327
Total.....	3,414		3,664
TOTAL PATIENTS TREATED IN HOSPITAL WARDS AND PRIVATE ROOMS DURING YEAR:			
Male.....	1,971		2,164
Female.....	1,611		1,670
	3,582		3,834
PATIENTS DISCHARGED DURING YEAR:			
Cured.....	1,445		1,868
Improved.....	1,226		1,370
Unimproved.....	145		116
Transferred to other institutions.....	110		67
Died.....	468		415
Total.....	3,394		3,836
PATIENTS IN HOSPITAL END OF YEAR:			
In Medical Wards, Male.....	51		35
Female.....	27		25
	78		60
In Surgical Wards, Male.....	45		54
Female.....	48		38
	93		92
In Private Rooms, Male.....	6		6
Female.....	11		10
	17		16
Total.....	188		168

TOTAL PATIENT DAYS TREATMENT:		1909.	1908.
Free Ward.....		59,801	55,803
Endowed Bed.....		240	329
Pay Ward.....		12,218	14,028
Private Room.....		8,773	6,843
Total.....		81,032	77,003
PERCENTAGE:			
Free Ward Days.....		.69	.724
Endowed Bed Days.....		.01	.004
Pay Ward Days.....		.19	.182
Private Room Days.....		.11	.09
		.100	1.000
AVERAGE PATIENTS PER DAY:			
Free Ward.....		140	141
Endowed Bed.....		1	1
Pay Ward.....		33	35
Private Room.....		24	17
Total.....		198	194
Average time per patient in Hospital Wards.....		19	18
Daily average cost per private room patient.....		\$5.57+	\$6.39+
Daily average cost per ward patient.....		2.74+	2.74+
This cost for both ward and private patients was arrived at by a schedule of percentages which was largely conjectural, but which was adopted after conference by the Hospital officials.			
Emergency Ward.			
Patients under treatment first of year. Male.....	1		4
Female.....	0	0	2
		1	6
Patients admitted during year, Male.....	4,788		4,699
Female.....	1,302		1,199
		6,090	5,898
Total patients treated during years, Male.....	4,789		4,703
Female.....	1,302		1,201
		6,091	5,904
Dispensary.			
Total patients treated during year.....	16,720		14,906
Visits made to dispensary during year.....	63,184		60,539
Average visits per day.....	238		199+
Average visits per patient.....	3.8		4+
Daily average cost per dispensary patient.....	.31+		.32+
Ambulance.			
Ambulance calls during year.....	4,286		3,191
Average calls per day.....	11+		8+
Patients brought by Ambulance Surgeon.....	2,301		1,975
Patients treated by Ambulance Surgeon and left at place of call or transferred direct to other institutions.....	1,809		1,242
Summary.			
Total patients treated during year in all departments....	28,191		25,909
Average patients per day in all departments.....	457		413
Daily average number of employees boarded in Hospital.	294		294
Daily cost per capita for provisions for all persons supported.....	.4019		.4191

Excess of cost over receipts.....	180,361.32	186,844.33	.....	6,483.01

### AGGREGATE SERVICE.

The total number of individuals receiving relief at the hands of the Hospital (including the House of Relief) was 62,269. They were distributed as follows:

	1909.	1908.
At the Hospital.....	30,001	25,909
At the House of Relief.....	32,668	33,843
Total.....	62,269	59,752

Seventy-one per cent. of those who were admitted to the Hospital wards received gratuitous treatment (not including 7,889 treated in Accident and Reception Wards, all of whom were treated without charge). At the House of Relief 94.7 per cent. were treated gratuitously.

### COST OF MAINTENANCE.

The total cost of maintenance of the Hospital for the year was \$616.74 more than for the preceding year. The expenditure for medical and surgical supplies showed a decrease of over \$4,000.

By washing absorbent gauze a saving of \$2,370.41 was made. A saving of over \$400 was made on rubber gloves.

The members of the medical and surgical staffs are entitled to credit for the spirit of economy they have displayed in their use of hospital supplies.

As we furnish an excellent quality of inspected milk our expenditure for this item is large, over \$13,000 annually. We believe, however, the extra expenditure for this item is a justifiable one.

The expenses of our Engineering Department are excessive, owing to antiquated equipment. The plant has, however, recently been thoroughly overhauled, and some decrease in expenses is anticipated.

### IMPROVEMENTS AND REPAIRS.

The repairs and improvements made during the year were quite extensive, and included among others the following:

The rooms in the west basement of the main building, occupied by the emergency department, were put in first class shape. The walls and floors were tiled throughout.

Part of the large room in the east basement of the main building, occupied by the Apothecary, was set aside for the new department of admissions. The walls and floor were tiled. New plumbing and sanitary fixtures were provided in the examination rooms.

A large amount of painting was done, the wards, corridors, and nurses' home being painted throughout, as was the House of Relief.

Over \$8,000 were expended in improving the steam plant.

A room in the Help's Dormitory, adjoining the Pathological Laboratory, was equipped as a laboratory for research work. Owing to the lack of money with which to pay salaries the work in this department has not yet been started.

A mangle of large capacity, and a conveyor dry-room were installed in the laundry. This additional equipment was made necessary by the great increase in the number of pieces laundried. In 1904 only 400,000 pieces passed through the laundry while in 1909 the number was 1,654,000

A Kirker Bender Fire Escape was constructed at the rear of the main building. It consists of a spiral slide enclosed with sheet steel. It is about 85 feet high, and is entered from the ward pantries on the different floors. This in connection with the other fire escapes, the stand pipes, and the chemical extinguishers would seem to furnish ample protection in case of fire. The weekly fire drill has been continued.

### *CHILDREN'S WARD.*

The rather frequent outbreaks of contagious disease in this ward seriously curtail its usefulness. We have no facilities for isolating children for two or three days on admission to the Hospital in order to allow any contagious disease they may be harboring to manifest itself before they come in contact with other children. The result is that contagious disease is frequently brought in, and the children are exposed to it.

This is to be regretted. It cannot be overcome in our present building without making radical changes.

The Christmas tree was much enjoyed by the occupants of this ward.

When active treatment is no longer required many of the children are sent to the Campbell Convalescent Cottages, to their great benefit.

### *CONVALESCENT COTTAGES.*

The Campbell Convalescent Cottages at White Plains are gradually coming to play a more important rôle in the Hospital's work.

They are deservedly popular. Children do especially well there.

Parents have learned that a few weeks' sojourn in the country is very beneficial to children who are convalescing from illness. And they are very anxious to have their own children sent there, even for a short time.

An Isolation Ward, for cases of contagious diseases developing among the children, was built during the year, and is now ready for occupancy.

This will enable us to extend our work for it will be no longer necessary to quarantine the entire institution whenever a case of contagious disease occurs.

The cottages, with the exception of that for men, are now kept open throughout the year.

Details of the work appear elsewhere in this report. It may be summarized as follows:

1909					1908			
	Number	From N. Y. H.	From other Hosps.	Hospital Days.	Number	From N. Y. H.	From other Hosps.	Hospital Days.
Men.....	89	89		1,298	70	70		1,083
Women..	158	152	6	2,914	105	103	2	1,651
Children.	317	263	54	12,409	93	72	21	2,935
Total....	564	504	60	16,621	268	245	23	5,669

The managers of the Babies' Convalescent Home at Sea Cliff, L. I., kindly extended the privileges of that Institution to our convalescent patients.

### X-RAY DEPARTMENT.

The work in the X-Ray Department, under the direction of Dr. Busby, was greater than ever before. The assistance of high class X-Ray work is now regarded as essential not only by the Surgical Staff, but also by the Medical Staff.

During the year a new interrupterless X-Ray apparatus was installed. The old coil was slow and uncertain; the new one is rapid and certain.

With the new machine it is possible to easily and successfully skiagraph thick parts which were skiagraphed with the old machine only with much difficulty.

The following table shows the separate radiographs taken. As a large proportion, however, demanded more than one view, it is estimated that the total number was about 2,300:

### X-RAYS TAKEN IN 1909.

Head.....	29
Neck.....	10
Thorax.....	66
Shoulder.....	93
Upper arm.....	15
Elbow.....	119
Forearm.....	53
Wrist and hand.....	266
Abdomen.....	103

Pelvis and hips.....	101
Thigh.....	31
Knee.....	66
Leg.....	52
Ankle.....	79
Foot.....	57
Total.....	1,140

### AMBULANCE SERVICE.

A second electric ambulance was added to the Hospital's equipment late in the year. This renders it unnecessary to longer continue the horse ambulance service, excepting one horse held in reserve.

Our territory, which now extends from Fourteenth Street to Forty-second Street, and from Fourth Avenue to the North River, is so large that, especially in hot weather, the runs are too long for horses. And besides the motor ambulance gives a more prompt and comfortable service than does the horse-drawn vehicle.

The number of calls at the Hospital was greater than those of last year by 1,095, and at the House of Relief by 133.

The average daily number of calls at the Hospital was approximately 12, as compared with 8 last year.

The average daily number of calls at the House of Relief was 12, the same as in 1908.

The details of the service are as follows:

	Hospital.		House of Relief.	
	1909.	1908.	1909.	1908.
Total calls.....	4,286	3,191	4,553	4,420
Brought to Hospital.....	2,301	1,975	2,456	2,493
Treated and left at place of call.....	729	367	1,462	1,927
Taken from scene of call to other hospitals, precincts or home.....	1,080	756	358	.....
Dead on arrival.....	142	119	126	147
Nothing found at place of call.....	94	51	151	.....
Transferred to other hospitals.....	118	.....	1,480	1,595

### SOCIAL SERVICE WORK.

During the year our corps of visiting nurses has been increased. In addition to the visiting nurse for tuberculous patients we now have a nurse who devotes her entire time to children.

She visits the homes and gives the mothers practical demonstrations in the feeding, bathing, and general care of infants and young children.

In addition to this she assists the dispensary doctors and arranges fresh-air outings for children and their mothers.

Over 300 children were given outings, and 132 were sent to the Campbell Convalescent Cottages at White Plains.

The Association for the Improvement of the Condition of the Poor kindly donated the services of a nurse during the summer months. This nurse assisted in the department for children.

Miss Irene Sutcliffe, former Superintendent of the Training School, volunteered her services as social worker, and has done very valuable work along this line.

Miss Sutcliffe visits the patients in the Hospital wards, and ascertains the needs not only of the patients, but also of their families, and then proceeds to render any assistance in her power. She has the coöperation of a number of institutions and individuals.

There can be no doubt of the great value of this work. Any one who is at all familiar with the social condition of hospital patients will readily understand how valuable a nurse animated with the spirit of helpfulness can make herself to patients and families during sickness. A family in fairly comfortable condition during health, in sickness may soon become dependent. A little assistance at the right time may prevent them from becoming habitual dependents.

Not a small part of the visiting nurse's duties is the teaching of personal hygiene, and the means to be taken in the prevention of disease. The results of this teaching are already becoming apparent in tenement house districts.

### *OUT-PATIENT DEPARTMENT.*

The work in this Department was somewhat greater than in 1908. While there were more patients treated the number of prescriptions was less. We are hampered in this department by inadequate facilities. The work of the year was as follows:

	1909.	1908.	Increase.	Decrease.
New patients.....	16,720	14,906	1,814	.....
Total visits.....	63,184	60,539	2,645	.....
Total prescriptions issued.....	43,117	43,374	.....	257
Total receipts.....	\$7,119.65	\$6,854.40	\$263.95	.....

The distribution of milk and eggs to needy tubercular patients has been as follows:

	1909.	1908.
Eggs, dozen.....	1,966½	1,854½
Milk, quarts.....	7,932	7,260
Total issues.....	6,060	5,388
Cost.....	\$1,219.88	\$1,007.47

### HYDRATIC DEPARTMENT.

In this department treatment is furnished free of charge to ward, private room and out-patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number treated in 1909 was 9+, contrasted with 8+ in 1908.

The number treated during the year is as follows:

	Male.	Female.	Total.	From Wards.	From O. P. Dept.	Total Treat- ments.	Average Treat- ments Day.
January.....	24	35	59	3	56	355	14+
February.....	23	27	50	7	43	304	12+
March.....	30	31	61	12	49	310	11+
April.....	26	27	53	9	44	318	12+
May.....	24	22	46	9	37	250	10
June.....	20	33	53	6	47	268	10+
July.....	21	26	47	1	46	209	8+
August.....	22	16	38	4	34	174	6+
September.....	17	16	33	0	33	171	6+
October.....	23	16	39	1	38	215	8+
November.....	22	19	41	2	39	252	9+
December.....	28	21	49	2	47	245	9+
Totals.....	280	289	569	56	513	3,071	9

### HOSPITAL RECEIPTS.

The total receipts of the cashier were larger than last year by \$7,099.75. The receipts from private patients were \$7,782.41 greater than in 1908.

The receipts from ward patients showed a decrease of \$2,714.53, with substantially no change in the number of patients cared for.

This undoubtedly was due, in part, to the fact that the Twenty-second Police Precinct was added to our ambulance territory during the year. Of the patients brought in from this precinct comparatively few are able to pay anything to the Hospital.

## HOUSE OF RELIEF.

This institution continues to do most excellent work. Great numbers of patients are cared for in limited quarters, and at comparatively small expenditure. The doors are never closed to the sick and injured, regardless of whether or not they belong to the so-called emergency class. As a result the service is an intensely active one.

All interior walls and woodwork were painted during the fall, and the institution now presents quite an attractive appearance. Numerous repairs and improvements were made.

Mr. Herman A. Knoll, who for fourteen years had served faithfully and capably as Assistant Superintendent, resigned in September. He was succeeded by Miss Susan V. Gifford, who has occupied the position of matron for a number of years.

Dr. Lewis A. Stimson, Attending Surgeon, reached the retiring age, and left the service of the institution at the close of the year. Dr. Stimson had devoted himself to the House of Relief for many years, and much of its success is directly attributable to his indefatigable industry, professional skill and executive ability.

The professional work has been placed in charge of the Medical Board of the Hospital.

Complete details of the medical and surgical work done will be found in the "Report of the Attending Physician and Surgeon," which appears elsewhere in this report.

Subjoined is a brief résumé of the year's work.

	1909.	1908.
Patients treated in the wards.....	3,015	3,082
Patients treated in Out-Patient Department.....	28,191	28,834
Patients treated and left by ambulance surgeon.....	1,462	1,927
Total treated.....	32,668	33,843
Total days of hospital care.....	13,748	13,351
Total days of pay patients.....	727	627
Total days of non-paying patients.....	13,021	12,724
Percentage of free patients.....	94.7	95.4
Average daily census.....	37+	36+
Average days per patient.....	4+	4+
Number of major operations.....	182	172
Number of deaths.....	277	256
Number of ambulance calls.....	4,553	4,420
Average calls per day.....	12+	12+
Dead on arrival.....	126	147
Number of transfers.....	1,480	1,595
Brought to hospital.....	2,456	2,493
Total prescriptions.....	40,441	41,341
Receipts from ward patients.....	\$1,798.29	\$1,310.70
Receipts from Out-Patients.....	3,715.79	3,694.45
Miscellaneous receipts.....	323.02	168.72

### GIFTS.

The Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts while ordinarily inexpensive have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under renewed obligations to the Employment Society of St. Thomas' Church for a large amount of sewing done without expense to the Hospital.

In taking up the work laid down by Mr. Ludlam after an enthusiastic and very efficient service covering a period of thirty-two years, I did so with a partial realization of the difficulties which would be encountered in the process of adjustment. To succeed a capable, earnest man is always difficult, but in this instance the long duration of Mr. Ludlam's service made it doubly so. Fortunately he left a corps of loyal assistants who have, I believe, carried on the work to your satisfaction.

We have enjoyed at all times the benefit of Mr. Ludlam's valuable advice.

I am grateful to the Board of Governors for the support and encouragement they have given me during this first year of my service.

Respectfully submitted,

THOMAS HOWELL,

*Superintendent.*

# REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1909.

*To the Board of Governors:*

GENTLEMEN:—The increase in the work of the Hospital for the year 1909 over that of the preceding year may be seen in the following table:

	1909.	1908.
Patients treated in Hospital.....	11,472	9,738
Out-patients.....	16,720	14,906
Out-patient visits.....	63,184	60,539
Operations.....	1,509	1,404
Ambulance calls.....	4,286	3,191
Ambulance transfers.....	<u>118</u>	<u>67</u>

Of the total 11,472 patients, 6,091 were treated in the Accident Room during the hours when the Out-Patient Department is closed. These cases were mainly surgical and many of them were referred to the Out-Patient Department for further treatment. In the wards were treated 5,381 patients, of whom 1,799 did not pass beyond the Reception Ward and the remaining 3,582 were treated in the general wards.

In the Medical Wards 1,139 patients with medical diseases were treated and the larger groups were as follows:

Alcoholism.....	8
Arteriosclerosis.....	33
Bronchitis.....	45
Cerebral hemorrhage.....	25
Cirrhosis of liver.....	19
Endocarditis.....	88
Epilepsy.....	5
Gastritis.....	38
Gastroenteritis.....	31
Graves disease.....	11
Meningitis.....	17
Nephritis.....	102
Neurasthenia.....	22

Myocarditis.....	25
Pleurisy.....	53
Pneumonia, lobar.....	171
Poisoning by gas.....	11
Rheumatism, articular.....	80
Pulmonary tuberculosis.....	49
Tonsilitis.....	22
Malarial fever.....	32
Typhoid fever.....	85

---

In the Surgical Wards 1,867 patients with surgical diseases and injuries were treated. The larger groups were:

Fractures of skull.....	61
Gunshot wounds.....	12
Dislocations, major.....	15
Fractures, major.....	166
Appendicitis.....	254
Hernia.....	206
Cancer.....	96
Other malignant tumors.....	7
Non-malignant tumors.....	89
Liver and gall bladder.....	26
Kidney.....	35
Salpingitis.....	103
Ectopic gestation.....	9
Bladder and prostate.....	23
Uterus.....	121
Empyema of chest.....	11
Rectum and anus.....	108

---

In the private rooms the number of patients treated was 440, and in the private operating room 288 operations were performed.

In the general operating rooms of the Hospital 1,509 operations were performed, with 74 deaths, a mortality slightly below 5%.

### OUT-PATIENT DEPARTMENT.

The work of the year is indicated by the following report from the Associate Physicians and Surgeons:

The Out-Patient Department, in carrying on its work during the year, has followed for the most part the plans developed in the past.

Certain details, however, have been altered or adopted which have resulted in improvement of the service.

The number of patients treated has continued to increase, as is shown by the following comparison with last year:

	1908.	1909.
New patients.....	14,906	16,720
Total number visits.....	60,539	63,184
Total number prescriptions.....	43,374	43,117

The distribution of the work between the Surgical and Medical Divisions was as follows:

SURGICAL, meeting every morning, except Sunday,  
from 10-12:

	1908.	1909.
New patients.....	8,895	10,625
Total number visits.....	41,928	43,400

MEDICAL, daily, except Sunday, from 2-4 P.M.

	1908.	1909.
New patients.....	6,011	6,095
Total number visits.....	18,611	19,784

The work in tuberculosis is developing satisfactorily. Only those cases have been treated which could not be placed in a hospital or sanatorium. The efficiency of a dispensary is not to be measured by the number of cases in regular attendance.

Our position as a member of the Association of Tuberculosis Clinics continues a highly satisfactory arrangement. One result of this membership is the assigning of two extra nurses to our district by the Department of Health.

Number of cases of tuberculosis treated.....	440
Average daily attendance at clinic.....	8
Total number of visits, Tuberculosis Department.....	2,221
Number incipient cases placed in Sanatoria.....	30
Number advanced cases placed in Hospitals.....	46

We have continued to examine the children of all cases of tuberculosis in attendance and proper disposition has been made of them.

A few of those positive cases whom we were unable to send away form a special class in weekly attendance.

In April, 1909, an additional nurse was put at our disposal by the Board of Governors for work in the Children's Department. During

the summer her work was a continuation of that of a special nurse in 1908 in the investigation and relief of a certain number of cases of infant feeding. Another group of similar cases were followed to be used as a control series. This work will be reported in greater detail later. During the winter months this nurse has charge of tuberculous children.

A trial was made at the beginning of the year of having a masseur in attendance three mornings a week. This proved of so much value that at present a trained masseur and two assistants, all of whom give their services, are kept constantly busy three mornings a week from 10-12. By this treatment the period of disability which follows many fractures and dislocations is materially diminished, while it has proved a valuable accessory in the treatment of many other conditions.

The Department of Hydrotherapy, while used somewhat less than last year, fills a definite need and was of great value in a limited number of cases.

The services of a specialist in skin diseases was available in the Surgical Clinic during a large part of the year and proved of value in many doubtful cases for diagnosis and treatment.

The Orthopaedic Department has been considerably developed and improved by Drs. Fiske and Steinhardt.

The changes made in the arrangement of rooms, especially that relating to the Drug room, has proved satisfactory. Under the present system the filling of prescriptions and the distribution of drugs is greatly expedited.

JAMES C. GREENWAY,  
EUGENE H. POOL.

### *PATHOLOGICAL DEPARTMENT.*

The work of the department in 1909 was somewhat less than that of the preceding year. In the Pathologist's report it is noted that the number of bacteriological and histological examinations, as well as the number of chemical analyses, was below that of 1908, and in addition there was a material decrease in the number of autopsies. In 1907 there were 241 autopsies, in 1908, 189 autopsies, and in 1909, 149 autopsies, and during these years there was no corresponding decrease in the number of deaths or any change in the mortality percentage to explain the falling off in the number of autopsies. It is a matter of extreme importance to the work of the department, and it is to be hoped that it will receive practical attention and that steps may soon be taken to improve matters in this direction. It is also to be hoped that funds may be forthcoming for obtaining the services of a physiological chemist, as the development of the work along these lines is necessary and will be of scientific and practical benefit to the Hospital.

The X-Ray Department continues to be of great value to the medical and surgical work, and during the year its usefulness has been increased by the purchase of new and improved apparatus, but the want of additional room restricts the work of the department.

In 1908 a committee of the Medical Board, in conjunction with the Superintendent, took up the question of the increased consumption of medical and surgical supplies, absorbent gauze and rubber gloves in particular, and initiated measures which have resulted in a considerable saving of these articles. In 1907 about \$8,000 was expended for absorbent gauze, in 1908 the amount was reduced to \$6,000, while in 1909 it was further reduced to \$4,000. In April, 1908, all clean absorbent gauze, which had been used, was sent to the laundry to be washed, and after sterilization in the Operating Room Department was used a second and even a third time. In 1908, 12,012 yards of this "washed" gauze was used, and in 1909 the amount used was increased to 36,003 yards. It is sent for use in the Accident Room and in the Out-Patient Department, and has practically supplanted the use of new gauze in these departments. A considerable saving in rubber gloves has also resulted and, during the past year, in the Operating Room, which is the chief consumer of gloves, there was a saving of 561 pairs over the preceding year.

It is quite evident that the present Hospital is inadequate for the proper performance of the work, which increases yearly. The sunlight, together with the fresh air, is steadily being cut off by the erection of high buildings in the near vicinity and in a few years the Hospital will be entirely surrounded and shut in. It is the unanimous opinion of the Medical Board that, in order to meet the serious problems which confront the work of the Hospital and to maintain a high standard, it will be necessary in the near future to erect a new and modern Hospital on a site admitting of abundant sunshine and fresh air.

#### *HOUSE OF RELIEF.*

The work in 1909, as compared with that of the preceding year, is indicated in the following table:

	1909.	1908.
Patients treated in wards.....	3,015	3,082
Out-patients.....	28,191	28,834
Out-patient visits.....	64,526	66,397
Ambulance calls.....	4,553	4,420
Ambulance transfers.....	1,480	1,595

Four hundred and four patients with surgical diseases were admitted. Of these 21 died, 8 by existing sepsis, 2 by cancer, 6 by strangulated

hernia, 2 by perforating gastric ulcer with general peritonitis, 1 by perforating duodenal ulcer with general peritonitis, 1 by shock following complete hysterectomy.

One thousand and fifty-three patients were admitted with surgical injuries. Of these 59 died, 19 by multiple injuries, 26 by fracture of the skull, 9 by gunshot and stab wounds, 3 by dislocated and fractured vertebræ, 2 by burns.

There were 304 operations upon ward patients, with 25 deaths, of which 20 followed operation within the abdomen for disease or injury, 3 compound fracture, 1 pyæmia with pectoral abscess, 1 decompression for cerebral hemorrhage.

Fifteen hundred and forty-two medical cases were admitted, with 138 deaths. The larger groups were as follows:

Alcoholic intoxication.....	125
Bronchitis.....	41
Cerebral hemorrhage.....	48
Cerebro-spinal meningitis.....	6
Delirium tremens.....	65
Endocarditis.....	50
Other heart diseases.....	26
Epilepsy.....	134
Gastritis.....	53
Insanity.....	15
Malaria.....	36
Nephritis.....	100
Pleurisy.....	21
Pneumonia.....	134
Gas poisoning.....	18
Rheumatism.....	100
Tuberculosis.....	96
Typhoid fever.....	34

We regret to note the death of Dr. W. T. Bull, who served the Hospital loyally from 1876 to 1900, when he was made a Consulting Surgeon.

Dr. G. L. Peabody, after twenty-five years of devoted service as Attending Physician, resigned in September.

Dr. L. A. Stimson, after twenty years of faithful service as Attending Surgeon to both the Hospital and the House of Relief, retired in December.

The resignation and retirement of these distinguished colleagues from the Attending Staff is noted with great regret.

It is a matter of great satisfaction, however, that your Honorable Board has elected these colleagues to the Consulting Staff, thus enabling us to enjoy in the future the benefit of their counsel and advice.

FRANCIS W. MURRAY,

*President*

LEWIS A. CONNER,

*Secretary.*

# REPORT OF THE SUPERINTENDENT OF THE TRAINING SCHOOL.

---

*To the Board of Governors of the New York Hospital:*

GENTLEMEN:—I herewith submit the report of the thirty-third year of the Training School.

The Staff of the Training School on duty at the close of the year is as follows:

*Officers of Instruction:*

Superintendent.....	1
Assistant Superintendent.....	1
Night Supervisor.....	1
Clerical Assistant.....	1
In charge of the Private Patients' Building.....	1
In charge of the Out-Patient Department.....	1
Visiting Nurses (Out-Patient Department).....	2
Operating Room Nurses.....	3
Head Ward Nurses.....	9

*Pupils:*

Seniors.....	32
Intermediates.....	14
Juniors.....	43

---

The Training School consists of 89 pupils of whom 69 are assigned to duty in the general Hospital and Private Patients' Building; 10 to the House of Relief; 6 to the Lying-in Hospital, and 4 to the Sloane Maternity Hospital. Fourteen hundred and seventy applications were received; 56 probationers entered, 45 accepted; 7 pupils disqualified and 3 resigned.

The total days of illness has been 609, the increase over previous years being due to the long isolation necessary in several cases. The room in the Private Patients' Building assigned to the use of nurses during illness has been occupied 620 days, of which 388 were by graduate nurses, and 232 by members of the Training School. This privilege continues to be gratefully appreciated.

Forty pupils finished the course, passed the final examinations successfully, and were awarded diplomas in 1909. The graduating exercises

were held March 3d and were largely attended by the friends of the School. Mr. George L. Rives, President of the Hospital, presided and made the introductory address. The Reverend Edward B. Coe, D.D., made a most eloquent and practical address to the Graduating Class. These exercises were held in the Governors' Room and were followed by a reception in the Nurses' Home.

The Post-Graduate Course for instruction in institutional management was organized October 1st. This course of six months' duration is open to graduates only. It includes practical experience in all executive departments. Two graduates are now in training and the undertaking promises good results.

During the Hudson-Fulton Celebration, four nurses of our Training School were assigned to work in connection with the Red Cross Association, and were on continuous duty during the days covered by the celebration.

The work being accomplished by the School is satisfactory and encouraging. The enthusiasm of the pupils, their fidelity and loyalty are most commendable and furnish increasing inspiration and incentive to the teaching staff. The need of increased accommodation is still pressing. If this could be furnished, the work of the School would be greatly facilitated.

### { SOCIAL } SERVICE.

It is gratifying to note the steady growth of the Social Service work in the Hospital.

Mrs. Jameson, in charge of the Tuberculosis Clinic in the Out-Patient Department, by her devotion and efficiency, has maintained a high standard and steadily increased the value of that work. She has averaged 100 visits a month to patients in their homes and given instruction in the care of these tubercular patients and in precautionary measures. She has also dispensed 7,932 quarts of milk and 1,969 dozens of eggs to needy tubercular patients.

In May, 1909, Miss Elizabeth Price was appointed Visiting Nurse to the Children's Clinic in the Out-Patient Department. Since that date she has made 569 visits and the majority of these have included practical demonstrations to mothers regarding feeding, bathing, and the general care of infants and children. In addition to this, fresh-air outings were secured for 298 mothers and children, and also 110 children were sent to the Campbell Convalescent Cottage, White Plains, thus proving that it will be possible to keep this Convalescent Home entirely filled by patients from the New York Hospital.

Until recently, the work was necessarily restricted to the above special classes in the Out-Patient Department. Its conspicuous success there demonstrated its usefulness and stimulated the desire to extend it

over a wider sphere. During the year this wish was gratified by the volunteering of Miss Irene H. Sutcliffe, so long connected with the New York Hospital as the honored and successful Superintendent of the Training School, to devote her time to this department, and the Hospital is to be congratulated upon her return to active work. She entered upon the work in the autumn, and ministers to patients in all departments of the Hospital and House of Relief, except those special cases in the Out-Patient Department already referred to. Miss Sutcliffe has been ably assisted by Miss Jessie States, a graduate of our School, whose voluntary service has been appreciated and is hereby recognized.

It is hoped that this small beginning of a work in our Hospital which has proved so invaluable elsewhere will secure the attention it deserves, and will lead to the establishment and maintenance of a corps of social workers who will do their share in completing what has been so aptly called "the unfinished work of the hospitals."

Respectfully submitted,

ADELINE HENDERSON,  
*Superintendent of Training School.*

# REPORT OF THE MEDICAL SUPERINTENDENT OF THE SOCIETY OF THE NEW YORK HOSPI- TAL, BLOOMINGDALE, WHITE PLAINS, NEW YORK.

*To the Board of Governors:*

GENTLEMEN:—In compliance with a By-law of your Honorable Board, the following report of the operation of the Psychopathic Department of the Hospital for the year 1909 is respectfully submitted:

## STATISTICS FOR THE YEAR 1909.

	Men.	Women.	Total.
There were under treatment January 1, 1909.....	157	197	354
There were admitted during the year.....	59	63	122
There were treated during the year.....	216	260	476
The discharges were: Recovered.....	13	27	40
Improved.....	20	20	40
Unimproved.....	8	19	27
By death.....	14	8	22
Total.....	55	74	129
There were under treatment December 31, 1909.....	161	186	347
The average number under treatment was.....	157	186	343
The lowest number was: Men, in November.....	150	....	....
The lowest number was: Women, in November and December.....	....	178	....
The lowest total number was in November.....	....	....	328
The highest number was: Men, in February, June, and August.....	161	....	....
The highest number was: Women, in January.....	....	194	....
The highest total number was, in January.....	....	....	352

There were 122 cases, 59 men and 63 women, admitted during the year. There were 6 fewer patients than cases, 4 men and 2 women having been discharged and readmitted during the year. Sixteen patients, 6 men and 10 women, had been discharged from the institution prior to January 1, 1909. Two men had been discharged three times, 2 men twice, and 2 men had been discharged once. One woman had been discharged six times, 1 woman four times, 3 women twice, and 5 women had each been discharged once.

Of those readmitted for the first time, 1 man and 2 women had been discharged as recovered, and 1 man and 3 women as improved.

One man had been discharged twice as recovered, and 1 man once as recovered, and once as improved, 1 man three times as recovered, and 1 man twice as improved, and once as recovered. One woman had been discharged five times as recovered, and once as improved, 1 woman four times as recovered, 2 women once as recovered, and once as improved, and 1 woman twice as improved.

Ninety-one of the admissions, 45 men and 46 women, were first attacks, of which 60, 27 men and 33 women, were admitted first to Bloomingtondale. Deducting from the whole number of admissions 14 cases that had been admitted in previous years, and 60 admissions in first attack, leaves 48 cases that have either been treated at home, or at some other institution previous to admission here.

Fifty-six patients were admitted three months or less after the first symptoms of mental disease were noticed by their friends; 17 between 3 and 6 months, 9 between 6 and 12 months, and 40 more than a year.

### *DISCHARGES.*

The total number of discharges during the year 1909 was 129; 55 men and 74 women. The number of recoveries was 40; 13 men and 27 women. They were 31 per cent. of all discharges, including deaths, 24 per cent. of the men who were discharged or died, and 36 per cent. of the women who were discharged or died.

Twenty patients, 8 men and 12 women, recovered from the first attack, 2 men and 7 women from the second, 1 man and 2 women from the third, 2 men and 3 women from the fourth, and 3 women from the seventh attack.

In the 40 cases that recovered the average duration of the disease from invasion to recovery was 9 months and 18 days; of the men 8 months and 4 days, and of the women 10 months and 9 days. The average duration of treatment was 5 months and 17 days; of the men, 6 months and 10 days, and of the women, 5 months and 7 days. The disease was reported to have existed before admission an average of 4 months and 1 day; in the men 1 month and 24 days, and in the women 5 months and 2 days. The longest period of treatment in those recovered was 1 year, 2 months, and 25 days in the case of 1 man, and 1 year, 2 months, and 11 days in the case of 1 woman; the shortest was 7 days in 1 man, and 30 days in each of 2 women.

Three alcohol habitués, 1 man and 2 women, were discharged as recovered.

Two cases of morphine habit, 1 man and 1 woman, were discharged as recovered.

Forty cases, 20 men and 20 women, were discharged as improved. In the cases of 4 men and 9 women, it seemed probable, at the time of their discharge as improved, that they would have recovered if continued under treatment.

Of the 27 patients, 8 men and 19 women, who were discharged unimproved, it seemed probable that 2 men and 2 women would also have recovered if continued under treatment.

### *GENERAL REMARKS.*

There were 2 fewer admissions this year than last.

The average number of patients in the institution was 343, 4 less than the average of the preceding year.

The number of weeks' board and treatment furnished for patients was 17,838 $\frac{7}{8}$ . The average expenditure per patient was \$12.94 per week, which includes the total cost of maintaining the property at White Plains and the patients upon it, and is for all salaries and wages, repairs, supplies, and maintenance of every kind, except that our high-paying patients repay us for the exclusive services of their attendants, and we deduct this sum from the total expense.

Forty-eight women were beneficiaries of the John C. Green Memorial Fund during the year 1909. The amount of income received from that Fund and expended for these women in 1909 was \$7,294.30. The total charitable expenditures during the year 1908 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$54,664.04. Two hundred and thirty-seven individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$47,369.74 was expended for this purpose from the earnings of Bloomingtondale during the year 1909, from which earnings charitable assistance to patients was given to the extent mentioned above. Over 10 per cent. of the patients treated contributed nothing whatever to their support; 51.4 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 48.6 per cent. paid a rate which secured a surplus for the institution. The total support and partial assistance rendered to patients unable to pay for their entire cost to the Hospital was equivalent to maintaining 81 free beds.

The graduates of the Training School for Attendants, including the eight who graduated this year, amount to 98 since the school was first started in 1894, of whom 5 men and 21 women remain in the employ of the institution.

The year 1909 was a very successful one for Bloomingtondale Hospital, both from a medical and financial standpoint.

All the usual modes of treatment, which have proved themselves of benefit, were continued, with special reference to the cases involved. A

large number of lumbar punctures were made in cases where the diagnosis was paresis, or pseudo-paresis, and the observations made were compiled, and will shortly appear in the *New York Medical Journal*.

This work was done by Dr. Amsden, special pathologist of the Hospital, who also carried on certain investigations of the Wasserman test for syphilitic infection.

Dr. Amsden is now increasing his information on these subjects at the laboratories and clinics of Professors Alzheimer, Jung, Plaut, Kraeppling, and others, and the Hospital will have the benefit of his further experience.

The occupation department has proved valuable to the moral treatment of patients, and owing to the good work which they have done, has been less expensive than was expected. A considerable demand has existed for the fancy work, which has appealed to various women who visited the institution, so that there is every encouragement to pursue it.

What might be called our Annual Occasion took place on May 27th, at which time the Graduates of our Training School for Attendants received their certificates of efficiency, and as many of the Governors as were able to arrange to attend the exercises were present, and made a general inspection of the Hospital.

Bloomington Hospital was able during the year 1909 to secure a particularly attractive small cottage, almost surrounded by the water of Long Island Sound, which was easily accessible, but at the same time very secluded; 98 different patients enjoyed either the day visits, or spent more or less time continuously at the cottage during the season. It was kept open from the earliest balmy weather until it became too cool to be safe and pleasant.

The usual outdoor diversions were utilized during the year for the benefit of the patients.

The patients admitted during 1909 were of a rather higher natural intelligence than those admitted in some of the former years, and showed a greater appreciation, both while here and after leaving, of the advantages which they had enjoyed, and the effort made for their benefit.

The Convalescent Cottage for men is conducted by Bloomington Hospital for such patients of the New York and allied Hospitals as are convalescing from general diseases, to whom a short stay in the country may be beneficial, and 89 different men spent from a few days to several weeks at this cottage during the season of 1909, for whom we furnished 1,291 days board. The cottage was conducted with little drain upon the time of the physicians and officers, and no doubt contributed very materially to the restoration to their work of this large number of patients.

Dr. August Hoch, who had been First Assistant Physician since July 1, 1905, received an appointment as head of the Pathological Depart-

ment of the State Lunacy Service on Ward's Island, and left here July 1st, going abroad to utilize some months, before entering on his new duties, in bringing his medical information up to date. His place was filled by Dr. Theodore I. Townsend, who has had twelve years' service in State Hospitals, and who has proved to be a most valuable officer to Bloomingtondale Hospital. Dr. Allen V. Laing, who came to this Hospital as Clinical Assistant the latter part of 1908, still remains, and in addition to performing his usual duties in the Hospital, in connection with the male department, and the drug store, is also attending the ordinary cases at the Campbell Convalescent Cottages. Cases of an unusual severity and of a contagious nature have been attended by Dr. H. E. Schmid of this village, this being done in the latter cases in order to prevent the spread of infection among other departments.

I wish to commend those employed in all departments of Bloomingtondale Hospital for their faithful and efficient service, which seems to be not alone to secure the moderate amount of pay which the Hospital is able to afford, but from a high sense of duty.

Attached to this is a report of Miss Alice C. Ellison of the Campbell Convalescent Cottages for women and children.

Respectfully submitted,

SAMUEL B. LYON,  
*Medical Superintendent.*

## CAMPBELL CONVALESCENT COTTAGES, 1909.

---

*To the Board of Governors:*

GENTLEMEN:—The winter of 1908 and 1909 was the first enjoyed by either women or children in the Convalescent Cottages. Women patients had been admitted to the original cottage during the summer season, for several years, but it was a question whether they would appreciate its advantages in cold weather. All doubt on this point has been removed, as women were admitted continuously throughout last winter. The children's beds were all occupied during the entire season.

During the first three months of the present year the number of children admitted was as usual, but by April the number of beds had been increased by fifteen, and this proved to be none too great.

Since the month of June, no children have been admitted from other sources than our own Hospital and its branches.

A large number of needy dispensary cases had hitherto been sent to various summer camps, but through the earnest cooperation of Miss Elizabeth Price, these children have been placed in our Convalescent Cottages, where they receive medical care during winter as well as summer months.

The number of applicants has increased rapidly, and there is now a waiting-list at all times.

Many sickly children with a tuberculous inheritance have received great benefit during the cold weather, whereas at home they would have been losing what health they possess in rooms filled with all that invites disease and sickness.

One girl was almost the last surviving member of a family from which six children had been claimed by tuberculosis before the age of thirteen.

The children's happiness and daily comfort are considered, as well as their physical improvement, and many steps have been taken to this end. Cement walks and a large court-yard were laid, which made it possible for the children to play freely in almost any weather. Large swinging seats, a covered sand pile, and rides in a Bloomingdale auto-

mobile add to the delights of summer, while winter sleds add greatly to the children's pleasure.

The two portable cottages, which were the children's original home, have been connected, and will now be used in case of isolation.

They have been remodelled, and are furnished with every necessary equipment of modern device.

In October there were four cases of scarlet fever, three children and the night nurse. They were all isolated, but the new isolation quarters not having been completed, it was necessary to utilize rooms in the women's cottage for that purpose.

Advantage was taken of the period of quarantine which followed, to have the children's quarters plastered and painted. Its execution occupied a longer period than was anticipated, thus making it impossible to re-admit women as soon as we had hoped.

Several other improvements have been added to the children's cottage. An oak wainscoting protects the walls, while a number of bright pictures have been secured for the corridors and sun parlor. A library is about to be established, which we hope will become a very useful factor in the children's mental recreation.

Christmas was a very happy season, and the children were indebted to friends of the Campbell Cottages for unexpected kindnesses.

The entire year has been one of outdoor life, and it is a very rare occasion when the majority of the children are not out a great portion of the day. The result is evidenced in feeble appetites becoming keen, pale faces ruddy, and a spring in the once lagging step.

Everything indicates a very busy future, which will have resulted from co-operation and sympathetic encouragement in an interesting work.

## CAMPBELL CONVALESCENT COTTAGES.

### SUMMARY.

#### CHILDREN'S SERVICE, 1909.

Number patients treated.....	317
Number hospital days.....	12,409
Average number days per patient.....	39
Average age per patient.....	7½
Average gain in weight, in pounds.....	2½
Number patients cured.....	87
Number patients improved.....	207
Number patients unimproved at present.....	20
Number patients died.....	3
Number patients requiring dressings.....	38
Number patients from New York Hospital.....	84

Number patients from O. P. D., New York Hospital.....	177
Number patients from Hudson Street Hospital.....	2
Number patients from Roosevelt Hospital.....	7
Number patients from St. Mary's Hospital.....	25
Number patients from Ruptured and Crippled.....	5
Number patients from St. Luke's.....	6
Number patients from Vanderbilt Clinic.....	1
Number patients from Rhinelander.....	10

#### WOMEN'S SERVICE.

# GOVERNORS

## OF

### THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the first of January, 1910, with the date of their respective elections and the length of time they continued in office:

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
A.				
Charles Ward Apthorp.....	1770	1784	14 years	
William Axtell.....	1770	1784	14 years	
John Alsop.....	1784	1788	4 years	
Gilbert Aspinwall.....	1799	1809	} 15 years	Died in office, 1819.
Gilbert Aspinwall.....	1811	1812		
Gilbert Aspinwall.....	1815			
John Atkinson.....	1800	1809	9 years	
John Aspinwall.....	1814	1817	3 years	
John Adams.....	1818	1854	36 years	
Stephen Allen.....	1823	1830	} 24 years	Died in office, 1852.
Stephen Allen.....	1835			
Augustine Averill.....	1848	1857	9 years	
John Jacob Astor.....	1860	1864	4 years	
George W. Abbe.....	1877		2 years	Died in office, 1879.
William W. Astor.....	1879	1882	3 years	
James W. Alexander.....	1904	1905	1 year	
B.				
Gerardus William Beekman.....	1770	1777	7 years	
George Bowne.....	1770	1784	} 26 years	
George Bowne.....	1785	1797		
William Bayard.....	1777	1784	} 9 years	
William Bayard.....	1800	1802		
Robert Bowne.....	1784		34 years	Died in office, 1818.
Aaron Burr.....	1784	1792	8 years	
James Beekman.....	1785	1787	2 years

TO THE LEGISLATURE OF THE  
STATE OF NEW YORK

---

The Governors of the Society of the New York  
Hospital respectfully present their Annual Re-  
port of the state of the Institutions under their  
charge for the year 1910, as required by law.

# ANNUAL REPORT

## OF THE

### GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1910.

---

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III, the Governors of the Society of the New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the department for the treatment of mental diseases, known as Bloomingdale Hospital, and the Convalescent Cottages at White Plains, Westchester County.

The number of individuals who received care and treatment in all departments during the past year was 66,935 as compared with 63,709 for the year 1909, divided as follows:

	1910	1909
NEW YORK HOSPITAL, FIFTEENTH-SIXTEENTH STREETS:		
In Wards.....	13,321	11,032
Private Rooms.....	510	440
Out-Patient Department.....	17,690	16,720
Treated by Ambulance Surgeons and not brought to the Hospital	2,895	1,809
	<u>34,416</u>	<u>30,001</u>
HOUSE OF RELIEF, HUDSON STREET:		
In Wards.....	2,792	3,015
Out-Patient Department.....	26,557	28,191
Treated by Ambulance Surgeons and not brought to the Hospital.....	1,952	1,462
	<u>31,301</u>	<u>32,668</u>
BLOOMINGDALE HOSPITAL, WHITE PLAINS:		
Psychopathic Department.....	478	476
CONVALESCENT COTTAGES, WHITE PLAINS:		
Men.....	90	89
Women.....	227	159
Children.....	423	317
	<u>740</u>	<u>564</u>

The most important transaction of the past year has been the determination of the Governors to remove the main Hospital from Fifteenth to Fifty-fourth Street.

The reasons for the abandonment of the present site are, briefly, that it lacks sufficient air and sunshine; that it has become inadequate both in size and facilities for the efficient performance of the work of the Hospital; that these defects are increasing; and that they seem to be practically irremediable. The present buildings were opened for use in 1877 and during the thirty-four years that have elapsed, the locality has wholly changed in character. It was then a good residential neighborhood. It is now given over to business of various kinds, largely the wholesale manufacture of clothing. Buildings fourteen or fifteen stories high have been erected in immediate proximity to the Hospital, and these buildings not only cut off light and air, but add very materially to the risk of fire. Additional land in the neighborhood cannot be procured except at very high and indeed prohibitive cost.

The proposed new site embraces the entire block between Fifty-fourth and Fifty-fifth Streets and Eleventh and Twelfth Avenues. On its south side it faces for eight hundred feet (or about double the length of the north side of Madison Square) on DeWitt Clinton Park; and its westerly end looks out upon the Hudson River, from which it is only separated by a wide avenue. It will thus be seen that there will be an abundance of sunshine and air, and that on so large a site there will be the most ample opportunity for future expansion.

The pressure for additional space may be estimated from the fact that in 1909 the total number of individuals who received care and treatment in the several branches of the Society's work was 63,709; in 1910, it had risen to 66,935. This is an increase of nearly five per cent. over the exceptionally large work of 1909.

Taking the Fifteenth Street Hospital alone, the increase in almost every item of comparison has been very striking. Thus the total number of patients treated during the year (excluding the out-patient department) has grown from 11,472 to 13,831; the total days of Hospital care from 80,551 to 86,874; the total number of days of patients in private rooms from 8,078 to 8,681; the number of ambulance calls from 4,286 to 5,237; and the number of patients treated in the out-patient department from 16,720 to 17,690. These figures indicate, more clearly than anything else, the greatness of the opportunity of service which this Society has before it.

During the past year every effort has been made to conduct the work of the Society on the most economical basis consistent with entire efficiency. The result has been that the expense of conducting the main Hospital was less than the year before, in spite of a general increase in the cost of food and the very marked

increase in the number of patients cared for. The per capita cost for patients at this Hospital has been substantially decreased and is now much less than it has been in any previous year.

For more than a generation, the Society of the New York Hospital has had means sufficient to conduct its work without appealing to the public. The construction of a new and thoroughly modern Hospital will evidently require additional funds, either in the way of gifts for buildings, or of endowment for maintenance. The sums needed will be large; but the Governors feel confident that the oldest hospital in this city will be supported in its step forward by all who appreciate its one hundred and forty years of conservative management. The opportunities of the new Hospital in caring for the sick, and in promoting education and research, will only be limited by the amount of the means available for carrying on this beneficent work.

During the past year the Society has lost by death two of its Governors: J. Edward Simmons and James T. Woodward (both of whom were at the head of very important banking institutions in this city). Appropriate resolutions were adopted by the Governors expressing their appreciation of the loss sustained.

The resignation of Dr. Samuel W. Lambert, Attending Physician to the Hospital, was received and accepted by the Board with regret during the early part of the year. Dr. Lambert was appointed Attending Physician in 1896 and served with distinction during the fourteen years of his incumbency.

The Governors gratefully acknowledge the following gifts received during the past year:

A legacy of \$10,000 from Mrs. Margaret J. P. Graves; a legacy of \$10,000 from James T. Woodward; and \$5,000 from Mrs. Elizabeth Fisher King for endowing a bed in the Hospital in memory of her late husband, Edward King, for many years a Governor of the Hospital.

The By-Laws of the Society provide for placing tablets in the main Hospital building, bearing the names of all the donors to the Hospital of sums not less than five thousand dollars; and it has seemed fitting that a permanent record of that kind should be supplemented by printing the list of such donors with this annual report. There is not sufficient space to include in this report the names of the many generous donors of sums less than \$5,000, but it is proper to state these donations aggregate \$229,927.51, dating from 1795. It is interesting to observe how wide an appeal the work of the New York Hospital has made in the past, and what very notable sums have been contributed to its support.

HENRY W. CRANE,  
*Secretary.*

GEORGE L. RIVES,  
*President.*

NEW YORK, February 7, 1911.

## In Memoriam.

---

JOSEPH EDWARD SIMMONS.

Died August 5, 1910.

JOSEPH EDWARD SIMMONS, a member of the Board of Governors of the New York Hospital, died at his country home at Lake Mohonk, New York, on August 5th, 1910, in the sixty-ninth year of his age.

Mr. Simmons was elected a member of the Society of the New York Hospital in 1891, and a member of the Board of Governors in 1892. He served continuously as Treasurer from 1897 to 1908, and upon his retirement from this office resolutions thanking him for his distinguished services were placed upon the record of the Board.

It is fitting, therefore, at this time that we, his surviving associates, should inscribe upon our minutes our deep appreciation of his high character, distinct ability and many services. Possessed of an unusually charming personality, and gifted with rare judgment and a high sense of what was due from him to his associates in the many important institutions over which he was called to preside, his death comes as a peculiar loss to the community in which he has so long resided.

To this Institution Mr. Simmons gave his best efforts and his fullest sympathy, and it is worthy of record that the good influence which he exercised and the high example which he set have been in consonance with the importance of the interests which he so faithfully served.

The Board of Governors in adopting these Resolutions desire to make expression of their appreciation of the loss which they have sustained; and it is

RESOLVED, That a copy of this minute, suitably engrossed, be forwarded to the members of Mr. Simmons' family.

*Extract from the minutes of the Board of Governors, October 4, 1910.*

## In Memoriam.

---

JAMES T. WOODWARD.

Died April 10, 1910.

JAMES T. WOODWARD, a Governor of the New York Hospital, died at his residence in this City on Sunday, the 10th of April, 1910, after a short illness.

Mr. Woodward, though a native of Maryland, had been a resident of New York for upwards of forty years. After a successful career as a merchant, he assumed in 1877 the office of President of the Hanover National Bank, which he raised from comparative unimportance to be one of the principal financial institutions of the Metropolis.

In 1907, he was elected a Governor of this Hospital, having been a member of the Society since 1883. His keen interest in our charitable work, his alert intelligence and his long and varied business experience enabled him to render the most valuable services. During his too brief tenure of office, he was always ready, notwithstanding many other urgent demands upon his time, to undertake whatever he was called upon to do in behalf of the Hospital.

The Board of Governors of the Society of the New York Hospital, deeply regretting the loss of this wise, experienced and courteous colleague and friend, direct that the foregoing be entered upon the minutes of the Board, and that an authenticated copy be sent to the family of Mr. Woodward.

*Extract from the minutes of the Board of Governors, May 3, 1910.*

# TREASURER'S REPORT.

## RECEIPTS FOR THE YEAR 1910.

INCOME.				
Balance Cash on hand, January 1, 1910

# REPORT OF THE SUPERINTENDENT, JANUARY, 1911

To THE BOARD OF GOVERNORS:

January, 1911.

Gentlemen:—I beg to submit the following report:

## COMPARATIVE STATEMENT OF OPERATING EXPENSES FOR THE YEARS 1909 AND 1910. FIFTEENTH-SIXTEENTH STREETS.

### ADMINISTRATION EXPENSES.

	1910.		1909.
Salaries, officers and clerks.....	\$19,110.92		\$25,010.82
Office expenses.....	661.87		644.50
Stationery, printing and postage.....	2,447.19		2,169.99
Telephone and telegraph.....	2,507.77		2,028.37
Miscellaneous.....	.....		92.85
Hospital Bureau standards and supplies.....	1,000.00		.....
Total Administration Expenses.....	\$25,727.75		\$29,946.53

### PROFESSIONAL CARE OF PATIENTS.

#### SALARIES AND WAGES:

Physicians.....	\$3,000.00		\$3,034.00
Superintendent of nurses, assistants and instructors.....	5,381.07		3,681.00
Nurses.....	18,717.90		20,107.27
Special nurses.....	678.51		1,255.36
Orderlies.....	10,165.72		10,228.37
Ward employees.....	2,908.00		1,680.00
Private patient building employees.....	.....		1,266.00
Seamstresses.....	\$40,851.20		702.70
			\$41,954.70

#### EQUIPMENT FOR NURSES:

Uniforms.....	162.45		.....
Books.....	24.40		21.40
Tuition fees.....	749.00	935.85	21.40

#### MEDICAL AND SURGICAL SUPPLIES:

Apparatus and instruments.....	1,305.65		1,404.88
Medical and surgical supplies....	13,075.39		13,646.55
Alcohol, liquors, wines, etc.....	748.25	15,129.29	1,109.67
			16,161.10

#### DISPENSARY:

Salaries and labor.....	2,410.00		4,988.72
Supplies.....	3,901.26	6,311.26	4,834.35
EMERGENCY WARD.....		2,278.28	9,823.07
CONVALESCENT RELIEF.....		2,850.00	1,374.87
X-RAY.....		2,070.91	.....
			\$69,335.14

Less cash received from nurses for uniforms..... 209.70

Total Professional Care of Patients..... \$70,426.79 \$69,125.44

# DEPARTMENT EXPENSES.

	1910.		1909.	
AMBULANCE:	Labor.....	\$917.37	\$779.30	
	Supplies.....	5,228.22	815.71	\$1,595.01
		\$6,145.59

PATIENTS DISCHARGED DURING THE YEAR:				
Cured.....	2,378		1,445	
Improved.....	2,678		1,226	
Unimproved.....	275		145	
Transferred to other institutions.....	138		110	
Died.....	460		468	
Total.....		5,929		3,394
PATIENTS IN HOSPITAL, END OF YEAR:				
In Medical Wards, Male.....	48		51	
Female.....	20		27	
		68		78
In Surgical Wards, Male.....	53		45	
Female.....	48		48	
		101		93
In Private Rooms, Male.....	12		6	
Female.....	12		11	
		24		17
Total.....		193		188

\*Includes cases treated in Reception Ward.

TOTAL PATIENT DAYS TREATMENT:	1910.	1909.
Free Ward.....	58,281	53,710
Endowed Bed.....	564	240
Pay Ward.....	11,121	12,218
Private Room.....	8,681	8,078
Private Room, Staff and Nurses.....	518	695
Total.....	79,165	74,941

NOTE. The above figures for 1909 differ from the figures for the same year in the previous report, as in above figures the cases treated in the Emergency Ward are not included. This is true also of the above figures for 1910.

PERCENTAGE:

Free Ward Days.....	.74	.69
Endowed Bed Days.....	.01	.01
Pay Ward Days.....	.14	.19
Private Room Days.....	.10	.11
" " " Staff and Nurses.....	.01	
Total.....	.100	.100

AVERAGE NUMBER OF PATIENTS TREATED PER DAY:

Free Ward.....	159	149
Endowed Bed.....	2	1
Pay Ward.....	30	33
Private Room.....	23	20
" " Staff and Nurses.....	2	
Total.....	216	203

Average time per patient in Hospital Wards.....	12	13
Daily average cost per patient.....	\$2.68	\$3.07
Daily average cost per private room patient.....	4.55	5.57+
Daily average cost per ward patient.....	2.44	2.74+

This cost for both ward and private patients was arrived at by a schedule of percentages adopted after conference by the Hospital officials.

Emergency Ward.

Patients under treatment first of year, Male.....	0	1
Female.....	0	0
Patients admitted during year, Male.....	6,423	4,788
Female.....	1,286	1,302
Total patients treated during year, Male.....	6,423	4,789

*THE COST OF MAINTENANCE.*

The total cost of maintenance of the Hospital for the year was \$6,434.41 less than for the preceding year, owing in part to certain salaries, amounting to \$4,838.72, charged to corporation expenses in 1910, being carried in Hospital expenses in 1909. Coming as it did in a year when the cost of commodities ruled high and the work done by the Hospital was the largest in its history, any decrease in expenditures is very gratifying.

Owing to changes in bookkeeping, the expenditures of 1910 are not comparable in all particulars with those of 1909. Certain salaries formerly charged to administration expenses are now carried as corporation charges. All salaries of the apothecary's department are now included under administration expense. The salaries of visiting and convalescent relief nurses appear for the first time as a separate charge. The expenses of the X-ray department were formerly charged to photography—this year the two accounts have been separated.

The average per capita cost for all patients this year was \$2.68, compared with \$3.07 in 1909 and \$3.25 in 1908. The per capita cost for ward patients was \$2.44 and for private patients \$4.55, contrasted with \$2.74 and \$5.57, respectively, in 1909.

*ADDITIONS AND BETTERMENTS.*

The additions and betterments made during the year included among others the following:

The rooms on the Fifteenth Street side of the Hospital formerly occupied as offices were converted into wards for children.

The Hospital offices were removed to the Administration Building on Sixteenth Street.

The Fifteenth Street entrance was closed.

The paint shop was moved to that part of the stable which was formerly occupied by the horses. A large amount of painting was done at the Hospital and House of Relief.

The Reception Ward was converted into a regular hospital ward, and the number of beds increased by three.

Two rooms in the basement were equipped for the isolation of noisy patients.

A considerable amount of plumbing was done, including new utensil sterilizers in the operating room and in the children's wards, typhoid sinks in the medical wards, porcelain bathing slab in the children's ward, and a bathtub in the old reception ward.

A new steel elevator car was installed in the Hospital Building.

The floors, ceilings and walls of the refrigeration rooms in the butcher shop were covered with white tiles.

The ambulance equipment was increased by one electric ambulance, making three in all.

### *CHILDREN'S WARDS.*

The offices on the Fifteenth Street side of the Hospital were converted into wards for children. Six wards, with a total capacity of twenty beds, were thus obtained.

These wards, being small, enable the physicians to better classify their patients, and furthermore, when a case of contagious disease occurs only a few children are exposed to the contagion.

The lack of isolating facilities was formerly a great handicap to this service, as it was necessary to close our only ward for children every time a case of contagious disease occurred.

We now have a thoroughly up-to-date department for children, with a total capacity of about 45 beds.

### *HYDRIATIC DEPARTMENT.*

In this department treatment is furnished free of charge to ward, private room, and out-patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number treated in 1910 was 9+, being the same as in the year 1909.

The number treated during the year is as follows:

	Male.	Female.	Total.	From Wards.	From O. P. Dept.	Total Treat- ments.	Average Treat- ments Day.
January .....	24	22	46	1	47	215	8+
February .....	32	26	58	..	58	249	11+
March .....	31	29	60	4	56	333	12+
April .....	29	..	29	2	52	302	11+
May .....	24	22	46	1	45	297	11+
June .....	25	31	56	3	54	353	13+
July .....	22	28	50	5	45	213	8+
August .....	20	18	38	2	36	190	7+
September .....	25	20	45	3	42	215	8+
October .....	23	20	43	2	41	228	8+
November .....	24	21	45	3	42	174	7+
December .....	22	18	40	..	40	229	8+
Totals .....	301	255	556	26	558	2,998	9+

### X-RAY DEPARTMENT.

The work of this department is steadily increasing.

The following table shows the separate radiographs taken. As a large proportion, however, demanded more than one view, it is estimated that the total number was about 2,800:

Head .....	28
Neck .....	15
Thorax .....	113
Shoulder .....	76
Upper arm .....	43
Elbow .....	102
Forearm .....	45
Wrist and hands .....	279
Abdomen .....	243
Pelvis and hips .....	140
Thigh .....	37
Knee .....	79
Leg .....	59
Ankle .....	81
Foot .....	61
Total .....	1,401

## OUT-PATIENT DEPARTMENT.

The work in this Department was larger than in 1909. The number of new patients, the number of visits, and the number of prescriptions all showed substantial increases. The average cost per Dispensary patient was 23 cents, as against 31 cents in 1909.

The work of the year was as follows:

	1910.	1909.	Increase.
New patients.....	17,690	16,720	970
Total visits.....	65,698	63,184	2,414
Total prescriptions issued.....	45,475	43,117	2,358
Total receipts.....	\$7,775.00	\$7,119.65	\$655.35

The distribution of milk and eggs to needy tubercular patients has been as follows:

	1910.	1909.
Eggs, dozen.....	1,746½	1,966¼
Milk, quarts.....	7,285	7,932
Cost.....	\$1,005.74	\$1,219.88

## CONVALESCENT RELIEF DEPARTMENT.

This department, under Miss Sutcliffe's supervision, has increased its activities during the year. It is accomplishing much good. Not only does it render assistance to convalescent patients and their needy families, but it enables the Hospital to increase its service to the community by the prompt removal of convalescent patients from the Wards.

Formerly these patients might remain several days in the Hospital after they were ready for discharge, for the reason that they had no suitable place to go. The beds they were occupying without benefit to themselves were needed by sick people.

The total number cared for by this department since April was 658. Of these 98 were from the Out-Patient Department, while the others were from the wards, or connected with ward patients.

The wards are visited frequently. The homes of those who seem to need help are also promptly visited. Most cases are referred to other institutions or organizations, immediate relief being given only when absolutely necessary.

The following statement of the disposition made of cases shows the scope and character of the service rendered.

Referred to Convalescent Hospital.....	195
Referred to country.....	255
Referred to Asylum.....	9
Referred to Day Nurseries.....	10
Referred to Temporary Homes.....	12
Referred to Charity Organizations.....	68
Referred to Tuberculosis Hospitals.....	12
Referred to other hospitals.....	17
Dressings and Treatments.....	252
Car Fares.....	68
Surgical Belts and Shoes.....	12
Clothing.....	70
Emergency relief.....	20
Miscellaneous.....	17
Refused help after arrangements were made.....	24

On both Thanksgiving and Christmas, dinners were distributed to the families of patients. A Christmas Tree and an entertainment were also provided for them, about 250 attending.

### *PRIVATE SERVICE.*

The capacity of this department was decreased by ten rooms by the closing of the fifth floor of the Private Patient Building to patients. This was necessary in order to provide additional accommodations for nurses, the Nurses' Home being inadequate.

We now have only 25 rooms for private patients, which number does not meet the demand.

During the first five months of the year the daily average of private patients was 32.

### *HOSPITAL RECEIPTS.*

The receipts from private patients were \$1,599.50 greater than in 1909. Owing to a reduction in the number of rooms allotted to this department it is expected that the year 1911 will show a marked decrease in income.

The receipts from ward patients showed a decrease of \$1,646.76. The gradual decrease in receipts from ward patients can be accounted for by the increase of our ambulance service. About 40 per cent. of the patients are brought to the Hospital in our ambulances, practically all of whom are treated gratuitously.

## HOUSE OF RELIEF.

### COMPARATIVE STATEMENT OF OPERATING EXPENSES FOR THE YEARS 1909 AND 1910.

#### ADMINISTRATION EXPENSES.

	1910.	1909.
Salaries officers and clerks.....	\$2,547.62	\$4,576.50
Office expenses.....	154.84	529.43
Stationery, printing and postage.....	183.12	445.28

Miscellaneous.....	.....	527.50
Total General House and Property Expenses.....	\$9,774.73	\$12,770.51
Total Operating Expenses.....	\$43,349.38	\$48,984.45

*THE YEAR'S WORK.*

This institution continues to do most excellent work. Great numbers of patients are cared for in limited quarters, and at comparatively small expenditure. The doors are never closed to the sick and injured, regardless of whether or not they belong to the so-called emergency class. As a result the service is an intensely active one.

The number of ambulance calls was 440 greater than in 1909.

The number of ward patients admitted was 257 less than last year. This was due largely, if not entirely, to the transferring of more patients to Bellevue Hospital direct from the scene of call, instead of bringing them first to the House of Relief, entering them as patients, and making the transfer later.

There was a decrease in the number of patients treated in the dispensary. This is thought to be due largely to increased and improved dispensary facilities elsewhere in this section of the city.

The maintenance expenses were \$5,635.07 less than in 1909, and \$6,217.98 less than in 1908. On the other hand, the income was \$2,593.96 greater than in 1909.

Complete details of the medical and surgical work done will be found in the report of the Medical Board.

Subjoined is a brief résumé of the year's work.

## STATISTICS.

PATIENTS IN HOUSE OF RELIEF THE FIRST OF THE YEAR:		1910.	
Medical, Male		18	
Female		3	
		<hr/>	21
Surgical, Male		8	
Female		5	
		<hr/>	13
Total			34
PATIENTS ADMITTED DURING THE YEAR:			
Medical, Male		1,297	
Female		256	
		<hr/>	1553
Surgical, Male		1,042	
Female		163	
		<hr/>	1,205
TOTAL PATIENTS TREATED DURING THE YEAR:			
Male		2,365	
Female		427	
		<hr/>	
Total			2,792
PATIENTS DISCHARGED DURING THE YEAR:			
Cured		209	
Improved		2,172	
Unimproved		148	
Died		230	
		<hr/>	
Total			2,759
PATIENTS IN HOSPITAL END OF YEAR:			
In Medical Wards, Male		17	
Female		3	
		<hr/>	20
In Surgical Wards, Male		8	
Female		5	
		<hr/>	13
Total			33

	1910.	1909.
New patients treated in the Out-Patient Department	26,557	28,191
Total patients' visits made to Out-Patient Department	56,802	64,526
Total days of hospital care	13,883	13,748
Total days of pay patients	856	727
Total days of non-paying patients	13,027	13,021
Percentage of free patients	94.7	94.7
Average daily census	38	37+
Average days per patient	5	4+
Number of major operations	246	182
Number of deaths	230	277
Total prescriptions	26,332	40,441
Receipts from ward patients	\$2,322.33	\$1,798.29
Receipts from out-patients	5,571.28	3,715.79
Miscellaneous receipts	537.45	323.02
Total receipts	8,431.06	5,837.10
Approximate daily average cost per patient	1.87	2.16

### AGGREGATE SERVICE.

The total number of individuals receiving relief at the hands of the Hospital (including the House of Relief) was 65,717. They were distributed as follows:

	1910.	1909.
At the Hospital.....	34,416	30,001
At the House of Relief.....	31,301	32,668
Total.....	65,717	62,669

Seventy-five per cent. of those who were admitted to the Hospital wards received gratuitous treatment (not including 7,709 treated in the Accident Room, all of whom were treated without charge).

At the House of Relief 94.7 per cent. were treated free.

### AMBULANCE SERVICE.

A third electric ambulance was added to the Hospital equipment. The horse-drawn ambulances were done away with at the Hospital, but are still in use at the House of Relief.

The number of calls at the Hospital were greater than those of last year by 951, and at the House of Relief by 440.

The average daily number of calls at the Hospital was approximately 14, compared with 11 in 1909, and 8 in 1908.

The average daily number of calls at the House of Relief was 13, compared with 12 last year.

The details of the service are as follows:

	Hospital.		House of Relief.	
	1910.	1909.	1910.	1909.
Total calls.....	5,237	4,286	4,993	4,553
Brought to Hospital.....	1,986	2,301	2,146	2,456
Treated and left at place of call.....	1,447	729	1,952	1,462
Taken from scene of call to other hospitals, precincts or home.....	1,448	1,080	569	358
Dead on arrival.....	146	142	132	126
Nothing found at place of call.....	210	94	194	151
Transferred to other hospitals.....	139	118	1,528	1,480

## *PURCHASING BUREAU.*

A new departure this year was the organization of the Hospital Bureau of Standards and Supplies, on lines laid down by Mr. W. V. S. Thorne, Treasurer of the Presbyterian Hospital, in a pamphlet entitled "A Central Purchasing Agency for the Hospitals of New York."

At the close of its fiscal year the bureau had a membership comprising 12 hospitals and Columbia University.

The New York Hospital is a member of the Bureau.

For several months most of our supplies, both for the New York Hospital and the House of Relief, have been obtained on contracts made by Mr. W. J. Forbes, purchasing agent of the Bureau.

The organization has not existed long enough to permit of definite predictions as to the part it is likely to play in the field of hospital economics, but the indications are that it will become a useful agent.

Increased membership will enhance the usefulness of the Bureau by reducing the proportionate expense to each member, and by increasing its purchasing capacity.

## *NEED OF INCREASED FACILITIES.*

The year of 1910 was the most active in the history of the Institution. More patients were treated in the wards, in the dispensary, and in the emergency department than ever before. The number of ambulance calls and the number of operations showed marked increase.

The demands on the Hospital have been gradually increasing year by year. It has been necessary to resort to numerous make-shifts in order to meet these demands.

## *CHANGES IN ACCOUNTING DEPARTMENT.*

A simple and more direct system of accounting was installed during the past year. In most ways it is more effective than was the old one, which was rather cumbersome, and it is more economical to maintain.

In a general way it conforms with the Uniform System of Accounting which has been adopted by a considerable number of hospitals in New York and other cities.

## CONVALESCENT COTTAGES.

The facilities offered by the Campbell Cottages at White Plains have been very much in demand.

Patients are sent there from the Hospital, the Dispensary, and the Convalescent Relief Department.

The new isolation ward has done away with the tedious periods of quarantine which formerly limited the usefulness of this department.

The cottages, except that for men, are now kept open throughout the year.

During the year 423 children and 227 women received the benefits of the institution. Of the children discharged, 105 were cured, 250 improved, 28 unimproved, and 3 died.

Details of the work done appear elsewhere in this report under the heading "Campbell Convalescent Cottages, Bloomingdale Hospital Report."

## GIFTS.

The Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts while ordinarily inexpensive have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under renewed obligations to the Employment Society of St. Thomas' Church for a large amount of sewing done without expense to the Hospital.

Respectfully submitted,

THOMAS HOWELL,  
*Superintendent.*

# REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1910.

*To the Board of Governors:*

GENTLEMEN:—The number of individuals who received care and treatment in the wards and private rooms of the New York Hospital during the past year was 34,416, as compared with 30,001 treated for the year 1909.

These are divided as follows:

	1910.	1909.
In the wards. . . . .	13,321	11,032
In the private rooms. . . . .	510	440
In the Out-Patient Department. . . . .	17,690	16,720
Treated by the Ambulance Surgeons but not brought to the Hospital. . . . .	2,895	1,809
	<u>34,416</u>	<u>30,001</u>

Of the 13,831 patients, 7,709 were treated in the Accident Room during the hours when the Out-Patient Department was closed. 6,122 patients including the patients remaining in the Hospital at the beginning of the year were treated in the wards and private rooms. Of the number, 1,976 were treated in the Medical wards. The principal diseases and their number is as follows:

Alcoholism. . . . .	34
Arteriosclerosis. . . . .	33
Bronchitis. . . . .	33
Cerebral hemorrhage. . . . .	24
Cirrhosis of the liver. . . . .	16
Endocarditis. . . . .	117
Epilepsy. . . . .	34
Exophthalmic goitre. . . . .	5
Malarial fever. . . . .	34
Typhoid fever. . . . .	101
Gastritis. . . . .	53
Gastroenteritis. . . . .	98
Meningitis. . . . .	26
Myocarditis. . . . .	26

Nephritis.....	57
Neurasthenia.....	17
Pleurisy.....	40
Lobar pneumonia.....	162
Gas poisoning.....	9
Pulmonary tuberculosis.....	44
Articular rheumatism.....	105
Tonsilitis.....	19

---

In the Surgical Wards 3,465 were treated for the following diseases or injuries:

Fractures of the skull.....	45
Gunshot wounds.....	14
Dislocations.....	19
Fractures of long bones.....	227
Appendicitis.....	295
Hernia.....	262
Cancer.....	70
Other malignant tumors.....	13
Non-malignant tumors.....	107
Concussion of the brain.....	32
Disease of liver and gall bladder.....	27
Disease of kidney.....	25
Salpingitis.....	62
Ectopic gestation.....	15
Disease of prostate and bladder.....	32
Disease of the uterus.....	151
Empyema of pleural cavity.....	26
Hæmorrhoids.....	76
Disease of the rectum and anus.....	104
Stricture of the urethra.....	14

---

In the private patient pavilion 510 patients were treated. In 1909, 440 patients were treated in the same pavilion. The number of operations performed was 271 as compared with 288 during the preceding year. The number of medical and operative surgical cases treated was 239.

The operative work in the main hospital has increased some 301 cases—1810 operations were performed as compared with 1509 during the year 1909. Our ambulance service has also increased to the extent that 5,237 calls were made with 139 ambulance transfers. This is an increase of 951 calls and 21 transfers over last year's work.

Our daily calls and transfers now average 14 or 15, and this has

necessitated the assignment of the Medical Staff to a part of the ambulance service.

This arrangement is now in full force and all calls and transfers are answered without delay. Of the patients discharged during the year 2,378 were cured, 2,678 were improved, 275 were unimproved, 138 were transferred to other institutions, and 460 died. The work done in the Out-Patient Department may be seen in the following table:

	1910.	1909.
New patients.....	17,690	16,720
Total number of visits.....	65,698	63,184
Total number of prescriptions.....	45,475	43,117

This work is distributed between the Medical and the Surgical Departments of the Dispensary as follows:

SURGICAL DEPARTMENT, daily 10 A.M. to 12 M.  
except Sunday:

	1910.	1909.
New patients.....	11,238	10,625
Total number of visits.....	44,617	43,400

MEDICAL DEPARTMENT, daily, 2 P.M. to 4 P.M.,  
except Sundays.

	1910.	1909.
New patients.....	6,452	6,095
Total number of visits.....	21,633	19,784

The work of the Tuberculosis Department of the Dispensary has progressed most favorably. It has been greatly helped by the two extra nurses assigned to one part of the work by the Department of Health.

The total number of tuberculous patients seen in the Out-Patient Department was 622, of which 498 were regularly treated and 124 were referred to other Hospitals, sanatoria or clinics. Of the number regularly treated 14 died. The total number of visits made by these patients to the Dispensary was 2,214 and the daily average of visits was 7.

The Orthopædic Department of the Dispensary under Drs. Fiske and Steinhardt has greatly improved during the last year and the services of the masseur with his assistants assigned for the first time in 1909 have proved of the greatest value in the disability following dislocations and fractures and in the contractures following cellulitis of the forearm and hand.

The Department of Thermo-therapy and Hydro-therapy have been more consistently used by the patients of the Out-Patient Department than by the patients in the wards.

The work of the Pathological Department of the Hospital during the last year has increased somewhat over that of the preceding year. The number of autopsies performed at the New York Hospital during 1910 was 122 as against 90 in 1909. At the House of Relief there were 39 autopsies in 1910 as against 59 in 1909. The bacteriological examinations were 1150 in 1910 and 947 in 1909. The histological examinations were 806 in 1910 and 705 in 1909. At the New York Hospital during the last year there were 459 deaths with 122 autopsies, i.e., 26.4% of the total deaths. This is 7.2% better than the preceding year. It exceeds all other Hospitals except Roosevelt Hospital, which it practically equals.

In the House of Relief on the contrary the total deaths were 229 with 36 autopsies, i.e., 15% as compared with 27% during the last year. This loss is due to the smaller number of Coroner's cases and to the fact that many of our patients are Italian, Greeks and Hungarians, with whose relatives no one is able to converse fluently enough to obtain the necessary permission. It is urgently requested that some one be employed in the administrative department who can talk intelligently to these people, as autopsies are most essential to the proper advance of the medical and surgical work of the Hospital. It is greatly regretted that both time and expense have prevented our keeping animals in the laboratory. For this reason but few Wassermann reactions have been made during the year. This is a matter of extreme importance and it is hoped that it will receive attention at once.

The new laboratory for the investigation of the problems of metabolism in malignant growths has been adequately equipped, and special chemical research work dealing with the metabolism of cancer patients, the properties of cancer toxins or ferments, and the nature of the cancer-cachexia, has been instituted since last November.

The poor ventilation and the frequent outbreaks of disease in the old Children's Ward necessitated an increase in the space allotted to each bed and a more rigid supervision of the occupants of the wards.

These two conditions have been met by the addition of six separate small wards containing from 2 to 4 beds each, and by the adoption of the most approved individual precautions in the care and the treatment of each patient. The Children's Department is now divided into three sets of wards—Observation Wards, Intermediate Wards, and a Permanent Ward. Each patient upon admission remains eight days in the Observation and Intermediate Wards before transfer to the Permanent Wards.

Special precautions are used in the sterilization of the milk. All nurses now wear gloves in taking rectal temperatures and bathing the patients. We have adopted with some modifications the system of bathing children in use at the Presbyterian Hospital and are pleased with it.

It is efficient, cleanly, and rapid in action. Strict precautions are still maintained in the sterilization of the bed and bed-clothing used in the infectious and contagious cases. Special screens are also to be used for isolating typhoid patients.

The enforcement of these individual precautions is under the direct supervision of the Attending Physician and the Pathologist from whom the Medical and Surgical Internes receive their instructions. The proper enforcement of these rules promises to eradicate the evils for which they were instituted.

The Reception Ward, which was built one year ago, has been fully equipped and thoroughly reorganized. It is now subject to all rules governing other wards with the single exception that a patient at the expiration of 48 hours must be sent home, transferred to another hospital, or sent to a permanent ward in the Hospital.

A full set of nurses has been assigned to this ward by the Superintendent of Nurses and daily rounds are made as in all wards.

This has brought these patients more directly under the Attending Staff and has ensured better care and more careful records.

During the year, an order abolishing the use of cots in the wards was passed by the Executive Committee at the earnest solicitation of the Medical Board. This request was felt necessary since cots are difficult to keep clean, are uncomfortable for patients and require at least two hours per day for transportation to and from the wards by the orderlies. This substitution of beds for cots will secure greater comfort for the sick and will give the nursing staff better control of the ward sanitation. During the latter part of the year two quiet rooms have been fittingly furnished and heated. These much needed rooms are situated near the Reception Ward and are under the constant supervision of the nurse in charge of this ward. Noisy and dangerous patients in the wards are now placed in these rooms, where they receive the best attention given in the Hospital.

The Medical Board is pleased to report that during this year a room devoted entirely to the reception and retention of contagious cases occurring in the wards has been installed with the necessary sterilizing plant. This room undoubtedly ensures a more perfect protection to the other patients than we have heretofore had at our command. During the summer of 1910 arrangements were made by which a number of beds were devoted to patients suffering from advanced cancer. The object was to furnish an opportunity for the systematic study of this disease in the human subject.

The Staff of the Huntington Fund for Cancer Research coöperates with the Medical Board in this work and are at present investigating various problems, such as Metabolism in Cancer, Biochemical Diagnosis, Immunity, Bacterial Infections, and the various methods of treatment which recent experience has suggested.

The Cancer Commission of the New York Hospital was therefore established, and from the funds specially donated for the purpose a salaried physician, Dr. Michaelofsky, has been placed in charge of the patients with a special nurse, and an experienced physiological chemist with one assistant has been assigned to the new chemical laboratory.

The Committee of the Medical Board appointed in 1908 to consider the question of the increased consumption of absorbent gauze and rubber gloves, reports a continued saving in the amounts used.

	1910.	1909.
The number of yards of gauze used in the operating rooms . . . . .	32,885	29,962
The number of yards of gauze used in the wards . . . . .	44,638	71,496
Total yards used in the Hospital . . . . .	77,523	101,458

This table shows a saving of 26,858 yards of gauze in the wards and 2,923 yards increase in the Operating Rooms. This increase is well accounted for by the extra 301 operations performed during 1910. The amount of washed gauze used in 1909 was 35,983 yards. In 1910 this was 23,927 yards. The difference (12,056 yards) is easily accounted for by the fact that 23,935 yards less of fresh gauze were used during 1910 than during 1909. The Accident Room and the Out-Patient Department, which are the principal departments using this washed gauze, have not been obliged to use new gauze up to the present time.

A great saving in rubber gloves has been made during the year. In 1909 1,251 pairs of gloves were used in the Hospital. During 1910 747 pairs were used. The difference, 504 pairs (about \$250) is a very creditable saving.

This economy is undoubtedly due in part to the better quality of gloves purchased and in part to more careful sterilization of the gloves. It is to be noted that this saving has occurred in spite of the fact that 301 more operations were performed in the Operating Rooms.

The work in the Operating Rooms of the Main Hospital requires the services of an additional pupil nurse.

Three hundred more operations were performed this year (1910) than last year. One hundred more operations were performed last

year (1909) than the preceding year (1908). Yet the number of pupil nurses has remained the same since 1907. The detail of nurses is no longer able to effectually carry on the work without unnecessary hardship to the nurse and a consequent poor result in the Operating-Room technique.

The appointment of an additional pupil nurse to this department is thought necessary by the Committee in charge.

The Department of Thermotherapy and Hydrotherapy in which are treated both medical and surgical cases from the wards and from the Dispensary has been most useful in many of the chronic diseases. Its limited quarters, more than anything else, have hampered its full efficiency. Two expert operators are in daily attendance. The total number of patients treated in 1910 was 2,998 in contrast to 3,071 in 1909. A greater use of this Department should be made by both the Medical and the Surgical Divisions. At present the greater number of patients belong to the Out-Patient Department. As soon as possible a Mechano-Therapeutic Department should be added to our institutional methods of treatment. The Roentgen Ray Department under Dr. Busby has done more work this year than ever before.

The Roentgen Ray apparatus installed last year has been most useful in skiagraphing the denser parts of the body. This was impossible with the old apparatus. The total number of skiagraphs taken this year is 2,800 as against 2,300 last year. Detail of this work is as follows:

Head.....	28
Neck.....	15
Thorax.....	113
Shoulder.....	76
Upper arm.....	43
Elbow.....	102
Forearm.....	45
Wrist and hands.....	279
Abdomen.....	243
Pelvis and hips.....	140
Thigh.....	37
Knee.....	79
Leg.....	59
Ankle.....	81
Foot.....	61

The total number is 1,401, but as most of the cases had two views taken and many, several plates, there were approximately 2,800 exposures made.

During the last month a special orderly has been assigned to this

Department during certain hours of the day. This was much needed and it has greatly expedited the work.

For some time it has been the desire of the Medical Board that teaching of students in the wards and at the clinics be allowed by the Board of Governors. This year an arrangement has been made with the College of Physicians and Surgeons by which its students will be admitted to the wards and will be instructed by the Associate Physicians and Surgeons in the diagnosis, treatment and care of the cases assigned to them individually. Clinics will be given by the Attending Surgeon or Associates at which these students will be shown the mechanical and operative treatment of the cases assigned to them in the wards. It is the intention of the Medical Board in giving these clinics to invite practitioners to view the operations at which the student-externe will assist in unimportant details.

Both Cornell and Columbia Medical Schools will send a certain number of students for this form of instruction. At present Columbia Medical School has sent three men who will serve two months in the wards and will be on duty from 9 to 11 A. M. and from 2 to 5 P. M. When these men have finished their term of service they will be succeeded by others. Next year Cornell Medical School will commence with this form of instruction. We can accommodate 12 to 16 men at a time and we hope that the medical schools will assign that number to us. The work at the House of Relief may be seen in the following table:

	1910.	1909.
Patients treated in the wards.....	2,792	3,015
Out-Patients.....	26,557	28,191
Out-Patient visits.....	56,802	64,526
Ambulance calls.....	4,993	4,553
Ambulance transfers.....	1,528	1,480

The total number of surgical cases treated in the wards was 1,205, of which 396 were surgical diseases and 809 injuries. There were 246 major operations performed. The number of deaths from all causes, including disease or injury, with or without operative interference, was 80, as compared with 100 in 1909. The detailed list is as follows:

Fracture of the skull.....	28
Fracture of the pelvis.....	1
Fracture of the vertebræ.....	4
Rupture of the kidney.....	1
Rupture of the œsophagus.....	1
Cerebral hemorrhage.....	1
Stab wound of the heart.....	1
Burns.....	4

Stab wound of the lung . . . . .	1
Gunshot wound of the chest . . . . .	4
Gunshot wound of the abdomen . . . . .	3
Gunshot wound of the head . . . . .	3
Gunshot wound of the pharynx . . . . .	1
Internal injuries (undiagnosed) . . . . .	9
Pyæmia . . . . .	1
Septicæmia . . . . .	1
Sarcoma . . . . .	2
Carcinoma . . . . .	3
Peritonitis (non-traumatic) . . . . .	11

The total number of Medical cases treated in the wards was 1,553.  
The total number of deaths upon the Medical service was 129.

The Medical diseases treated, together with the number of deaths, may be seen in the following table:

Alcoholism . . . . .	147	Deaths,	2
Delirium tremens . . . . .	65		
Poisoning from illuminating gas . . . . .	16	"	1
Poisoning from cocaine . . . . .	5		
Poisoning from mercuric bichloride . . . . .	2		
Poisoning from morphine . . . . .	2		
Poisoning from ether . . . . .	1		
Poisoning from chloroform . . . . .	1		
Poisoning from phenol . . . . .	1	"	1
Poisoning from ammonia . . . . .	1		
Poisoning from lead . . . . .	1		
Poisoning from nitrobenzol . . . . .	1		
Diphtheria . . . . .	2		
Syphilis . . . . .	6		
Meningitis . . . . .	11	"	4
Amœbic dysentery . . . . .	1		
Rheumatic fever . . . . .	58		
Typhoid fever . . . . .	31	"	8
Pulmonary tuberculosis . . . . .	63	"	9
Tonsilitis . . . . .	9		
Bronchitis, acute and chronic . . . . .	62		
Lobar pneumonia . . . . .	76	"	29
Pleurisy . . . . .	16		
Bronchial asthma . . . . .	12		
Gangrene of the lung . . . . .	1	"	1
Endocarditis, chronic . . . . .	38	"	6
Other diseases of the heart . . . . .	54	"	8
Angina pectoris . . . . .	2	"	1
Aortic aneurism . . . . .	2		

Acute gastritis . . . . .	86	Deaths,	1
Enteritis . . . . .	43	“	1
Gastric carcinoma . . . . .	8	“	1
Intestinal parasite . . . . .	1		
Cirrhosis of the liver . . . . .	12	“	4
Uræmia . . . . .	26	“	16
Nephritis, acute and chronic . . . . .	97	“	13
Diabetes . . . . .	4		
Pernicious anæmia . . . . .	1		
Hemophilia . . . . .	3		
Scurvy . . . . .	1		
Cerebral hemorrhage . . . . .	40	“	23
Epilepsy . . . . .	117		
Syncope . . . . .	20		
Hysteria . . . . .	51		
Nervous diseases . . . . .	13		
Submersion . . . . .	29		
Heat exhaustion . . . . .	28		
Thermic fever . . . . .	3	“	1
Sunstroke . . . . .	7		
Skin diseases . . . . .	5		
Malaria . . . . .	37		
Unclassified . . . . .	58		

The erection of an open air ward upon the roof of the House of Relief which is now under consideration by the Executive Committee of the Board of Governors will be a most desirable addition to this institution. If we are to remain in this institution we should have such a ward where pneumonia, gas poisoning and other acute diseases, medical and surgical, can be treated under the most appropriate surroundings.

LEWIS A. CONNOR,  
*Secretary.*

FRANK HARTLEY,  
*President.*

## REPORT OF THE SUPERINTENDENT OF THE TRAINING SCHOOL.

---

*To the Board of Governors of the New York Hospital:*

GENTLEMEN:—I herewith submit the report of the thirty-fourth year of the Training School.

The Staff of the Training School on duty at the close of the year is as follows:

*Officers of Instruction:*

Superintendent . . . . .	1
Assistant Superintendent . . . . .	1
Clerical Assistant . . . . .	1
Night Supervisor . . . . .	1
In charge of Private Patients' Building . . . . .	1
In charge of Out-Patient Department . . . . .	1
Visiting Nurses (Out-Patient Department) . . . . .	2
Operating Room Nurses . . . . .	3
Head Ward Nurses . . . . .	9

*Pupils:*

Seniors . . . . .	36
Intermediates . . . . .	13
Juniors . . . . .	41

The Training School consists of ninety pupils distributed as follows:

Hospital Wards, public and private . . . . .	70
House of Relief . . . . .	10
Lying-In-Hospital . . . . .	6
Sloane Maternity Hospital . . . . .	4

During the year 1,260 applications were received and considered, with the following result:

Accepted and entered on probationary duty . . . . .	58
Accepted as pupils in the School . . . . .	43
Resigned . . . . .	3

The general health of the pupils has been excellent. The total days of illness was 505, a decrease of 104 from last year. The pupils

are encouraged to use the roof garden of the Nurses' Home at all seasons of the year. This place, always comfortable with easy chairs and hammocks, has been made especially attractive by the addition of a hedge of evergreen, which is not only pleasing to the eye, but serves a useful purpose in screening from observation from the high buildings which have been erected in our neighborhood. This feature was added through a special donation by your Board and we hereby express our appreciation. The room in the Private Patients' Building, assigned to the use of nurses during illness, was occupied 604 days, of which 419 were by graduate nurses and 185 by pupils.

Forty-one pupils finished the course, passed the final examinations and were awarded diplomas in 1910. The graduation exercises were held March 3d, in the Governors' Room in the Administration Building.

Mr. William W. Hoppin, Chairman of the Training School Committee, presided in the absence of Mr. George L. Rives, President of the Hospital. Reverend William T. Manning, D.D., Rector of Trinity Church, delivered a most interesting address to the Graduating Class. The exercises were followed by a reception in the Nurses' Home which was largely attended by the graduates and their friends.

Owing to the increased importance given to diet as a factor in the treatment of disease, it was deemed necessary to add a resident Dietitian to the teaching force. Miss Stone, a graduate of Pratt Institute, Brooklyn, was appointed to the position and our pupils are receiving excellent training in this branch of practical work.

The alterations in the interior of the main hospital building, leading to the enlargement of the service in some of the wards and elsewhere, have made demands upon the School which could be met only by an increase of the number of pupils. This measure has been authorized and accommodations for the additional pupils provided by assigning for their use the fifth floor of the Private Patients' Building.

It is gratifying to note that the Hospital has undertaken to do its share of the great work in Cancer Research. Special beds have been assigned to cancer patients in the wards; special physicians are in attendance on them, and two graduate nurses have been engaged whose services are confined to this new department of work. We are watching its development with great interest.

The work of the Visiting Nurses in the Out-Patient Department increases year by year both in volume and interest. Its value cannot be estimated. Mrs. Jameson, assisted by a Nurse from the

City Department of Health, has continued her invaluable work with tuberculosis patients.

Miss E. Price has been constant and faithful in her attendance upon the Children's Clinic and in following up the patients to their homes, where careful instruction is given to the parents in the care of children in the direction of cleanliness, feeding and general treatment.

Many children were sent to the Campbell Cottage at White Plains and many with their mothers were given outings to the country during the summer. The following table shows some of the details of the work:

Visits to homes of tubercular patients . . . . .	994
Quarts of milk dispensed . . . . .	6,885
Dozens of eggs dispensed . . . . .	1,776
Visits to homes of children . . . . .	1,098
Children sent to Campbell Cottage . . . . .	255
Children of tubercular parents sent to mountains . . . . .	35
Summer outings to mothers (with children) . . . . .	252

It gives me great pleasure to place on record my appreciation of the assistance and co-operation of the graduate nurses engaged in the service of the Hospital in the different departments and also the cordial response which has been made by the pupils to our efforts to increase the general efficiency of the School.

Respectfully submitted,

ADELINE HENDERSON,  
*Superintendent Training School.*

# REPORT OF THE MEDICAL SUPERINTENDENT OF THE SOCIETY OF THE NEW YORK HOSPI- TAL, BLOOMINGDALE, WHITE PLAINS, NEW YORK.

*To the Board of Governors:*

GENTLEMEN:—In compliance with a By-law of your Honorable Board, the following report of the operation of the Psychopathic Department of the Hospital for the year 1910 is respectfully submitted:

## STATISTICS FOR THE YEAR 1910.

	Men.	Women.	Total.
There were under treatment January 1, 1910 . . . . .	161	186	347
There were admitted during the year . . . . .	65	66	131
There were treated during the year . . . . .	226	252	478
The discharges were: Recovered . . . . .	12	19	31
Improved . . . . .	19	20	39
Unimproved . . . . .	9	15	24
By death . . . . .	17	9	26
Total . . . . .	57	63	120
There were under treatment December 31, 1910 . . . . .	169	189	358
The average number under treatment was . . . . .	168	184	352
The lowest number was: Men, in January . . . . .	157	....	....
The lowest number was: Women, in December . . . . .	....	174	....
The lowest total number was, in January . . . . .	....	....	334
The highest number was: Men, in October . . . . .	174	....	....
The highest number was: Women, in March . . . . .	....	193	....
The highest total number was, in March . . . . .	....	....	361

There were 131 cases, 65 men and 66 women, admitted during the year. There were 4 fewer patients than cases, 3 men and 1 woman having been discharged and readmitted during the year. Twenty-four patients, 12 men and 12 women, had been discharged from the institution prior to January 1, 1910. One man had been discharged four times, 2 men twice, and 9 men had been discharged once. One woman had been discharged seven times, 2 women three times, 2 women twice, and 7 women had each been discharged once.

Of those readmitted for the first time, 3 men and 2 women had been discharged as recovered, 6 men and 4 women as improved, and 1 woman as unimproved.

One man had been discharged twice as recovered, and 1 man once as recovered and once as improved; 1 man three times as recovered 1 man twice as improved, and 1 man four times as improved. One woman had been discharged six times as recovered and once as improved, 2 women twice, and 2 women three times as recovered.

One hundred and two of the admissions, 51 men and 51 women, were first attacks, of which 71, 33 men and 38 women, were admitted first to Bloomingtondale Hospital. Deducting from the whole number of admissions 29 cases that had been admitted in previous years, and 71 admissions in first attack, leaves 31 cases that have either been treated at home or at some other institution previous to admission here.

Forty-one patients were admitted three months or less after the first symptoms of mental disease were noticed by their friends; 16 between 3 and 6 months, 6 between 6 and 12 months, and 68 more than a year.

### *DISCHARGES.*

The total number of discharges during the year 1910 was 120; 57 men and 63 women. The number of recoveries was 31; 12 men and 19 women. They were 26 per cent. of all discharges, including deaths,—21 per cent. of the men who were discharged or died, and 38 per cent. of the women who were discharged or died.

Fourteen patients, 6 men and 8 women, recovered from the first attack, 5 men and 2 women from the second, 5 women from the third, 1 man and 1 woman from the fourth, 1 woman from the eighth, and 1 woman from the ninth attack.

In the 31 cases that recovered, the average duration of the disease from invasion to recovery was 11 months and 6 days; of the men 8 months and 29 days, and of the women 12 months and 1 day. The average duration of treatment was 5 months and 15 days; of the men 3 months and 10 days, and of the women 6 months and 26 days. The disease was reported to have existed before admission an average of 5 months and 11 days; in the men 5 months and 19 days, and in the women 5 months and 5 days. The longest period of treatment in those recovered was 9 months and 12 days in the case of 1 man, and 2 years and 11 months in the case of 1 woman; the shortest was 3 months and 3 days in 1 man, and 14 days in 1 woman.

Two alcohol habitues, both men, were discharged as recovered.

Two cases of morphine habit, 1 man and 1 woman, were discharged as recovered.

Thirty-nine cases, 19 men and 20 women, were discharged as improved. In the cases of 4 men, it seemed probable, at the time of their discharge as improved, that they would have recovered if continued under treatment.

Of the 24 patients, 9 men and 15 women, who were discharged unimproved, it seemed improbable that any of them would have recovered if they had continued under treatment.

#### *PERCENTAGE OF RECOVERIES.*

The question often arises as to what percentage of the insane recover, and whether the percentage has increased with modern knowledge and methods.

A glance at the patients admitted in 1910 shows that 88, 48 men and 40 women, were incurable from the fact of their having organic brain diseases, or defects, as paresis, senility and undevelopment. The remainder of those admitted were 43 patients, 17 men and 26 women, who might recover. Comparing these with the actual recoveries of the year, we find a percentage of 72, 73 per cent. in the women and 71 per cent. in the men who recovered, as compared with patients admitted who might be regarded as recoverable.

#### *GENERAL REMARKS.*

There were 9 more admissions this year than last.

The average number of patients in the institution was 352, 9 more than the average of the preceding year.

The number of weeks board and treatment furnished for patients was 18,386. The average expenditure per patient was \$12.66 per week, which includes the total cost of maintaining the property at White Plains, and the patients upon it, and is for all salaries and wages, repairs, supplies, and maintenance of every kind, except that our high-paying patients repay us for the exclusive services of their attendants, and we deduct this sum from the total expense.

Forty-five women were beneficiaries of the John C. Green Memorial Fund during the year 1910. The amount of income received from that Fund and expended for these women in 1910 was \$7,661.18. The total charitable expenditures during the year 1910 in caring for and treating patients (preferably acute and presumably hopeful cases) was \$50,557.64. Two hundred and seven individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$42,886.46 was expended for this purpose from the earnings of Bloomington Hospital during the year 1910, from which earnings charitable assistance to patients was given to the extent mentioned above. Over 9 per cent. of the patients treated contributed nothing whatever to their

support; 48.6 per cent. of the patients paid sums varying from nothing to the bare cost of their care. Only 51.4 per cent. paid a rate which secured a surplus for the institution. The total support and partial assistance rendered to patients unable to pay for their entire cost to the Hospital was equivalent to maintaining 80 free beds.

The graduates of the Training School for Attendants, including the nine who graduated this year, number 107 since the school was first started in 1894, of whom 7 men and 19 women remain in the employ of the institution.

The year 1910 was a very successful one for Bloomingtondale Hospital, both from a medical and a financial standpoint.

The work of Dr. Amsden, special pathologist of the Hospital, for the past year, is described by him as follows:

"Herewith I submit a general statement of the work, aside from the more definitely routine work, with which I have been occupied for the past seven months.

"Soon after returning from abroad I began collecting the equipment necessary for the Wassermann reaction. By the end of the summer our outfit was completed and since September the Wassermann test has been a part of the routine clinical work.

We do this test according to the original method of Wassermann—the method employed also at the Munich clinic. In especial cases experience has shown the advisability of making use, in addition, of Noguchi's modification of this test. By this combination I believe that a maximum of accuracy is secured. Up to the present time we have done 193 reactions involving 78 cases, a part of which were in the New York Hospital and House of Relief. The results tally closely with those currently published. This test, together with the results obtained from examination of the spinal fluid, marks a distinct advance in precision of diagnosis and treatment.

I have also given especial attention to the application of the more recent neuropathological methods to material from our autopsies. Although we have relatively few post mortem examinations, this fact makes it possible to carry out a complete study of them. We are, as a means of control, employing the same methods on suitable material obtained elsewhere.

"In addition we have continued the collection of data bearing upon the interrelation of psychosis and mental make-up or personality. The importance of this study, particularly in hospitals dealing with the better educated classes, should, we believe, be forcibly emphasized. It is more and more evident that consideration of this data not only makes it possible to handle cases with greater precision, but it indicates also in recoverable cases the direction in which training of the patient against subsequent difficulty

may most efficiently be pushed. Moreover it appears hardly less than a duty to make this data, so easily accessible in hospitals of this class, generally available for whatever bearing it may have on the problems of limitation and prevention of mental deviation."

The Convalescent Cottage for men patients from the New York and allied hospitals was open from May 1st to October 15th, and during that time 90 men spent from a few days to several weeks at this cottage, for whom we furnished 1,386 days board.

On May 26th a number of Governors of the Society visited Bloomingtondale Hospital, and participated with the members of the Bloomingtondale Committee in the graduating exercises of our Training School for Attendants, at which time two men and seven women were graduated, and given certificates of efficient pursuit of their studies in fitting them to attend upon the insane.

Last summer the Hospital hired a bungalow overlooking the Long Island Sound, at Rye Beach, which was utilized for the daily picnic parties during the summer on all fine days, and 15 patients stayed for periods varying from a day to three weeks. The cottage was very much enjoyed, and was of great benefit to the patients.

The shore cottage has been found so useful and enjoyable to the patients that the Governors have secured a plot of ground on the shore containing about one-third of an acre, with a shore line of about 150 feet, which is to be improved in time for the coming summer, and on account of its accessibility, and the adjoining very beautiful bathing beach, is likely to be a very valuable addition to the facilities of Bloomingtondale Hospital for treating patients.

The occupation department has continued to prove valuable in the moral treatment of patients. A considerable demand has existed for the fancy work, which has appealed to various people who visited the institution, so that there is every encouragement to pursue it. The following is a somewhat detailed statement of its operation:

"During the year 1910, 52 patients were employed in the occupation department; the variety of occupation and amount done is shown in the following list. In addition instruction was given to a few patients in design, composition and color.

Reed baskets . . . . .	270
Raffia knotted articles . . . . .	140
Raffia sewed baskets . . . . .	55
Woven rugs . . . . .	5
Woven cushion covers . . . . .	41
Woven draperies, bags, bureau and table scarfs . . . . .	69
Hammered brass pieces . . . . .	5
Bead decorated leather bags . . . . .	2

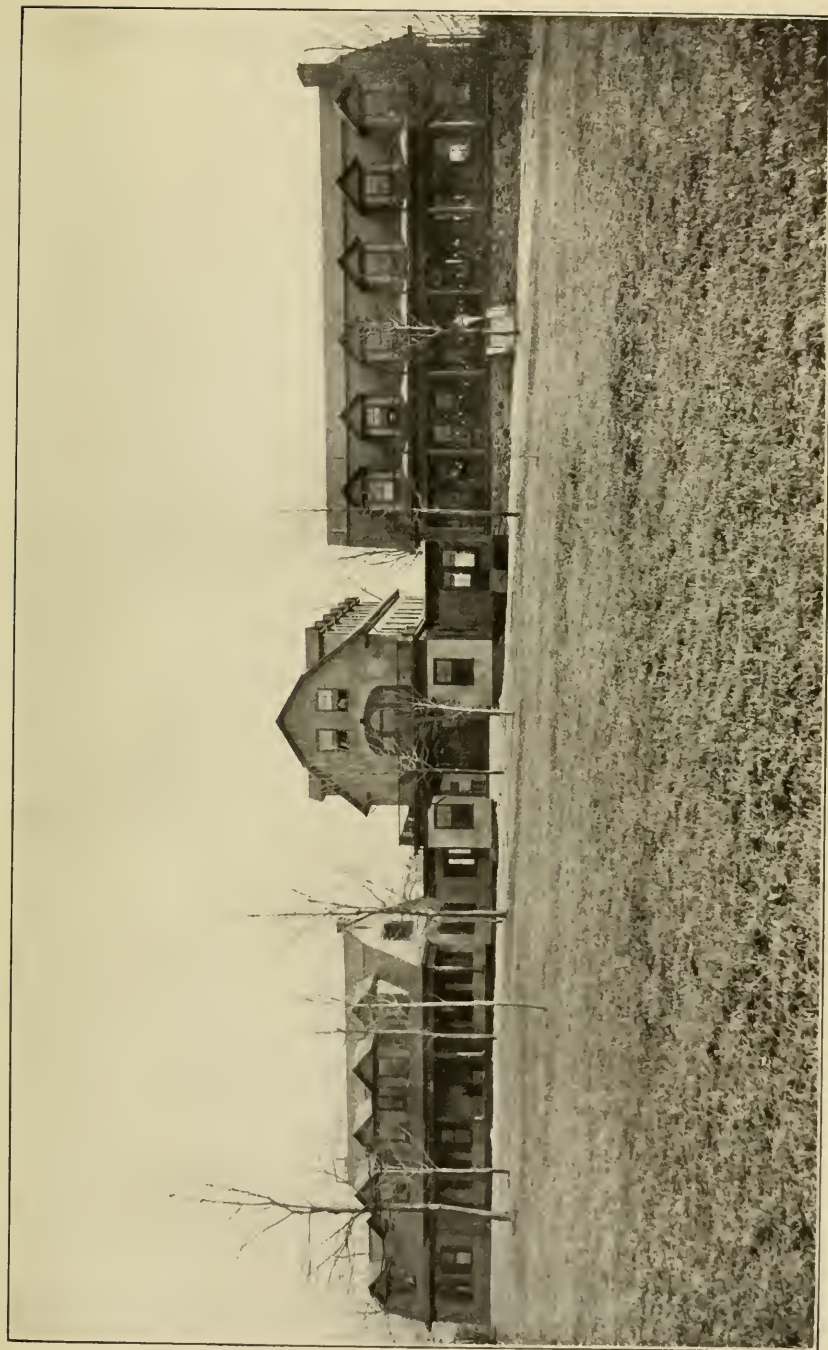

Of these articles by far the greater number have already been sold, the total income thus derived being \$431.58.

The expenditure for materials during the year was \$291.92, considerable of which is still on hand."

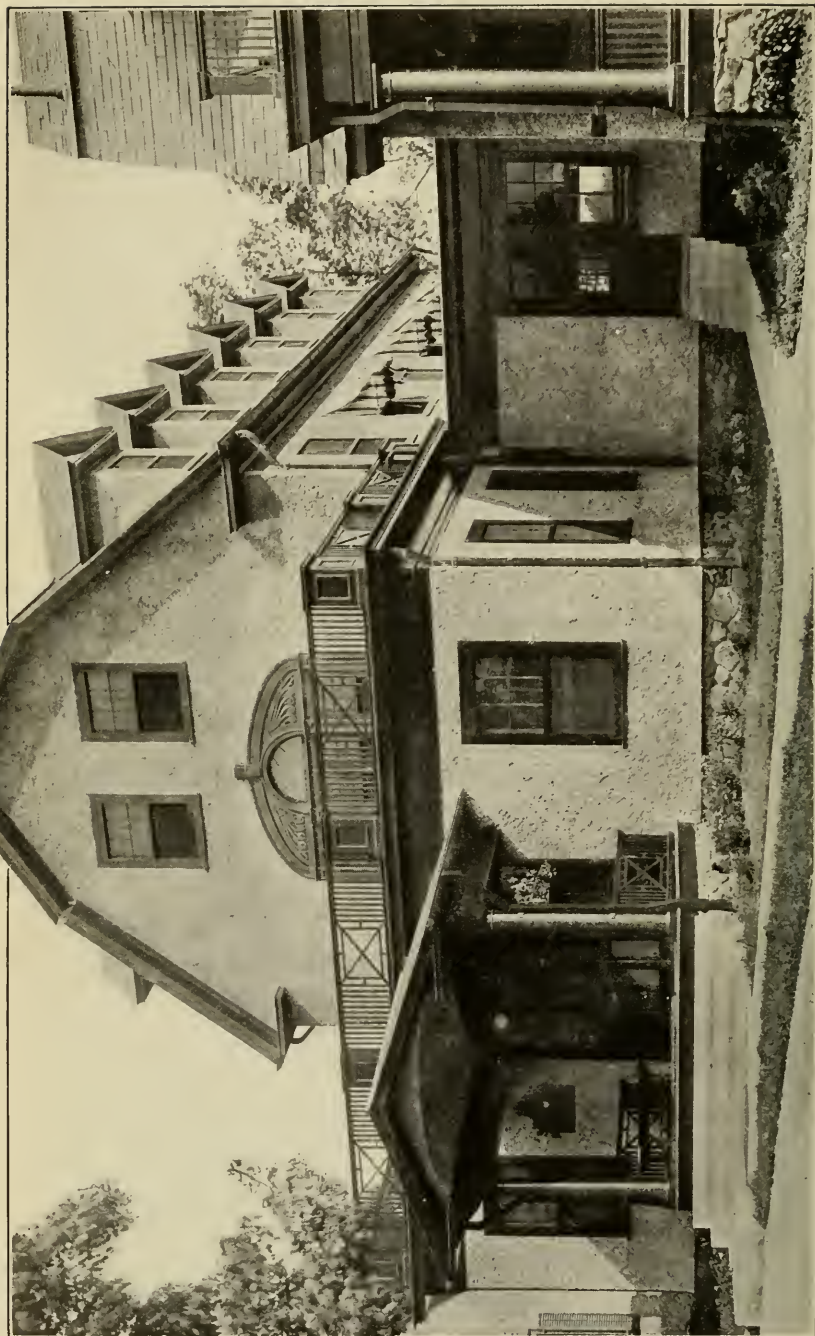

No changes have taken place in the medical staff during the year, except that Dr. Allen V. Laing, Clinical Assistant, resigned on August 1st and was succeeded by Dr. C. Ross Miller, who in turn was succeeded by Dr. Eugene T. Morrison.

Attached to this is a report of Miss Alice C. Ellison, Assistant Superintendent of the Campbell Convalescent Cottages, which shows the amount of work done at these cottages during the past year.

## REPORT OF THE ASSISTANT SUPERINTENDENT OF THE CAMPBELL CONVALESCENT COTTAGES.

---

*To the Board of Governors:*

GENTLEMEN:—The number of admissions this year exceeds that of 1909 by more than two hundred. While our purpose is to obtain results, rather than numbers, it is gratifying when the two are combined.

Facilities for isolating contagious cases have been made so convenient, that no serious delays have interfered with our routine in admitting patients. The isolation quarters have proved efficient at all times, and have been very comfortable during the winter.

The children have, on the whole, done well, and many who came to the cottages in shocking condition went home strong and happy. It is pleasant to reflect that, in many instances, marked improvements in mental and personal conditions have supplemented the physical benefits received.

### GENERAL REMARKS.

While the Convalescent Cottages cannot personally follow the patients who have been discharged, it is at this point that the visiting dispensary nurse and the Social Service Department render valuable work, as they are able to keep in touch with patients who have passed beyond our reach. The latter branch of the hospital has been of great assistance in providing employment and (when possible) clothing for needy women patients who have been discharged from this institution.

In connection with the future of children who are discharged from the Cottages, the clothing problem has been a very important feature. While the children are in our care, their clothing is furnished by the institution, but many a child, on arrival, is so poorly clad that it is often impossible to send him away wearing his own garments. This is particularly important in the fall and winter, as children who come to the Cottages during the summer are frequently unable to receive warm clothing from their homes, and we have had difficulty in supplying their needs after they have been in the Cottages longer than the summer season.

At present, through the kindness of one of the members of the Board of Governors, we are enabled to provide the most necessary articles of clothing for the poorer children.

## IMPROVEMENTS

The beauty and usefulness of the Cottages have been greatly augmented during the past year. An iron fence has replaced the old wooden one, and additional shade trees and groups of shrubs have been planted. A large awning provides the children with a shaded grassy spot, which is very restful on warm days.

The sun-parlor in which the children formerly played when indoors having been converted into a schoolroom, it was necessary to find a substitute. To this end the long veranda in front of the cottage has been provided with a portable enclosure. The equipment of the children's cottage will soon have been made more useful by the addition of a steam sterilizer for clothing and a modern bathing table for babies.

The women's cottage has also been benefited. All the walls have been painted, while a fireplace, pictures, rugs, curtains and a writing-desk have made the sitting-room very homelike.

The women patients' physical comfort has also been borne in mind, and warm army blankets and a cement courtyard on the sunny side of the cottage have made it possible for the women to enjoy outdoor life during the winter.

Perhaps the greatest step which has been made in the advancement of the children's department has been in establishing a kindergarten and school department. It is absolutely necessary, where so large a number of children are gathered, to provide mental occupation—which cannot be contributed by the nursing staff.

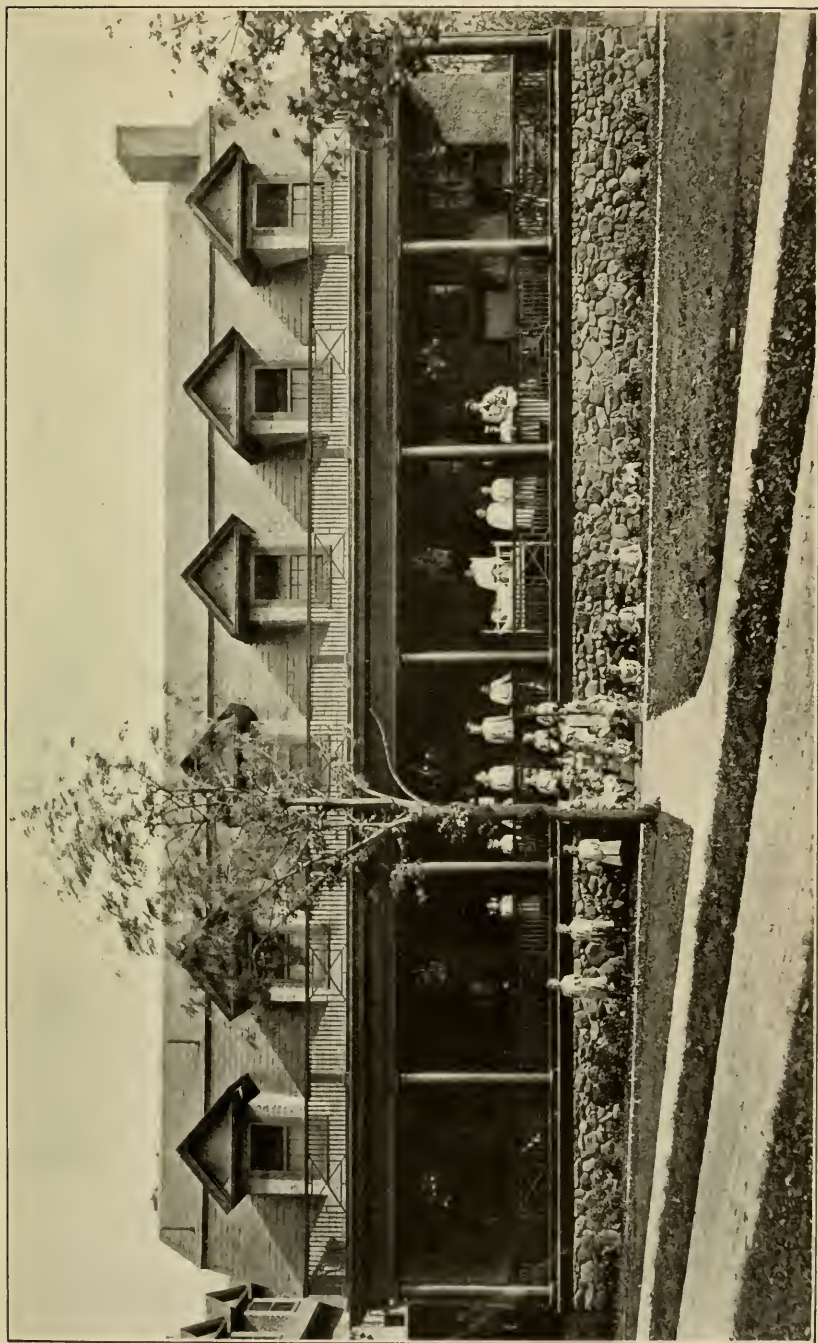

October 1st the kindergarten was opened with Miss Margaret O'Brien in charge. Miss O'Brien was engaged only as a kindergarten teacher, but realizing the needs of the older children she has voluntarily conducted a class with them.

We have frequently been forced by urgent parents to send home sickly children, to whom it meant much to receive care and outdoor life, the parents insisting that their children could not afford to forfeit their schooling. While we cannot give the older children an equivalent to regular school work, we have so far succeeded that, in one or two instances, children who had been expected to fail in their school examinations were not left behind.

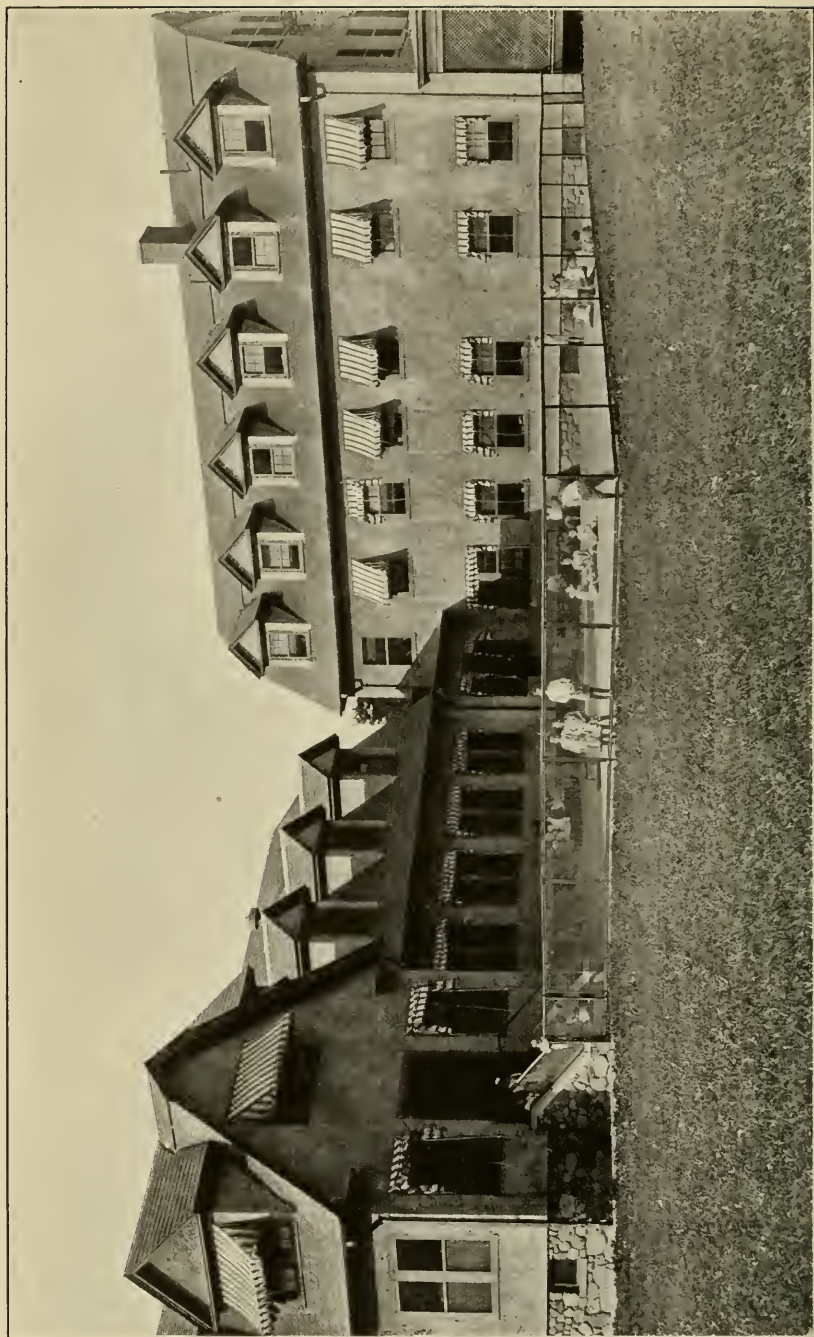

The kindergarten department has attractions for all, and it is very interesting to note the eagerness with which dull, backward little children take part in basket-weaving and clay modeling.

It was largely due to the efforts of the school children that the Christmas season was enjoyed by the entire household. Beside the large Christmas tree stood a small one, prettily decorated by the children, and on which they had hung little gifts for friends. The

women patients were also remembered, and were present at a very pleasant entertainment furnished by the girls and boys.

As our work has developed needs have arisen, and we are very grateful to those whose earnest support has been of great assistance to us in carrying on this branch of the hospital service, which has insisted upon growing.

CAMPBELL CONVALESCENT COTTAGES.

# GOVERNORS

## OF

### THE SOCIETY OF THE NEW YORK HOSPITAL.

The following is a list of the names of Governors from its organization to the first of January, 1911, with the date of their respective elections and the length of time they continued in office:

GOVERNORS.	Elect- ed.	Re- signed.	Served the Institution.	
A.				
Charles Ward Apthorp.....	1770	1784	14 years	
William Axtell.....	1770	1784	14 years	
John Alsop.....	1784	1788	4 years	
Gilbert Aspinwall.....	1799	1809	} 15 years	Died in office, 1819.
Gilbert Aspinwall.....	1811	1812		
Gilbert Aspinwall.....	1815			
John Atkinson.....	1800	1809	9 years	
John Aspinwall.....	1814	1817	3 years	
John Adams.....	1818	1854	36 years	
Stephen Allen.....	1823	1830	} 24 years	Died in office, 1852.
Stephen Allen.....	1835			
Augustine Averill.....	1848	1857		
John Jacob Astor.....	1860	1864	4 years	
George W. Abbe.....	1877		2 years	Died in office, 1879.
William W. Astor.....	1879	1882	3 years	
James W. Alexander.....	1904	1905	1 year	
B.				
Gerardus William Beekman.....	1770	1777	7 years	
George Bowne.....	1770	1784	} 26 years	
George Bowne.....	1785	1797		
William Bayard.....	1777	1784		
William Bayard.....	1800	1802	} 9 years	
Robert Bowne.....	1784			
Aaron Burr.....	1784	1792		
James Beekman.....	1785	1787	2 years	
Theophylact Bache.....	1785	1797	12 years	
Thomas Buchanan.....	1785	1800	15 years	
Francis Basset.....	1785	1787	2 years	
William Backhouse.....	1787	1792	5 years	
Nicholas Bayard.....	1794	1798	4 years	
John Barrow.....	1795	1807	12 years	
Samuel Bowne.....	1796	1797	1 year	
Walter Bowne.....	1800	1805	5 years	
Dr. Samuel Bard.....	1801	1802	1 year	
Rev. Abraham Beach.....	1801	1806	5 years	
Thomas Buckley.....	1802	1842	40 years	
John Bogert.....	1804	1817	13 years	
John L. Bowne.....	1810	1815	5 years	
Abraham Barker.....	1813	1816	3 years	
Robert H. Bowne.....	1815	1827	12 years	
William Bayard, Jr.....	1818	1823	5 years	
John L. Buckley.....	1842	1855	13 years	

# LIST OF GOVERNORS—*Continued.*

1894	Miss A. M. ZIEGER..... (Mrs. F. P. Shull.)	Private Nurse.....	Pasadena, Cal.

## LEGACIES TO THE HOSPITAL.

The Hospital has been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following clause, however, may be suggested:

“I give to THE SOCIETY OF THE NEW YORK HOSPITAL the sum of.....dollars.”

If land or any specific personal property such as bonds, stocks, &c. is given, a brief description of the property should be inserted instead of the words “the sum of.....dollars.”

TO THE LEGISLATURE OF THE  
STATE OF NEW YORK

---

The Governors of the Society of the New York  
Hospital respectfully present their Annual Re-  
port of the state of the Institutions under their  
charge for the year 1911, as required by law.

# ANNUAL REPORT

## OF THE

### GOVERNORS OF THE SOCIETY OF THE NEW YORK HOSPITAL FOR THE YEAR 1911.

---

In conformity with the provisions of its charter, granted by Royal authority June 13, 1771, in the reign of King George III, the Governors of the Society of the New York Hospital present their Annual Report, consisting of the report of the Treasurer and of the several institutions under their control and management, as follows:

The Hospital at Fifteenth Street, the Private Hospital at Sixteenth Street, the House of Relief at Hudson Street, the department for the treatment of mental diseases, known as Bloomingdale Hospital, and the Convalescent Cottages at White Plains, Westchester County.

The number of individuals who received care and treatment in all departments during the past year was 64,677 as compared with 67,504 for the year 1910, as appears in the Statistical Report, divided as follows:

	1911	1910
NEW YORK HOSPITAL, FIFTEENTH-SIXTEENTH STREETS:		
In Wards.....	12,386	13,321
Private Rooms.....	550	510
Out-Patient Department.....	17,143	17,690
Treated by Ambulance Surgeons and not brought to the Hospital.....	4,289	2,895
	<u>34,368</u>	<u>34,416</u>
HOUSE OF RELIEF, HUDSON STREET:		
In Wards.....	2,655	2,792
Out-Patient Department.....	23,671	26,557
Treated by Ambulance Surgeons and not brought to the Hospital.....	2,693	2,521
	<u>29,019</u>	<u>31,870</u>
BLOOMINGDALE HOSPITAL, WHITE PLAINS:		
Psychopathic Department.....	498	478
CONVALESCENT COTTAGES, WHITE PLAINS:		
Men.....	66	90
Women.....	254	227
Children.....	472	423
	<u>792</u>	<u>740</u>

The statistical reports annexed hereto will show that the work of the Hospital has continued on practically the same lines during the year 1911 as during the year 1910. (There have been slight variations, but on the whole the numbers at any one time in the various departments of the institution showed a persistent increase.) The total number of patients treated during the year (excluding the Out-Patient Department) has slightly diminished, but, on the other hand, the total days of Hospital care has increased. The number of patients in the Bloomingdale Hospital reached larger figures than ever before; so also the ambulance service has been much increased, the average number of calls being eighteen a day at the Sixteenth Street Hospital, and fourteen at the House of Relief.

While the efficiency of the institution, it is believed, has been fully maintained, the average cost of caring for patients has been somewhat reduced. It is interesting to note that at a time when it is popularly believed that the cost of living has been increased, the daily cost per capita for provisions for all persons supported by the Hospital has diminished from about thirty-four cents in 1910 to twenty-nine cents in 1911.

A comparatively new phase of the work of the Society is in the Convalescent Relief Department which has been gradually extended and is accomplishing an incalculable amount of good. As the work of this department is better understood, more cases are brought under their jurisdiction and the work of the nurses employed is every year materially greater. Special attention is called to the details in regard to this work given in the appended report of the Superintendent.

During the past year the Society has acquired practically all of the block between Fifty-fourth and Fifty-fifth Streets and Eleventh and Twelfth Avenues—the completion of the purchase from the numerous different owners having required a good deal of time. The necessary funds for this purpose have been obtained in part from the sale of certain land belonging to the Society adjacent to the Bloomingdale Hospital, but in greater part from the sale of securities held in the Treasury. The land in Westchester County was not productive so that its sale did not affect the income of the Society; but the sale of securities has materially diminished the income upon which the Society has had to rely. The result is, that the year 1911 closes with a deficit.

In view of the constantly increasing demands upon the institution, the expenses for the coming year will undoubtedly be increased. All branches of the institution have been managed with economy, and it would probably not be practicable, without sacrifice of efficiency, to reduce further the per capita expenses. In fact, it will probably be necessary, in order to keep our work fully up to

the most approved standards to expend much larger sums in the management of some of our departments. The result will be that we must seek aid from such sources as we can reach to enable us to carry on our work.

The preparation of plans for the new Hospital buildings at Fifty-fourth Street has been diligently carried on by our architects and expert advisers with the assistance of the Medical Board, and it is hoped that they will soon be in a condition to exhibit to those who may be minded to contribute to so excellent a purpose. It is the intention of the Governors that they shall comprise the most improved and modern methods of hospital construction and the best appliances for caring for all classes of the sick and injured. In order to accomplish this purpose very large sums of money will have to be expended, but the Governors of the Society, as stated in their last report, feel an abiding confidence that the oldest hospital in this City will be supported in this step forward, by all who appreciate its one hundred and forty years of conservative management.

Dr. Samuel B. Lyon, Medical Superintendent of Bloomingdale Hospital, at White Plains, N. Y., desiring relief from the arduous duties of his office, tendered his resignation, which was accepted with regret. In accepting Dr. Lyon's resignation, the Board of Governors placed on record their appreciation of his long, devoted and efficient service and appointed him Medical Superintendent Emeritus.

Dr. William L. Russell, late Superintendent of the Long Island State Hospital, was appointed to succeed Dr. Lyon, resigned.

The resignation of Dr. Percival R. Bolton as Attending Surgeon to the Hospital was accepted with regret. Appropriate resolutions were adopted expressing their appreciation of Dr. Bolton's professional services covering a period of nearly twenty-one years.

The Governors sincerely regret the sudden death of Dr. Raymond W. Brown, March 23, 1911, while in the active discharge of his duties as a member of the House Staff at the House of Relief.

Attention is called to the fact that the Statistical Report covers all the institutions under the management of the Society.

 CORNELIUS N. BLISS, JR., } *Auditing.*

### COMPARATIVE STATEMENT OF OPERATING EXPENSES FOR THE YEARS 1910 AND 1911

\*The difference between the item of "Total Operating Charges" at Bloomsdale Hospital, and the total of such charges as set up on page 19 of the Treasurer's Report published herewith, viz., \$277,065.30, is accounted for by the fact that certain charges were transferred from Operating Expense to Capital Investment. There was also an allowance made for the cost of maintenance of special attendants to patients, said amount being transferred and charged against the total receipts from patients' board for the year 1911.

\*These figures include patient days of treatment in Emergency Ward.

†The increased average cost of 61 cents per patient is caused by a charge in 1911 for Administration Expenses which was not included in 1910.

# REPORT OF THE SUPERINTENDENT OF THE NEW YORK HOSPITAL AND HOUSE OF RELIEF.

---

*To the Board of Governors:*

GENTLEMEN:—I beg to submit the following report for the year 1911:

The cost of maintaining the New York Hospital was practically the same as in 1910, but through charging off to the House of Relief its proportionate share of administration expenses and the wages paid pupil nurses employed in that Institution, it appears to be less.

The average daily cost of caring for patients was \$2.60, compared with \$2.68 in 1910.

The largest increases in expenditures were for medical and surgical supplies, which increased \$2,433.17, for fuel; which increased \$2,215.01; for housekeeping labor and supplies, which increased \$2,841.71, and for X-Ray, which increased \$1,273.52.

## *HOSPITAL RECEIPTS.*

The Hospital receipts were \$3,123.99 greater than in 1910, not including payments by patients for medical services and special nurses. The receipts from private rooms were \$3,244.13 less than last year, owing to a reduction in the number of rooms allotted to this department. The receipts from ward patients, on the other hand, showed an increase of \$6,094.81.

We received \$2,694 from the Cancer Commission, which accounts in part for the increased income from Hospital wards.

## *PATIENTS TREATED.*

Compared with 1910 there was a decrease in the number of admissions to the Hospital from 5,934 to 5,608. But owing to the more serious illnesses of those admitted, necessitating a longer average stay in the Hospital, the number of days' care furnished increased from 86,874 to 91,474, or over five per cent.

The work in the Emergency Ward decreased over seven per cent.

In the Out-Patient Department the number of visits was greater than ever before. The daily average number of patients treated in this department was 230, compared with 218 in 1910.

The number of private patients treated during the year was 550, compared with 510 last year.

## *ADDITIONS AND BETTERMENTS.*

The number of beds in the surgical wards was increased by 17.

The refrigerating plant was thoroughly overhauled.

The washing machines in the laundry were repaired and worn parts renewed.

The boilers were equipped with new grates, thereby making it possible to burn a cheaper grade of coal during the warm months.

A considerable amount of painting was done both at the Hospital and at the House of Relief.

An electric ambulance was added to the ambulance equipment at the House of Relief.

The floors of the upper wards at the House of Relief were resurfaced and linoleum treads laid.

Gas toasters were placed in the various dining-rooms and in all wards to the great satisfaction of patients and employees.

Owing to an increase in the staff of internes from 14 to 18, it was found necessary, in order to provide them with sleeping accommodations, to close the fourth floor of the Private Patient Building to patients.

## *ADDITIONAL ACCOMMODATIONS FOR PRIVATE PATIENTS AND NURSES.*

In order to provide additional accommodations for nurses the house number 16 West Sixteenth Street was purchased. Possession was given September 1st. Accommodations are provided for 20 nurses.

The house was overhauled, repaired and furnished throughout. It is heated and lighted from the Hospital plant.

Connection was made between this building and No. 14 West Sixteenth Street, which is also occupied by nurses.

The nurses who were occupying the rooms on the fifth floor of the Private Patient Building moved into the extension. The vacation of this floor by the nurses gave the Hospital 10 additional rooms for private patients, making 32 in all.

## *COST OF CARING FOR PATIENTS.*

The cost of caring for patients is somewhat less than it was last year. Taking into consideration the Hospital's numerous activities, which include an expensive ambulance service, it would appear that the work done is commensurate with the expenditures.

The gradual decrease in per capita per diem cost would appear to be due, in part, at least, to an increasing daily census.

The per capita per diem expenditures for the past five years have been as follows:

Year	Ward Patients	Private Patients	All Patients	Average Day Census
1907.....	\$2.83	\$6.81	\$3.29	187
1908.....	2.74	6.39	3.25	194
1909.....	2.74	5.54	3.07	198
1910.....	2.44	4.55	2.68	206
1911.....	2.31	5.29	2.60	215

### CONVALESCENT RELIEF DEPARTMENT.

The work of this department was materially greater than in 1910. The total number of cases advised and aided during the year was 908. Of these 245 were from the Out-Patient Department and 15 from the House of Relief.

The Out-Patient Department is increasing its demands on this department and preparations are being made to adequately meet these demands.

Miss Irene H. Sutcliffe continues to direct this work. She has one paid assistant. We also have two graduate nurses doing convalescent relief work in the Out-Patient Department. One confines herself to tuberculosis cases and the other to children. Both of them visit the homes of patients and give practical instruction to the patients and their families in hygiene, feeding, nursing, etc.

The following statement of the disposition made of cases shows the scope and character of the service rendered by the Convalescent Relief Department.

Referred to Convalescent Homes.....	395
Referred to the country.....	108
Referred to Charity Organizations.....	55
Referred to Tuberculosis Hospitals.....	12
Referred to other hospitals.....	25
Fare paid.....	80
Surgical Belts and Shoes.....	20
Treatments and Dressings.....	334
Work obtained for.....	30
Food and Emergencies.....	25
Refused help after arrangements were made.....	30

On both Thanksgiving and Christmas, dinners were distributed to the families of the patients. A Christmas Tree and an entertainment were also provided for them, over 200 attending.

## HYDRIATIC DEPARTMENT.

In this department treatment is furnished free of charge to ward, private room, and out patients.

Men and women are treated on alternate afternoons. Expert operators are in constant attendance.

The average daily number of treatments in 1911 was 7 against 9 in 1910.

The number treated during the year is as follows:

	Male.	Female.	Total.	From Wards.	From O. P. Dept.	Total Treat- ments.	Average Day Treat- ment.
January .....	31	21	52	8	44	249	10
February .....	24	20	44	5	39	190	8+
March .....	29	22	51	3	48	251	9+
April .....	30	16	46	8	38	248	9+
May .....	36	21	57	9	48	269	10+
June .....	26	12	38	5	33	199	7+
July .....	13	17	30	3	27	81	3+
August .....	16	16	32	6	26	146	5+
September .....	16	16	32	2	30	151	5+
October .....	16	16	32	1	31	150	5+
November .....	15	11	26	..	26	116	4+
December .....	22	16	38	..	38	151	6+
Total .....	274	204	478	50	428	2,201	7+

## HOUSE OF RELIEF.

This Institution continues to do most excellent work. Great numbers of patients are cared for in limited quarters, and at comparatively small expenditure. The doors are never closed to the sick and injured, regardless of whether or not they belong to the so-called emergency class.

The number of bed patients treated in 1911 was 137 less than in 1910, but the number of days' board furnished was increased by 2,291.

The total operating expenses was \$9,310.88 greater than in 1910. This was due to various causes. For the first time this Institution is charged with its proportionate share of administration expenses, and the wages of pupil nurses are charged to its pay-roll instead of the New York Hospital pay-roll.

The replacing of a horse ambulance with an electric one increased the expenditure of this department \$2,000.

Fairly extensive alterations and extensions were made on the roof of the House of Relief in order to provide modern facilities for open air treatment of patients. The cost of this work including equipment was about \$3,700. Accommodations are provided for 10 patients.

Seventy-three per cent. of those who were admitted to the New York Hospital wards received gratuitous treatment (not including 7,135 treated in the Emergency Ward, all of whom were treated without charge).

At the House of Relief 94.4 per cent. were treated free.

### *AMBULANCE SERVICE.*

The ambulance work at the Hospital has increased rapidly during the past two or three years.

In 1908 we responded to a daily average of 8 calls; in 1909 the daily average number responded to was 11; in 1910 it was 14; and in 1911 it was 18.

We now have three electric ambulances at the Hospital. At the House of Relief there are two horse ambulances and one electric ambulance. We find the electric vehicles much more satisfactory than the horse drawn ones, especially in hot weather.

During one hot day in July nearly 90 calls were answered, between the two stations. An electric ambulance responded to 30 calls in 24 hours.

The number of calls at the Hospital was greater than those of last year by 1,293 and at the House of Relief by 166.

The average daily number of calls at the House of Relief was 14 compared with 13 last year.

### *HOSPITAL BUREAU OF STANDARDS AND SUPPLIES.*

This Hospital retains its membership in the Hospital Bureau of Standards and Supplies. We feel that much has been gained through the standardization of the various commodities. Considering qualities, the prices obtained through the Bureau have been very satisfactory.

### *GIFTS.*

The Hospital has been the recipient during the year of a large number of donations, such as books, toys, flowers, fruit, etc. These gifts while ordinarily inexpensive have as a whole assisted much in rendering hospital life more attractive, especially for the children. We desire to encourage these donations.

We are under renewed obligations to the Employment Society of St. Thomas's Church for a large amount of sewing done without expense to the Hospital. For statistics see Statistical Report.

Respectfully submitted,

THOMAS HOWELL,  
*Superintendent.*

# REPORT OF THE MEDICAL BOARD OF THE NEW YORK HOSPITAL FOR THE YEAR ENDING DECEMBER 31, 1911.

---

*To the Board of Governors of the New York Hospital:*

GENTLEMEN:—The number of individuals who received care and treatment at the New York Hospital during the past year was 34,368, as compared with 34,416 for the year 1910.

Of the above, 7,135 were treated in the Accident Room during the hours when the Out-Patient Department was closed. 5,801, including patients remaining in the Hospital at the beginning of the year, were treated in the wards and private rooms. Of that number, 1,966 were treated in the Medical Wards. Some of the principal diseases and their number are here recorded:

Amygdalitis . . . . .	13
Aneurysm, aortic . . . . .	7
Arterial sclerosis . . . . .	40
Bronchitis . . . . .	39
Carcinoma of stomach . . . . .	19
Cirrhosis of liver . . . . .	13
Diabetes mellitus . . . . .	12
Endocarditis . . . . .	91
Gastritis . . . . .	14
Gastro-enteritis . . . . .	54
Goitre, exophthalmic . . . . .	9
Heat stroke . . . . .	12
Hemorrhage, cerebral . . . . .	11
Malaria . . . . .	45
Meningitis . . . . .	27
Myocarditis . . . . .	13
Nephritis . . . . .	112
Neurasthenia . . . . .	17
Pleurisy . . . . .	27
Pneumonia, lobar . . . . .	162
Pneumonia, other types . . . . .	17
Poliomyelitis, anterior . . . . .	6
Rheumatic fever . . . . .	68

Syphilis . . . . .	45
Trichiniasis . . . . .	5
Tuberculosis, pulmonary . . . . .	45
Typhoid fever . . . . .	81
Ulcer of stomach . . . . .	22

In the Surgical Wards 3,285 were treated. Some of the principal diseases and injuries were:

Abscess, ischio-rectal . . . . .	29	Deaths, 1
Appendicitis . . . . .	320	" 19
Calculus of bladder . . . . .	3	
Calculus of ureter . . . . .	3	
Concussion of brain . . . . .	10	
Carcinoma of breast . . . . .	21	" 1
Carcinoma of liver . . . . .	2	" 1
Carcinoma of œsophagus . . . . .	1	" 1
Carcinoma of uterus . . . . .	7	
Cholangitis . . . . .	3	
Cholecystitis . . . . .	5	" 3
Cholelithiasis . . . . .	65	" 3
Diseases of prostate and bladder . . . . .	17	
Diseases of rectum and anus . . . . .	56	
Diseases of uterus . . . . .	62	
Dislocations . . . . .	12	
Endometritis . . . . .	53	
Fistula in ano . . . . .	37	
Fracture, Colles' . . . . .	6	
Fracture of clavicle . . . . .	9	
Fracture of femur . . . . .	19	
Fracture of humerus . . . . .	16	
Fracture of patella . . . . .	10	
Fracture of pelvis . . . . .	6	" 2
Fracture of radius and ulna . . . . .	7	
Fracture of ribs . . . . .	25	" 6
Fracture of skull . . . . .	30	" 11
Fracture of tibia . . . . .	4	
Fracture of tibia and fibula . . . . .	27	
Fracture of vertebræ . . . . .	2	" 1
Gunshot wound of abdomen . . . . .	8	" 4
Gunshot wound of chest . . . . .	3	" 1
Gunshot wound of lung . . . . .	2	" 2
Gunshot wound of thigh . . . . .	4	
Goitre, exophthalmic . . . . .	29	

Hemorrhoids.....	82		
Hernia, femoral.....	15	Deaths,	1
Hernia, inguinal.....	224	"	1
Hernia, umbilical.....	12	"	5
Hernia, ventral.....	14	"	3
Hodgkin's disease.....	4		
Nephrolithiasis.....	6		
Nephroptosis.....	7	"	1
Neuralgia, trigeminal.....	3	"	1
Obstruction, intestinal.....	7	"	5
Osteomyelitis of femur.....	1		
Osteomyelitis of tibia.....	1		
Peritonitis.....	19	"	6
Pleurisy, suppurative.....	34	"	8
Pregnancy, extra uterine.....	17	"	2
Pyelonephritis.....	20		
Pyosalpingitis.....	54	"	2
Retroversion of uterus.....	35		
Salpingitis.....	71		
Stricture of œsophagus.....	1		
Stricture of urethra.....	14		
Tumors, malignant.....	93	"	3
Tumors, benign.....	95		
Ulcer of Stomach.....	15	"	4
Varicocele.....	32		
Varicose veins.....	16		
Wounds of chest (stab).....	1		
Wounds of heart (stab).....	1		

In the private patients' pavilion, 550 patients were treated, of which 526 were admitted this year and 24 remained over from last year. In 1910, 510 patients were treated. The number of operations performed was 379, including 312 major and 67 minor operations. In 1910, 271 operations were performed.

The operative work in the main Hospital has increased 84 cases. One thousand eight hundred and ninety-four operations were performed in 1911, as compared with 1,810 in 1910.

The Surgical Service in the Out-Patient Department has fallen off 154 patients and the visits have increased 963. The Medical Department has fallen off 393 and the visits have increased 1,921.

The work of the Tuberculosis Department of the Dispensary has diminished somewhat in the adult cases treated. The total number of adult patients was 454, of which 347 were regularly treated and 107 were referred to other hospitals, sanatoria or to the

country. Of this number, 18 died. The total number of visits made by these patients to the Dispensary was 2,158. The number of children under observation was 85, of which 40 positive cases were sent to hospitals and sanatoria.

The Orthopædic Department, under Drs. Fisk and Steinhardt, has greatly improved during the year. The services of a masseur with his assistants, assigned since 1909 to this department, have proven of the greatest value in the treatment of the disabilities following dislocations, fractures and contractures from cellulitis. As soon as possible it is hoped that the Governors will establish a Mechano-therapeutic Department, properly installed with apparatus and attendants for the use of both the Out-Patient Department and the main Hospital.

The Department of Hydro- and Thermo-therapy, in which both medical and surgical cases are treated, has been of inestimable value in the treatment of the more chronic cases. Its limited quarters have greatly handicapped its full efficiency. Two expert operators are in daily attendance. The number of patients treated in 1911 was 2,201; in 1910, 2,998. The greater number of patients come naturally from the Out-Patient Department, as our in-door service, both medical and surgical, deals with the more acute rather than the more chronic conditions.

The work of the Pathological Department has increased somewhat over that of the preceding year. We regret to note that the number of autopsies performed at the New York Hospital in 1910 was 122, or 26.4 per cent. of the total deaths, while in 1911 it was 109, or 20.8 per cent. of the total deaths. At the House of Relief we are pleased to note that while in 1910 there were 36 autopsies, or 15 per cent. of the total deaths, in 1911 there were 57, or 30 per cent. of the total deaths.

	1911.	1910.
The bacteriological examinations were.....	1,188	1,150
The histological examinations.....	804	806
The number of vaccines.....	60	....
The number of other examinations.....	30,655	27,970

This shows an increase of over 2,000 of the usual examinations plus 600 Wassermann Reactions and inoculations of Guinea pigs for diagnosis. During the past year, the urgent need of an additional assistant has become more and more apparent, and the recent appointment of such an assistant has greatly relieved the situation. We are pleased to report that owing to an arrangement made with Dr. Amsden of the Bloomingdale Staff, we are able now to obtain, upon request of the Attending Surgeons, Wassermann Reactions

within twenty-four hours. It is a great desideratum, as formerly patients were obliged to remain several days before the result of a test was obtained. It obviates one of the causes for the increase of Hospital days for patients.

It is with great pleasure that we report that the system enforced in the Children's Ward by the Medical Board one year ago has been a successful one. The rigid supervision exercised by the Attending Physicians and the Pathological Department, and the precautions required of the nurses in handling the children, have resulted in a rapid, clean and efficient system.

The Reception Ward, which was fully equipped and thoroughly reorganized two years ago, still continues one of our most active and best managed wards. It has a full quota of nurses and daily rounds are made by the Attending or Associate Staff. A new and practical rule has been established in this ward this year, namely, that all patients admitted after 7 P.M., requiring operation on the same night, shall be prepared in the ward and sent thence to the operating room. This avoids disturbing the sick patients in the other wards after 7 P.M. During the year 1,745 patients were admitted to this ward; 59 were transferred to Bellevue Hospital; 469 were sent to the wards. About one in every  $3\frac{1}{2}$  patients admitted is sent to the wards.

During the last sixteen months, 34 cases of cancer have been carefully studied by the Cancer Commission in conjunction with the Huntington Fund for Cancer Research. The effects of several experimental remedies have been carefully observed, mainly the ascitic fluid of resistant cancer patients, the normal serum employed intraperitoneally, the mixed toxins of streptococcus and bacillus prodigiosus, Gwyer's thymus extract, thorium, radium, X-ray irradiations combined with local heat and cancer vaccines. While nothing in the way of a permanent relief has been obtained in the use of these remedies, it is believed that the cancer vaccines have a more distinct influence in reducing pain, hemorrhage and the size of a tumor than the ascitic fluids. Especially is this the case when breast-cancer vaccine is used in uterine cancer.

Systematic chemical study of the metabolism of cancer patients has been carefully pursued and specific characters were found in the metabolism of an advanced case of the disease. A careful study of the glycyl-tryptophan test for gastric cancer, as well as of the cytolytic effect of normal serum upon cancer cells, was carried out in the wards and Laboratory and the results have been already published. We regret to hear that the Commission, owing to the enforced separation of the laboratory and clinical staff from each other and from the patients, and because a specially trained corps of nurses cannot be obtained for these patients, deems it wise to

suspend its clinical work until such time as larger facilities and a more complete organization can be provided.

There has been during the year a great improvement in the working force of the operating rooms. Three graduate nurses are now in charge of these rooms, one at night and two during the day. This enables us for the first time to keep patients operated upon at night in the recovery rooms under a graduate special nurse until the next morning, when they are sent to their respective wards. This tends toward the comfort of the sick ward patient who is not, as formerly was the case, disturbed by noisy patients recovering from the anæsthetic or the hurrying nurses in attendance.

The clinical teaching of students in the wards and in the operating rooms has been carried on by representatives of Cornell and Columbia Universities upon Medical and Surgical Attending and Associate Staffs. The Cornell University representatives, Drs. Conner, Hitzrot and Downes, have taught sections 240 hours, during the year. The Columbia University representatives, Drs. Pool and Turnure, have taught sections 180 hours. Two sections of three students each have been assigned to the 1st and 2d divisions of the Surgical side by Columbia University. During the first half of the session, Drs. Hitzrot and Downes have looked after these students in the wards; during the latter half of the session, Drs. Pool and Turnure have done the same.

The value and importance of having a capable graduate nurse in charge of every ward cannot be overestimated.

There is an urgent demand at the New York Hospital for an open-air ward such as has been given the House of Relief. At present we have no place where our patients may obtain this form of treatment. The roofs of the passage-ways between the wards and the administration buildings are utilized in summer for this purpose. They are not available in winter, fall or spring; nor can they be used in windy or stormy weather because there is no protection on the sides. A permanent roof with skylights, movable sides and the proper accessories of a fully equipped ward must be erected in order to obtain the value of this kind of treatment. The open-air ward at the House of Relief has been of the greatest value to the medical and surgical services. The same would be the case if we had one at the New York Hospital.

An event of much importance to the medical service of the hospital was the dividing of the service into two medical divisions, with a separate house staff of four men for each division. This change was made necessary by the steadily growing activities of the service and has resulted in increased efficiency in the care of patients and in the investigation of disease.

The total number of surgical cases treated in the wards of the

House of Relief was 1,299. This is an increase of 94 over last year. Of this number 710 were surgical injuries and 589 surgical diseases. The detailed list is as follows:

### INJURIES

Burns and scalds . . . . .	23		
Concussion of brain . . . . .	16	Deaths,	4
Contusions . . . . .	172		
Gunshot wounds . . . . .	18	"	4
Hemorrhage . . . . .	8	"	1
Incised and stab wounds . . . . .	34	"	3
Lacerated wounds . . . . .	102		
Wounds of joints and muscles . . . . .	40		
Rupture of the aorta . . . . .	1	"	1
Rupture of the urinary bladder . . . . .	1	"	1
Rupture of the duodenum . . . . .	1	"	1
Rupture of the kidney . . . . .	1		
Rupture of the liver . . . . .	1		
Rupture of the lung . . . . .	1	"	1
Rupture of the spleen and pancreas . . . . .	1	"	1
Rupture of the urethra . . . . .	4		
Undiagnosed internal injuries . . . . .	6	"	4
Fracture of the skull . . . . .	45	"	11
Fracture of other bones . . . . .	236	"	4

### DISEASES

Abscess . . . . .	22		
Adenitis . . . . .	18		
Appendicitis . . . . .	42	Deaths,	5
Of bones and joints . . . . .	37		
Empyema, thoracic . . . . .	7		
Erysipelas . . . . .	4		
Of female genitals . . . . .	48	"	2
Of intestinal tract, hernia . . . . .	127		
Of intestinal tract, obstruction . . . . .	10	"	1
Of intestinal tract, perforation . . . . .	10	"	1
Of intestinal tract, kidney . . . . .	8		
Of liver and gall-bladder . . . . .	16	"	1
Of prostate, bladder and urethra . . . . .	48		
Syphilis . . . . .	19		
Tetanus . . . . .	1	"	1
Obstetrical conditions . . . . .	25		
Of rectum and anus . . . . .	30		

Tumors, cancer . . . . .	20	Deaths,	2
Tumors, benign . . . . .	41		
Tumors, other malignant . . . . .	5		
Unclassified diseases . . . . .	50		

The death rate from all causes, at the House of Relief, including injury with or without operative interference, was 49 in 1,299, or 3.77 per cent. The total number of major operations performed was 390. This is an increase of 144 over 1910 and of 208 over 1909. The total number of medical cases treated in the wards was 1,356, 197 less than last year. The detailed list is as follows:

### DISEASES

Filariasis . . . . .	1		
Malaria . . . . .	34		
Typhoid fever . . . . .	18	Deaths,	2
Scarlet fever . . . . .	1		
Mumps . . . . .	1		
Cerebrospinal fever . . . . .	4	"	2
Meningococcus carrier . . . . .	1		
Diphtheria . . . . .	1		
Dysentery, bacillary . . . . .	1		
Influenza . . . . .	10		
Rheumatic fever, acute . . . . .	65		
Tuberculosis, chronic pulmonary . . . . .	48	"	1
Tuberculosis, acute pneumonic . . . . .	2	"	2
Gonococcus infection of joint . . . . .	8		
Alcohol poisoning, acute . . . . .	93	"	4
Alcohol poisoning, chronic . . . . .	43		
Psychosis, intoxication (alcoholic) . . . . .	52		
Illuminating gas poisoning . . . . .	15	"	1
Corrosive sublimate poisoning . . . . .	4		
Cocaine poisoning . . . . .	4		
Morphine poisoning . . . . .	1		
Opium poisoning . . . . .	2	"	1
Carbolic acid poisoning . . . . .	3	"	1
Formic acid poisoning . . . . .	1		
Acetanilid poisoning . . . . .	1		
Digitalis poisoning . . . . .	1		
Salvarsan poisoning . . . . .	1		
Iodine poisoning . . . . .	1		
Dinitro benzol poisoning . . . . .	1		

Oxalic acid poisoning . . . . .	1		
Potassium iodide poisoning . . . . .	1		
Fish poisoning . . . . .	6		
Food poisoning . . . . .	2		
Mushroom poisoning . . . . .	1		
Smoke inhalation . . . . .	2		
Sunstroke . . . . .	27	Deaths,	5
Heat exhaustion . . . . .	30		
Submersion . . . . .	24		
Arthritis deformans . . . . .	4		
Arthritis, chronic . . . . .	24		
Rheumatism, muscular . . . . .	4		
Gout, acute and chronic . . . . .	5		
Diabetes mellitus . . . . .	4	"	2
Obesity . . . . .	1		
Senility . . . . .	16		
Pharyngitis, acute . . . . .	5		
Amygdalitis, acute follicular . . . . .	23		
Tonsillar abscess . . . . .	4		
Gastritis, acute catarrhal . . . . .	60		
Gastritis, chronic . . . . .	2		
Ulcer of stomach . . . . .	1		
Gastro-enteritis, acute . . . . .	37	"	1
Constipation . . . . .	16		
Colitis, acute . . . . .	1		
Cirrhosis of liver, atrophic . . . . .	14	"	3
Syphilis of liver . . . . .	2		
Cholangitis, acute . . . . .	3		
Cholecystitis, acute . . . . .	3		
Bronchitis, acute . . . . .	32		
Bronchitis, chronic . . . . .	9		
Asthma . . . . .	8		
Emphysema . . . . .	9		
Pneumonia, lobar . . . . .	92	"	38
Broncho-pneumonia . . . . .	1		
Pleurisy, fibrinous . . . . .	19		
Pleurisy, sero-fibrinous . . . . .	16		
Nephritis, chronic parenchymatous . . . . .	8		
Nephritis, chronic interstitial . . . . .	52	"	12
Purpura rheumatica . . . . .	1		
Status lymphaticus . . . . .	1		
Pericarditis, fibrinous . . . . .	1		
Valvular disease, chronic cardiac . . . . .	25	"	2
Dilatation, acute cardiac . . . . .	11	"	6
Dilatation, chronic cardiac . . . . .	31		

Endocarditis, chronic . . . . .	1	Deaths,	1
Myocarditis, chronic . . . . .	10	“	1
Angina pectoris . . . . .	4	“	1
Palpitation, cardiac . . . . .	1		
Aneurysm of cœliac axis . . . . .	1		
Aneurysm of thoracic aorta . . . . .	3	“	3
Apoplexy . . . . .	25	“	21
Arterial sclerosis, cerebral . . . . .	8		
Arterial sclerosis, general . . . . .	1		
Thrombosis of cerebral arteries . . . . .	3	“	1
Tuberculosis of cerebrospinal meninges . . . . .	3	“	1
Syphilis of brain . . . . .	3		
Anæmia of brain . . . . .	17		
Tumor of brain . . . . .	1		
Hemiplegia, old . . . . .	9		
Hysteria . . . . .	38		
Neurasthenia . . . . .	12		
Epilepsy . . . . .	77		
Other nervous diseases . . . . .	34		
Skin diseases . . . . .	20		
Malingering . . . . .	3		
Unknown . . . . .	25	“	6

The death rate is 118 in 1,356 cases, or 8.7 per cent.

During this year an open-air ward at the House of Relief has been erected. It covers an area of 720 square feet and is easily accessible to fully equipped linen closets, pantry, kitchenette and toilet-rooms. A permanent roof with the proper skylights for light and air covers it, while the sides and front are open but can be closed during stormy weather. This ward was opened December 13, 1911, and is now fully supplied with the necessary nurses and orderlies. The ward accommodates 10 beds and is equipped for the treatment of actively sick patients. Up to the present time there have been 24 medical and 15 surgical cases treated in this ward. This much needed and greatly appreciated ward promises to be the most useful in the Hospital.

The Genito-urinary Clinic at the House of Relief under Dr. Whiting has increased some 200 new patients during this year. The daily attendance is 88 as compared with 51 last year. The three rooms used for this clinic are inadequate. Three physicians are installed in each room. This renders it not only difficult but sometimes impossible to treat patients rapidly and to collect data and to write the histories in proper form.

The Out-Patient Department, at the House of Relief where 23,671 new patients are treated, has been well taken care of by Dr. Bolling and the House Staff. Owing to many changes taken place in the neighborhood of this hospital, the Dispensary has fallen off 2,886 cases this year.

The Röntgen Ray Department, at the House of Relief, under Mr. Veeder, has taken 339 pictures, and as in most instances two exposures are made in each case, approximately 530 pictures were taken. These comprise:

Head.....	11
Neck.....	2
Thorax.....	15
Upper extremity.....	181
Lower extremity.....	91
Abdomen.....	39
	<hr/>
	339

The Board of Governors, at the time of the resignation of Dr. Bolton from the Attending Staff, divided the surgical work of the Hospital into three permanent services: two surgical services at the New York Hospital and one surgical service at the Hudson Street Hospital. This change to continuous service has been desired for many years.

The Medical Board regrets greatly the loss of the valued services of Dr. Percy Bolton, who resigned this year. Dr. Bolton served the Hospital as House Surgeon from 1891 to 1892, and as Attending Surgeon from 1900 to date. The loss of his rare and acute discernment in diagnosis and his excellent judgment in the operative field of surgery cannot but be felt in our institution.

FRANK HARTLEY,  
*President.*

# REPORT OF THE SUPERINTENDENT OF THE TRAINING SCHOOL.

---

*To the Board of Governors of the New York Hospital:*

GENTLEMEN:—I herewith submit the report of the thirty-fifth year of the Training School.

The Staff of the Training School on duty at the close of the year is as follows:

*Officers of Instruction:*

Superintendent . . . . .	1
Assistant Superintendent . . . . .	1
Clerical Assistant . . . . .	1
Night Supervisor . . . . .	1
In charge of Private Patients' Building . . . . .	1
In charge of Out-Patient Department . . . . .	1
Visiting Nurses (Out-Patient Department) . . . . .	2
Operating Room Nurses (day) . . . . .	3
Operating Room Nurses (night) . . . . .	1
Head Ward Nurses . . . . .	9
Graduate Nurses in charge of floors of Private Patients' Building . . . . .	3

*Pupils:*

Seniors . . . . .	33
Second Seniors . . . . .	13
Intermediates . . . . .	25
Juniors . . . . .	25

The Training School consists of ninety-six pupils distributed as follows:

Hospital Wards, public and private . . . . .	74
House of Relief . . . . .	12
Lying-In Hospital . . . . .	6
Sloane Hospital for Women . . . . .	4

During the year, 1,200 applications were received and considered, with the following result:

Accepted and entered on probationary duty . . . . .	81
Accepted as pupils in the School . . . . .	44
Resigned . . . . .	16
Declined . . . . .	21

The total days of illness was 660. The room in the Private Patients' Building, assigned to the use of nurses during illness, was occupied 369 days, of which 179 were by graduate nurses and 190 by pupils.

Thirty-five pupils finished the course, passed the final examinations and were awarded diplomas in 1911. The graduation exercises were held March 2d in the Governor's Room in the Administration Building. Mr. Howard Townsend, Vice-President, presided in the absence of Mr. George L. Rives, President of the Hospital.

The address was delivered by Dr. George L. Peabody, for many years on the Attending Staff of the Hospital and now on the Consulting Staff. Dr. Peabody's long and intimate relations with the School and his warm interest in all that ministered to its growth and development made him a peculiarly acceptable speaker, and the School deeply appreciated this added evidence of his continued interest. In a very interesting way he traced the history of the School from the day of small things to the present condition of maturity and efficiency, and spoke words of kindly counsel to those who were about to go out to their life work. The exercises were followed by a reception in the Nurses' Home which was largely attended by the graduates and their friends.

The necessity of occupying the fifth floor of the Private Patients' Building as a dormitory for nurses was relieved during the year by the purchase of the house No. 16 West 16th Street. This made it possible to restore to the private patient service the rooms which had been temporarily occupied by the nurses and also, provided accommodation for a few additional pupils. While we are grateful for this increased space, we cannot but express the regret that it is still necessary to distribute the pupils in so many different buildings, as it seriously affects the work of supervision and discipline. We look forward to the time when the School can be entirely housed in its own building with accommodation in accordance with modern standards.

The appointment of a graduate nurse for night duty in the operating room has increased the efficiency of this service.

The course of instruction in Dietetics, begun during the previous year and given by a trained instructor, was continued during this year with marked benefit. A thorough knowledge in this department cannot fail to increase largely a nurse's capacity for service.

We are glad that we have been able to respond in some measure to the call which has been made in recent years to the hospitals

throughout the country to the course which has been termed "Social Service." We began this comparatively new branch of hospital work not only as legitimate but as of highest importance, and note with pleasure its continued activity.

Closely allied to this branch of work is that of the Visiting Nurses in the Out-Patient Department. An adequate knowledge of what has been accomplished cannot be conveyed by a tabulated statement, but the following table will offer some suggestion in that direction:

Visits to homes of patients . . . . .	1,553
Quarts of milk dispensed . . . . .	7,285
Dozens of eggs dispensed . . . . .	1,776
Children sent to Campbell Convalescent Cottage, White Plains . . . . .	302
Children of tubercular parents sent to mountains . . . . .	35
Summer outing to mothers (with children) . . . . .	215

Our thanks are heartily extended to all those who in various ways have seconded our efforts to maintain and increase the efficiency of the Training School. The work of the pupil nurses has been most satisfactory and we appreciate their devotion and loyalty to the School.

Respectfully submitted,

ADELINE HENDERSON,  
*Superintendent Training School.*

# THE SOCIETY OF THE NEW YORK HOSPITAL.

## REPORT OF THE MEDICAL SUPERINTENDENT OF BLOOMINGDALE HOSPITAL, WHITE PLAINS, NEW YORK.

*To the Board of Governors:*

GENTLEMEN:—The following report of the operations of Bloomingdale Hospital during the year ending December 31, 1911, is respectfully submitted:

### GENERAL STATISTICS FOR THE YEAR ENDING DECEMBER 31, 1911.

	COMMITTED CASES.			VOLUNTARY CASES.		
	Men.	Women.	Total.	Men.	Women.	Total.
Remaining January 1, 1911 . . .	151	172	323	18	17	35
Admitted during the year:						
First admissions . . . . .	24	22	46	13	19	32
Readmissions . . . . .	9	7	16	11	23	34
Transfers from other institutions for the insane . . . . .	6	4	10	..	..	..
Voluntary cases committed . .	1	1	2	..	..	..
Total admitted during the year .	40	34	74	24	42	66
Total under treatment during the year . . . . .	191	206	397	42	59	101
Daily average population . . . .	144	164	308	23	20	43
Rated capacity of the institution . . . . .	200	200	400	..	..	..
Discharged during the year:						
As recovered . . . . .	8	12	20	9	7	16
As much improved* . . . . .	4	3	7	4	2	6
As improved* . . . . .	6	9	15	3	4	7
As unimproved* . . . . .	2	6	8	0	4	6
As not insane:						
Inebriates . . . . .	..	..	..	1	1	2

Number at home on parole December 31, 1911 . . . . .	6	9	15	..	..	..
Average number on parole during the year . . . . .	8	8	16	..	..	..

\* Exclusive of transfers.

## ADMISSIONS.

There were 140 cases, 64 men and 76 women, admitted during the year. There were 9 fewer patients than cases, 4 men and 5 women having been discharged and readmitted during the year. Twenty-three patients, 8 men and 15 women, had been discharged from the institution prior to January 1, 1911. Three men had been discharged twice, and 5 men had been discharged once. One woman had been discharged four times, 2 women three times, 3 women twice, and 9 women had each been discharged once.

Of those readmitted for the first time, 3 men and 4 women had been discharged as recovered, 2 men and 2 women as much improved, 2 women as improved, and 1 woman as unimproved.

Two men had been discharged twice as recovered, and 1 man twice as improved; three men once as recovered, and 2 men once as improved.

One woman had been discharged twice as recovered, 1 woman once as recovered and once as improved, 1 woman once as improved and once as unimproved, 1 woman three times as recovered, 1 woman twice as recovered and once as improved, 1 woman twice as recovered and twice as improved.

Ninety-four of the admissions, 49 men and 45 women, were first attacks, of which 71, 32 men and 39 women, were admitted first to Bloomingtondale Hospital. Deducting from the whole number of admissions 32 cases that had been admitted in previous years, and 71 admissions in first attack, leaves 37 cases that have either been treated at home or at some other institution previous to admission here.

Forty-seven patients were admitted three months or less after the first symptoms of mental disease were noticed by their friends; 26 between 3 and 6 months, 14 between 6 and 12 months, and 53 more than a year.

Sixty-six patients were received on voluntary application, 24 men and 42 women. There were 23 more voluntary cases than last year. Twenty-one patients, 8 men and 13 women, had previously been inmates of the hospital and were willing, when again in trouble, to seek its aid. Better provision for separating voluntary patients and convalescents from the other patients would serve as extremely useful purpose.

## DISCHARGES.

The total number of discharges during the year 1911 was 121; 57 men and 64 women. The number of recoveries was 39,\* 19 men

\* This includes 2 inebriates and 1 drug habitué discharged as not insane.

and 20 women. This was 32 per cent of all discharges, including deaths—33 per cent was of the men discharged or died, and 31 per cent was of the women discharged or died.

Twenty-one patients, 8 men and 13 women, recovered from the first attack, 2 men and 3 women from the second, 5 men and 1 woman from the third, 1 woman from the fourth, and 1 woman from the ninth attack.

In the 39 cases that recovered, the average duration of the disease from invasion to recovery was 12 months and 21 days; of the men 11 months and 17 days, and of the women 14 months and 1 day. The average duration of treatment was 7 months and 21 days; of the men 7 months and 15 days, and of the women 8 months and 8 days. The disease was reported to have existed before admission an average of 5 months; in the men 4 months and 2 days, and in the women 5 months and 24 days. The longest period of treatment in those recovered was 3 years 4 months and 17 days in the case of 1 man, and 5 years 6 months and 21 days in the case of 1 woman; the shortest was 1 month in 1 man, and 28 days in 1 woman.

Two alcohol habitués, 1 man and 1 woman, not insane, were discharged as recovered.

One case of morphine habit, not insane, a man, was discharged as recovered.

Thirteen cases, 8 men and 5 women, were discharged as much improved. In the cases of 5 men and 7 women, it seemed probable, at the time of their discharge as much improved, that they would have recovered if continued under treatment. Twenty-two cases, 13 men and 9 women were discharged improved. In the case of 1 woman, it seemed probable that she would have recovered if she had continued under treatment.

Of the 25 patients, 8 men and 17 women, who were discharged unimproved, it seemed probable that 1 woman would have recovered if she had continued under treatment.

### *PERCENTAGE OF RECOVERIES.*

The number of patients discharged as recovered during the year was 39, 19 men and 20 women, this being 8 more than the number who recovered last year. This was 25 per cent of all discharges including deaths, being 29 per cent of the men who were discharged or who died, and 26 per cent of the women who were discharged or who died.

The percentage of recoveries on admissions for the year was 28 per cent; for the men 30 per cent and for the women 26 per cent.

## DEATHS.

The number of deaths during the year was 22, 13 men and 9 women, this being 4 less than the number who died last year. This was 4.41 per cent of the whole number treated; 5.57 per cent of the men and 3.39 per cent of the women.

Five men died of general paralysis, 2 men of cerebral hemorrhage, 1 man of lobar pneumonia, 1 man of broncho pneumonia, 1 man of general peritonitis, 1 man of pulmonary tuberculosis, 1 man of asphyxiation (suicide), and 1 man of pernicious anæmia.

Two women died of lobar pneumonia, 1 woman of broncho pneumonia, 1 woman of general paralysis, 1 woman of cerebral hemorrhage, 1 woman of cerebral paralysis, 1 woman of pulmonary hemorrhage, 1 woman of pernicious anæmia and 1 woman of mitral insufficiency.

Six autopsies were made during the year, being 27 per cent of the deaths.

## MEDICAL SERVICE.

The work of the medical staff has been to some extent reorganized during the year. Dr. Campbell has been placed in general charge of the clinical and scientific work. Staff conferences are now held regularly twice a week, at which all new cases and others in regard to which a conference of the physicians is considered advisable are presented. During the coming year we hope to increase the number of medical officers in accordance with the budget adopted by the Governors.

The laboratory work has been carried on as heretofore by Dr. Amsden. In addition to regular clinical and post-mortem laboratory work, a chemical examination of the water supply has been made every two weeks during the latter part of the year. A bacteriological examination of the water is made at the same time at the laboratory of the New York Hospital. Dr. Amsden occasionally assists the New York Hospital physicians by applying the Wassermann test. The mutual relations between the laboratories is much appreciated by us.

Fortunately there has been no outbreak of infectious disease in the hospital during the year. Many serious physical conditions have, however, been met with among the patients. Eight serious surgical operations were necessary. These were attended to at the White Plains Hospital, to which the patients were transferred for the purpose. Although no serious difficulties arose because of the mental state of the surgical cases, it would, I believe, be advisable to make provision for some surgical work at the hospital.

The dental work at the Hospital has been attended to as heretofore by Dr. D. Austin Sniffen. During the year, 86 patients were treated by the dentist, the total number of visits being 484. Fifty-four teeth were extracted, and 276 fillings, crowns, plates, and treatments represent the work attended to. Arrangements have been made for systematic examinations and care of the mouths and teeth of all the patients hereafter.

### *NURSING SERVICE.*

The average daily number employed in the nursing service during the year was 128, the average number of men being 62 and of women 66. One hundred and forty-eight men and 77 women entered the service during the year and 143 men and 69 women left. Means should, I believe, be taken to improve the standard and the stability of the nursing service. No single feature of the organization of the hospital has a more important bearing on the care and treatment which can be given the patients. Some increase in the average wages paid and some reduction of the work hours would be helpful. An improved system of training and supervision and suitable nurses homes for men and women, where the living conditions would be more attractive than at present would, however, probably do more than anything else to bring to the work a higher grade of efficiency.

On May 25th a number of the Governors of the Society visited the hospital and participated with the members of the Bloomington Committee in the graduating exercises of the training school. Certificates were given to 2 men and 2 women who had completed the prescribed course and passed the examinations required. Two men and 6 women passed the junior requirements and entered the senior class, which now consists of 7 members, one of the men having left the service since the class was formed. Fifteen men and 12 women entered the junior class during the year, of whom 5 men and 2 women still remain in the class, the others having left the service or dropped out of the class. The above statement concerning the nursing service shows the need of making a special effort to place it on a better footing.

### *OCCUPATION AS TREATMENT.*

Occupation and training in occupation have, as heretofore, continued to be a feature in the treatment of the patients. The proportion of the patients who have engaged in some form of occupation has been considerably increased during the year. Mrs. Amsden has given instruction to several of the men and women attendants, who have been thereby enabled to apply better methods in increasing

the activity of the patients in wholesome pursuits. The number of patients to whom special training in occupation was given during the year was 70. The number of articles made was 886.

A creditable exhibit of the handiwork of the patients was presented at the Westchester County Fair. This attracted much attention and was of value in informing the public in regard to the treatment of mental diseases.

### *"SHORE REST."*

The cottage at Oakland Beach to which the name of "Shore Rest" has been given was opened for patients on August 29th, and remained open until November 6th. In the short portion of the summer during which it was available, 22 patients were given the benefit of a stay at the shore. The total number of days board furnished was 429. A day's outing at a time was also provided for 93 different patients, who made the trip to the cottage from the hospital by automobile. The total number of days outing thus provided being 330. Dr. Lyon generously placed at the disposal of the hospital his forty-foot launch, and forty-eight trips on the Sound, with an average of 6 patients on each trip, were made. All the patients who went to the cottage either for a day at a time or for a more extended stay were benefited, and several were much helped toward recovery. The prediction in regard to the Oakland Beach property, then recently purchased, which was made by Dr. Lyon in the report for last year, that it was "likely to be a very valuable addition to the facilities of Bloomington for treating patients," has been entirely fulfilled.

### *GENERAL REMARKS.*

The average number of patients in the institution was 351, 1 less than the average of the preceding year.

The number of weeks board and treatment furnished for patients was 18,247. The average expenditure per patient was \$13.43 per week, which includes the total cost of maintaining the properties at White Plains and at Oakland Beach, and the patients upon them, and is for all salaries and wages, repairs, supplies, and maintenance of every kind, except that our high-paying patients repay us for the exclusive services of their attendants, and we deduct this sum from the total expense.

Forty-five women were beneficiaries of the John C. Green Memorial Fund during the year 1911. The amount of income received from that Fund and expended for these women in 1911 was \$7,685.25. The total charitable expenditures during the year 1911 in caring

for and treating patients (preferably acute and presumably hopeful cases) was \$57,031.63. Two hundred and seven individuals shared in this charitable assistance, some being entirely and others partially supported. The sum of \$49,346.38 was expended for this purpose from the earnings of Bloomington Hospital during the year 1911, from which earnings charitable assistance to patients was given to the extent mentioned above. Over 9 per cent of the patients treated contributed nothing whatever to their support; 47.8 per cent of the patients paid sums varying from nothing to the bare cost of their care. Only 52.2 per cent paid a rate which secured a surplus for the institution. The total support and partial assistance rendered to patients unable to pay for their entire cost to the Hospital was equivalent to maintaining 81 free beds.

### *NEEDS OF THE HOSPITAL.*

The additions made by the Governors to the budget pay-roll for the coming year will permit of an increase in compensation in some positions, and also in some elaboration of the organization, which is much needed to increase the efficiency of the work. This will gradually be brought about as suitable persons to fill important positions can be secured.

Provision has also been made for increasing the laboratory equipment. Better facilities for certain treatment features which are now considered essential, and which have already been developed here to some extent, are also needed. The first floor of the women's gymnasium which is now occupied by only a few patients would, if slightly altered, answer admirably for such purposes as occupations, electrotherapy and mechanotherapy. There are rooms in the men's gymnasium which can be used for the men's occupations. This building is, however, not in good repair, and could with advantage be replaced with a modern building well equipped for physical training, occupations, and other treatment measures.

The hospital is already provided with hydrotherapeutic equipment and provision has been made by the Governors for tubs for prolonged baths, which are being installed. A suitable room equipped for surgical work would also be useful.

A large number of changes in the nursing force during the year and the condition of the training classes are sufficient evidence of the need of measures for bringing about more stability and better standards in this service. Nothing would contribute more to this end than to put the hospital in a position to house the members of the nursing service in suitable homes apart from the patients with whom they are in intimate relations during their duty hours.

Dining-rooms where the members of the nursing service may have their meals apart from the patients and employees of other departments are also needed.

The buildings and equipment of the hospital have reached an age and degree of wear and tear when many renewals will soon have to be made. The boiler and power plant, the heating and lighting equipment, the laundry and kitchen equipment and much of the plumbing all require thorough overhauling and such renewals and alterations as are needed to place them in good condition and to bring them up to modern requirements as to efficiency and economy of administration. The buildings have, as a rule, been kept in good repair, but considerable interior painting, and renewals or renovation of furniture and carpets are needed.

An extension of the hospital so that buildings for voluntary and convalescent patients somewhat removed from the present building would add materially to the resources in dealing with the lesser degrees of mental disease, for the treatment of which the provision made is everywhere inadequate.

The following changes in the medical staff have taken place during the year: Dr. Samuel B. Lyon, after twenty-five years' service, retired from the position of Medical Superintendent and was succeeded by Dr. William L. Russell on July 1st. Dr. Theodore I. Townsend, First Assistant Physician, resigned to take effect February 1, 1912, and was given leave of absence from July 1st to that date. Dr. C. Macfie Campbell was appointed First Assistant on August 1st. Dr. Lou Weldon resigned from the position of Medical Intern on August 8, 1911 and was succeeded by Dr. Milton A. Harrington on September 18, 1911.

In conclusion I beg to express my appreciation of the honor of my appointment to the position of medical superintendent and the generous support which has been given me by the Bloomington Committee and your Honorable Board.

Respectfully submitted,

WILLIAM L. RUSSELL,

*Medical Superintendent.*

## REPORT OF THE CAMPBELL CONVALESCENT COTTAGES, WHITE PLAINS, N. Y.

---

December 31, 1911.

*To the Board of Governors:*

GENTLEMEN:—The convalescent work during the year has steadily increased, and while we experienced a drawback in the form of isolation, owing to contagious and infectious sickness during the early months, the demand for accommodation for children has been steady throughout the year. Many times, we have been obliged to place portable cots in the wards.

While we have many children who are not bed patients, their condition and needs sometimes present a more serious aspect than is the case with those who recover satisfactorily from a definite illness. The Out-Patient Department of the hospital has become closely allied to the Cottages, and through its activity many sickly children in neglected circumstances are watched over for years, and are returned to us from time to time. In many cases, it is only owing to such vigilant care that the children are able to grow up.

During the past year, the children on the whole, have done well, and in some instances have exceeded our expectations.

Our system of treating children is expanding, and the experience gained in this work, which is quite unlike the ordinary hospital routine, is very valuable.

Many of our women patients have showed remarkable improvement, a number having gained in weight at the rate of a pound a day, during a stay of two weeks, and a few having made the surprising gain of from twenty to twenty-five pounds in a month.

We feel that our women patients owe much to the Social Service Department, which takes a keen interest in providing them with prompt and effectual means of convalescing, and which continues its assistance after they have been discharged from the Cottages.

### IMPROVEMENTS.

Toward the latter part of last winter, an enclosure was attached to the children's veranda, in order that they might have more indoor play room. This enclosure has been supplied with steam-heating, making it possible to dry the room in wet weather, and

also providing a comfortable place in which the children may receive their visitors on Sunday. In the past, the parents and children congregated in the women's sun-parlor, which was entirely inadequate. The present arrangement appears to be very satisfactory.

Our means of transportation has been greatly simplified by the automobile, which began its service early last summer. There are now no long delays in the basement of the hospital, and in the railway-station, when trains have been missed, and we are relieved of the embarrassment of finding ourselves on the train with many sick children, and babies in arms, for whom accommodation cannot be found.

Patients may now be brought from the hospital in any kind of weather, and the comfort with which a very sick patient may be transferred to the hospital has been demonstrated several times.

The automobile has also been a source of great pleasure to both the women and children, many of whom had never before been in a country place, while the children have been able to visit the Zoological Park.

Even during the winter months, the patients have had many pleasure trips, warm automobile-blankets adding to their comfort.

The kindergarten and school departments having proved how essential they were to the mental occupation of the children, it was decided to prolong the school term into the summer months. During the summer, the school work is carried on in an open pavilion, most of the winter practical work being replaced by gardening and nature studies. The children's gardens were a source of great pleasure to them last summer, and we contemplate allowing them to experiment with hardy vegetables during the coming year.

Some of the girls and boys very readily learn the art of basket-weaving, and do very creditable work. If they remained longer in the Cottages, they would be able to offer a very pleasing exhibit. As it is, they made several articles for Christmas purposes, and contributed a variety of baskets to the Nurses' Bazaar.

The school class which is conducted for the older children, is necessarily of a limited character, but has the advantage of being practically individual instruction, and even a small amount of school work is of value to these children, many of whom, at the age of nine and ten years, can neither read nor write.

In connection with the school work, we have introduced dumb-bell and breathing exercises, as a corrective for stooped shoulders and hollow chests, a child who carries himself erect, or has a developed chest being a curiosity here.

The pavilion for babies which was constructed last summer, has in reality become a summer ward. It is equipped with beds, tables

and portable mattresses, an arrangement which permits all the babies and young children to have their meals and after dinner sleep outdoors, which means an extra two hours daily in the open air.

Not the least of our additions to our equipment during the past year, are the bathing-table for babies, and the steam-sterilizer. Formerly, a small sterilizer of old-fashioned style was used, and a few articles at a time were laboriously sterilized. Our modern arrangement has become an important factor in the general plan of disinfection. The bathing-table speaks for itself, and has long since been invaluable.

The nurses have taken much pleasure in the tennis-court which was laid for them during the summer.

Through the kindness of friends, the attractiveness of the Cottages increases, many bright pictures having been added to our collection. A complete list of donations is appended.

#### LIST OF DONATIONS FOR 1911.

Mr. George L. Rives . . . . .	Pictures.
Mr. Howard Townsend . . . . .	Mirroroscope.
	\$5.00 for kindergarten.
Mr. W. P. Brown . . . . .	Yearly subscription for magazines for nurses.
	Books for women.
Bloomingdale Committee . . . . .	Woolen caps and dressed dolls. (Work of Bloomingdale Occupation Department).

1894	Miss A. M. ZIEGER.....	Private Nurse.....	Pasadena, Cal. (Mrs. F. P. Shull.)

## LEGACIES TO THE HOSPITAL.

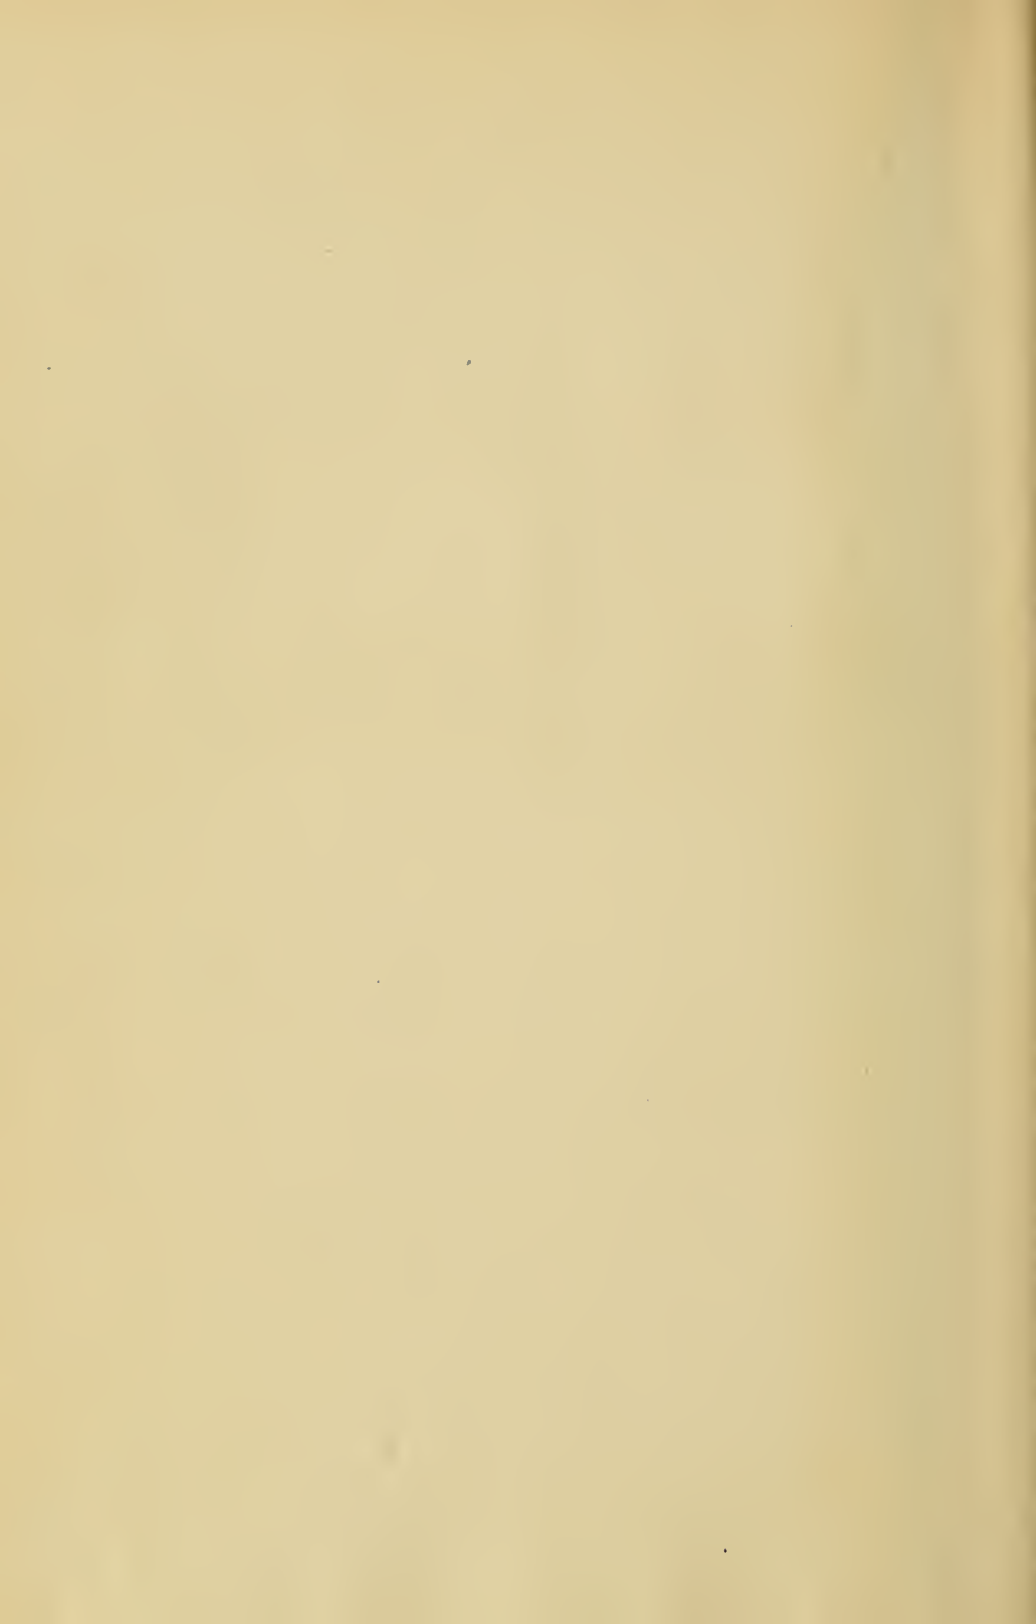

The Hospital has been greatly aided by this form of generosity. No precise words are necessary to a valid legacy to the corporation. The following clause, however, may be suggested:

"I give to THE SOCIETY OF THE NEW YORK HOSPITAL the sum of.....dollars."

If land or any specific personal property such as bonds, stocks &c. is given, a brief description of the property should be inserted instead of the words "the sum of.....dollars."
